She returned home and left the others to face the music. Of course they had music, as there were hickories in evidence, so there was not so much fun after all.

PRINTING

Good Printing Is the Dress of Business. That is the Kind We Do.

Let Us Show You

Are You Doing Your Part to Clear the Track for PROSPERITY?

The time has now come when everyone having ready cash or good credit should buy everything he can afford and everything he needs. He should help move the goods from the retailers, who are quoting fair prices.

Buying from the retailers enables them to order from the manufacturers, and gives the latter a chance to keep their workmen employed. One thing more—we cannot take as our goal in continuing the buyers' strike the prices that prevailed in 1914. Probably the man that was most insistent on 1914 prices is he whose own wages or salary is 50 to 125 per cent higher than prevailed in 1914, and our own common sense should tell us that we cannot bring about 1914 prices or conditions to 1914 wages and salaries. Therefore, continuing the strike, aiming to force a return to 1914, we can only bring down the whole industrial structure of the country on our heads.

If prosperity means anything to you and yours, cooperate with your retail merchant. Buy all you need and soon you will hear mills and factory whistles blowing every day.
