REASONS

WHY

**Remington Family Sewing** 

Machines

ARE SUPERIOR

Ist--Their Simplicity.

keeping them in order.

The use of them is very easily acquired, and any girl of ordinary intelligence is capable of

2d--The Construction

the speed has een registered, over 1000 stitches per minute have been attained with ease.

3d--Their Durability.

Being so strong in all parts, and fitted with

great in chanlesi nicely, and being free from the barsh, jorring movements and friction, so common in inferior machines, they will wear a long time without repair of any kind.

4th-Their Adaptability.

By a simple change of the needle and thread they will see the fin st cambrie or the heavi-est leather. All the various kinds of boots and shoes, buck-kin sewing, ciothing, caps,

stays, shirts, mantles and dross-making can be done with equal facility.

5th-The Shuttle.

Being large it will carry a great quantity of

6 h-The means of getting at

the required Tention on the thread is so sim-

pie and complete, that even backstitch on both sides of the material [which will not rip

7th-They will Sew

with equal facility silk, twist, linen thread and
