ANNOUNCEMENT.

It is with deep regret that we make the announcement that this issue of the BANNER closes its existence in Albemarle. After a suspension of two or three weeks the publication of the paper will be resumed in Monroe, N. C. under a new name...

THE SITUATION.

From the latest News. The latest advices "from the seat of war" do not change the results announced in the News of yesterday. The whole matter may be briefly summed up thus: The Democrats have carried the States of Florida, Louisiana and South Carolina...

THE STANLY BANNER.

COUNTRY, GOD AND TRUTH.

Vol. I. ALBEMARLE, STANLY COUNTY, N. C., NOVEMBER 16, 1876. No. 24.

would now be no doubt and suspense the Democratic candidate having a decided majority over his Republican opponent.

THE ELECTIONS. DEMOCRACY TRIUMPHANT.

Radicalism Dead! NORTH CAROLINA.

In this State Vance is elected by a majority estimated at 17,000—it may reach 20,000 but can not fall below 15,000. The democrats gain largely in nearly every county in the state over the Merrimon vote. Our Congressional delegation stands as it has been—the democrats carrying every district except the Second in which Brogden is elected by a decreased majority...

Hayes, to be elected, will have to carry every one of those States, and then will have a majority of one vote only; while with either one of them Tilden would be elected with several votes to spare...

In South Carolina Hampton is elected certainly by 1300 majority, but if Tilden has carried the State it is by a very small majority. It will be seen by telegrams published below that Grant, under a bogus pretence of fair play, has ordered troops on 1 brigadier-generals to Florida and Louisiana for the purpose of inaugurating wholesale villainy.

There seems to be little doubt that the Democrats have carried Louisiana by a decided majority; but telegrams indicate that the Radical Returning Board have determined to give the vote of that State to the Hayes and Wheeler electors on the ground of intimidation and fraud on the part of the democrats. It is the radical fashion in Louisiana to swindle the Democrats out of their well earned victories, and we look for no exception to the general rule.

Our readers can judge for themselves how the matter stands from the telegrams published below.

FLORIDA.

Louisville, Nov. 11.—The chairman of the democratic state executive committee at Monticello, Florida, says the most careful estimates on the figures of 1874 in counties not heard from, and the returns actually in, show a democratic majority surely. The counties not yet heard from are all democratic, and will give large gains. The majority can not fall short of 1,200.

Jacksonville, Nov. 11.—The distant counties in this State are still to be officially heard from. In regard to the election results, up to this time they can only be estimated, as there are no facilities for telegraphic communication with them.

New York, Nov. 11.—A dispatch was received at Democratic headquarters to-day from Lake City, Fla.,

stating that 18 counties gave a Democratic majority of 5,513, and that 9 counties gave a Republican majority of 6,587. The remaining 9 counties to be heard from gave a Democratic majority in '74 of 1,936.

SOUTH CAROLINA.

COLUMBIA, S. C., Nov. 11. Wm R. Cox: Hampton elected by 1,300; for Tilden about 400 less.

L. D. CHILDS.

CHARLESTON, Nov. 11.—By the latest corrected official returns Hampton's majority is 1,184. The full returns indicate that Tilden has fallen much more behind Hampton's vote than has been supposed. In 19 of 32 counties, Tilden's majority is 453 less than Hampton's. An equal ratio of loss in the remaining 22 counties, would leave Tilden less than 100 majority in the State.

New York, Nov. 11.

G. N. Smith: Returns received to-day from the South confirm the report of last night. We have undoubtedly decided majorities in Louisiana, Florida and South Carolina. National sweep certain.

W. T. PELTON.

Preparations for Rascality.

Washington, D. C., November 11.—General Sherman last night received telegrams from the Secretary of War, who is in Philadelphia, to order General Ruger to send as many companies of troops to Tallahassee as could be spared and to go himself in person. General Ruger answered that he had ordered nine companies and would order five more, and would go in person as ordered. General Sherman to-day received the following dispatches from the president:

PHILADELPHIA, November 10.

General W. T. Sherman, Washington: Instruct General Auger in Louisiana and General Ruger in Florida to be vigilant with the force at their command, to preserve peace and good order, and see that the proper and legal boards of canvassers are unimpeded in the performance of their duties.

U. S. GRANT.

PHILADELPHIA, November 10.

General Sherman Washington, D. C.: Send all the troops to Gen. Auger he may deem necessary to insure entire quiet and a peaceable count of the ballot actually cast. They may be taken from South Carolina, unless there is reason to suspect an outbreak there. The presence of citizens from other states, I understand, is requested in Louisiana to see that the board of canvassers make a fair count of the vote actually cast. It is to be hoped that representative and fair men of both parties will go.

U. S. GRANT.

Appointments to Go to Louisiana.

WASHINGTON, Nov. 11.—President Grant returned to Washington this afternoon. He has requested the following prominent gentlemen to proceed to New Orleans to inspect the counting of the votes in Louisiana: Hon Wm M. Evarts, Judge E W Slangton, Gen John A Dix and Gen James H Allen, of New York; Senators Sherman and Stanly Matthews, of Ohio; Hon Courtland Harker, of New Jersey; Senator Edmonds, of Vermont; Gen Ben Harrison, of Indiana; Senator Logan, of Illinois; Hon Wm D Kelley and Hon John S-hoonbry, of Pennsylvania, and Hon John A Kason, of Iowa. These and a few others have been invited; nearly all of them have been heard from and have accepted.

New York, Nov. 11.—The following have telegraphed their intention to start immediately for New Orleans in response to the call of the National Democratic Committee: Hon Lyman Trumbull, of Illinois, Ex U S Senator Hon J M Palmer, of Illinois, Ex Gov A G Curtin, of

Pennsylvania, Ex Senator Hamilton, of Indiana. Hon S P Doolittle, of Wisconsin, Ex Lieut. Gov Col. Baugh, of Illinois, Judge J B Stallo, of Ohio, Hon Oswald Ottendorfer, of New York, Hon Henry Watterson, of Kentucky, Hon Theo T Randolph, of New Jersey, Hon G B Smith, of Wisconsin, Governor Carroll, of Maryland, Ex-Gov Bigler, of Pennsylvania, Hon G W Fox, Ex-Ass't. Secretary of the Navy, Hon Samuel J Randall, of Pennsylvania, Prof. Sumner of Yale College, Hon H D McHenry, of Kentucky.

STILL IN DOUBT.

Table listing South Carolina (7) and Florida (4) with their respective vote counts.

Louisiana and Florida have almost certainly gone democratic, but the republicans are making a desperate effort to cheat us out of them.

The Surrounding Counties.

Montgomery county elects the whole radical ticket, except sheriff by about 125 majority. Vance, Steele, and the amendments are beaten by about same majority.

In Anson the whole conservative ticket is elected by about 300 majority.

Vance's majority in Union county is 99, and about the same for the general ticket; a large democratic gain.

Cabarrus gives a large democratic gain, and elects the straight out ticket by about 700 majority.

For Sale—Very Cheap.

People and Things.

A few years since, at the celebration of an anniversary, a poor peddler, who was present, being called upon for a toast, offered the following: "Here is health to poverty—it sticks to a man when all his friends forsake him."

A lady who was suffering under a slight indisposition told her husband that it was with the greatest difficulty she could breathe, and the effort distressed her exceedingly. "I wouldn't try, my dear," soothingly responded the husband.

A cool young gent. all of the modern days, entered a menagerie with a pig in his month, when the proprietor politely requested the visitor "not to teach the other monkeys bad habits." The young man proved himself equal to the occasion by producing his cigar case and saying, "try one."

"It is said that a hen held up by one leg will not squawk half as much as when both legs are grasped." Thanksgiving day is only one month hence, and persons who are accustomed to purchasing their poultry at night a few hours after the owner of the fowls has retired, would do well to cut this out and paste it in their hats.

A school-master tells the following good one: "I was teaching in a quiet country village. The second morning of my session I had leisure to survey my surroundings, and among the scanty furniture I espied a three-legged stool. 'Is this the dunce block?' I asked a little girl of five. The dark eyes sparkled, the curls nodded assent, and the lips rippled out, 'I guess so; the teacher always sits on it.' The stool was unoccupied that term."

Two little boys, one the son of a wealthy merchant, the other the son of a poor editor, were walking up the street together. Said the merchant's son, "we live in a brown stone house, we've got a man to black our boots, we keep two horses and a glorious carriage, and my mother never wears anything but silk dresses. What have you got?" "Well," said the poor editor's son, "I don't know. We've got pen and ink, and a whole lot of exchanges. We ain't got much but my father says your father is a dead-head." "What is a dead-head?" asked the boy in fins clothes. "I don't know," replied the unfortunate child of the literary man, "but I guess it's a body who don't ever pay for his newspaper."

REASONS

WHY

Remington Family Sewing Machines ARE SUPERIOR

TO ALL OTHERS.

1st--Their Simplicity.

The use of them is easily acquired, and any girl of ordinary intelligence is capable of keeping them in order.

2d--The Construction

Of the Machine is such that it may be run at a higher rate of speed than any shuttle Machine now in the market. In factories where the speed has been registered, over 1000 stitches per minute have been attained with ease.

3d--Their Durability.

Being so strong in all parts, and fitted with great mechanical nicety, and being free from the harsh, jarring movements and friction, so common in inferior machines, they will wear a long time without repair of any kind.

4th--Their Adaptability.

By a simple change of the needle and thread they will sew the finest cambric or the heaviest leather. All the various kinds of coats and shoes, buckskin sewing, clothing, caps, stays, shirts, muslins and dress-making can be done with equal facility.

5th--The Shuttle.

Being large it will carry a great quantity of thread—this saves to a great measure, the trouble of filling the bobbins.

6th--The means of getting at

the required Tension on the thread is so simple and complete, that even backstitch on both sides of the material [which will not rip or ravel] can be readily obtained.

7th--They will Sew

with equal facility silk, twist, linen thread and common spool cotton.

8th--They have no

rotary cast, cog wheels or lever arms, to run hard, make a noise, or to get out of order. By the new and peculiar movement of needle and shuttle, and thread controlling parts, there is less wear or strain on the thread used. The thread being set in the material unobstructed, the work is therefore better and stronger than that done on any other machine.
