This is the season when Sunday School Conventions are in order. The Sunday School is one of the most important additions to the Church. Were it not for Sunday Schools, the Churches would soon lapse. The Sunday School is one organization that is supposed to look after the children. In the children we have the future Church. But to go back to the conventions, many times these conventions are only such in name.

The denominations do not all participate, or if they do, it is kind of a hesitating regretting part that makes the parties taking part belie themselves. If the conventions are properly conducted they serve to unite more closely those churches now holding aloof. Then, too at these conventions we hear a lot of evidence of the greatest value if we are more than hearers. We are aware of the fact that a great many impractical things are suggested. Thing that if put to work in the average school and under the direction of the average Sunday School teacher or superintendent. A great many impractical things are suggested, and many of these things are not attempted by the suggestor himself. We have in mind a great Sunday School convention man who was always bobbing up in the discussions telling the other fellows how to do, and this same man himself was not a member of any Sunday School. Here is a case of advice on so important a subject that if one did not know who the party is, anyone would think was a Sunday School prodigy.

When we meet in our Sunday Schools conventions let us discuss

in a broad way, practical things, and endeavor to get great benefits from the discussions as well as by our daily practice. I am reminded that sometimes we hear older women who have been unsuccessful in raising their own children, whose children died in infancy, telling other women who have raised ten or twelve children successfully, how to raise children. It is no uncommon thing to hear ladies lecture on how to make bread, who never made a batch of bread in their lives, how to choose a husband, when they have never married or are divorced. There is decidedly too much theory in many things, a following certain fixed laws when the practical thing is what is wanted.

There are men going up and down the country telling others how to succeed, when they have been the most miserable failure imaginable. What the world needs today above all things is, men and women who do things, not those who know how.

So in our Sunday School Conventions, we prefer hearing a person who has the best class in school tell how he did it. That is what counts.

When Her Back Aches

A Woman Finds All Her Energy And Ambition Slipping Away.

Albemarle women know how the aches and pains that often come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, are frequent indications of weak kidneys and should be checked in time. Doan's Kidney Pills are for the kidneys only. They attack kidney diseases by striking at the cause. Here is proof of their merit in an Albemarle woman's words:

Mrs. R. D. Thompson, Schoolhouse St., Albemarle, N. C., says:

"My back ached and my kidneys were sore. The action of my kidneys was irregular and caused me annoyance. I also had nervous and dizzy spells. When I saw Doan's Kidney Pills advertised, I procured a box from Hall's Pharmacy and they helped me in every way. I still recommend Doan's Kidney Pills as highly as when I endorsed them some years ago."

For sale by all dealers. Price 50c. Foster Milburn Co., Buffalo, New York, sole agents for the United States.
