CO-OPERATION IN NORTH CAROLINA SOIL SURVEYS

Washington, D. C., July 12.—The North Carolina Department of Agriculture and the North Carolina Experiment Station are co-operating this season with the U. S. Department of Agriculture in soil surveys of Stanly, Cleveland and Orange counties. Under the co-operative arrangement adopted for these soil surveys, each institution pays the salaries and expenses of its own men, while the Federal government bears the expense of inspecting the work and publishing the report for each county.

This report will be accompanied by a large map showing in colors the location of the various kinds of soils with reference to roads, schools, churches, watercourses, and other features of the county. The nature of the soils, their adaptability for various crops and suggestions for the most advantageous use of fertilizers will also be discussed in detail, together with full information on existing agricultural conditions. Several months will be required to prepare the report and map after the survey has been completed.

Messrs. Jurney and Perkins are now in the county active engaged in this splendid work for the county. Our people are interested in the work and what it means for the county.

ROAD BILL SIGNED.

North Carolina Gets \$1,746,000 During Five Years.

Washington, July 11.—Representative Byrnes of South Carolina was one of the members of Congress who was invited today to witness the signing of the good roads bill by President Wilson. Mr. Byrnes is a member of the House Committee on Roads and was one of the first workers on good roads legislation, having co-operated with Logan Walter Page, of the Office of Roads, in drafting the first roads measure presented to Congress several years ago. "I predict that this bill, after its provisions become operative," said Mr. Byrnes today, "will be one of the most popular pieces of legislation of Congress, and that the next Congress will make a big increase."

The bill will make available in the Carolinas during the next five years a total of \$2,857,000, of which North Carolina will receive \$1,746,000 and South Carolina \$1,111,500. If these States accept the plan, which is co-operative, and which requires that they furnish an equal amount, a total of \$5,715,000 will be expended on roads in the next five years, and if the appropriations are increased, as predicted by Mr. Byrnes, twice that sum will be available.

MAYOR LINCKE, NASHVILLE, N. C., BOOSTS TANLAC

Writes to E. H. Drum: "Tanlac Does All That is Claimed for It."

It is largely upon the word of such well known North Carolinians as Mayor M. W. Lincke, of Nashville, that Tanlac's great success has established itself. Some few days ago the Honorable Mayor Lincke wrote to E. H. Drum, State Distributor of Tanlac, as follows:

"After a fair trial of Tanlac I have no hesitancy in pronouncing it one of the very best tonics and remedies on the market. It is all you claim for it and has worked such a wonderful change in my physical condition within the last few weeks as to warrant my departure from an established rule and I heartily recommend it to those who suffer with indigestion, nervousness and a general run-down condition. I unhesitatingly pronounce Tanlac one of the best remedies offered the public and will convince the most skeptical of its true worth."

"Yours very sincerely,

(Signed) M. W. LINCKE.

Nervous, weak and run-down men and women suffering from stomach, liver and kidney ills, indigestion, dyspepsia, sleeplessness, loss of weight, sluggishness, headaches, rheumatism and catarrh will find Tanlac the ideal reconstructive tonic.

Tanlac is sold in Albemarle by the Albemarle Drug Co.; in Oakboro, by the Oakboro Drug Co.; Wadesboro, by Fox & Lyon; Mt. Pleasant, by A. W. Moore.

PIG ALUMINUM SOON TO BE MADE AT BADIN

Operation of Plant Set for July 15.—Workmen Come and Go.—Badin is Now a Post Office.

The huge plant of the Aluminum Company of America at Badin will soon begin making its first output of pig aluminum. The much postponed date for the beginning of operations is now placed at July 15, but the installation of the necessary equipment is being rushed to completion, and the indications are that the first "pot room" will really begin work on that date or within 5 days afterward.

Part of the plant has already been in operation. That is the carbon house, which has been manufacturing carbon burners for use in the pot room. Electricians have been working night and day for the past week on the rotary station, getting this in shape to supply the tremendous voltage needed for the pot room. The juice will be obtained from the Southern Power Co. pending the completion of the big Whitney dam and Tallahassee Power Co. works, which is to furnish the permanent supply.

A single pot room working all the time, 3 thrifths a day, will furnish employment for 200 men. There are 8 pot rooms now in course of construction.

The opening of the first pot room was first announced for the 15th of last May and has been repeatedly postponed. Its actual opening will be greeted with much pleasure by the large number of workmen waiting to accept positions in this department.

Workmen continue to come and go here. Large bodies of men are constantly arriving on transportation, a few of them finding satisfactory situations and the remainder gradually leaving. Of the 400 men who arrived on the big transportation train from Florida 10 days ago, less than 100 remained. About a dozen of the 100 Durhamsites who arrived three weeks ago are left.

Badin is gradually assuming the appearance of a normal town. A large concrete passenger station is being erected at a convenient location between the plant and the residential section to take the place of the present supervised station located in some unused passenger coaches.

A post office has been opened next to the employment office. The office is small, but it is a great improvement over the former method of distributing mail through the company office and the commissary.

Work is going forward rapidly on the large graded school building which will be ready to take care of the Badin "kiddies" by next fall.

It is also rumored that Badin's railroad service is to be improved soon. A new train is expected to be put on in a few days between Badin and Whitney on the Winston-Salem Southbound.

SEMI-ANNUAL STYLE SHOW.

The well dressed men of Albemarle look forward with much interest to the coming of a representative from Strouse & Bros., the well known "High Art" Clothing makers. Very shortly he will be among us at the store of Morrow Bros. & Heath Co., with the newest creations in fall and winter fabrics among which will be patterns for the most conservative as well as the most extreme dresser. In other columns of this paper you will find advertisements which will be to your interest to read. You can obtain high-class custom tailored garments of the latest style at a cost within the reach of all. See the tempting array of new materials for fall and winter—it's a style education within itself.

July 13-25

Pastors' Conference and Union Meeting.

The Pastors' Conference and Union Meeting of the Stanly County Baptist Association will meet with the Silver Springs Baptist church, July 27-30. Every church is very urgently requested to send a good delegation to this meeting as there will be some very important subjects discussed. Let every pastor arrange to attend and help make this meeting a great success. No pastor can afford to miss this important meeting.

ROBERT P. WALKER.

Terrible floods in Alabama have wrought great injury to life and property. The Alabama River is said to be 7 miles wide, and threatens destruction to life and land.

FARMERS' DAY AT STATESVILLE, FRIDAY, JULY 21 ST

Every farmer in Stanly county, who possibly can, should go to Statesville on Friday, July 21. There are expected as many as 500 farmers from nineteen counties at Statesville on that date. The citizens of Statesville are to give a barbecue and every farmer in this as well as other counties are invited to be present. The purpose of the trip to Statesville is to visit the State Test Farm. Everyone who goes will be well repaid for his time and the small expense incurred by the information he will obtain to say nothing of the pleasure of such a trip. Farmers are urged to go in their automobiles if possible and the trip can be easily made there and back the same day, and this will be much more pleasant than going by rail. Those farmers who own cars should make up parties and let all share in the expense of making the trip. Mr. Sam Lenz who is interested in having a large delegation from Stanly county, is arranging for all the cars to start from Albemarle at 6 o'clock on the morning of the 21st. Let old Stanly have not less than 50 farmers at Statesville on that date—better have 100. A good trip, a good time, a good dinner, and a chance to see the splendid State Farm and meet up with at least 400 or 500 of your neighbor farmers. If you have not already done so you ought to write or call up Mr. Lenz and tell him you are going. Stanly county is making rapid strides in modern methods of farming and her farmers are among the most progressive in the State, and it is safe to say that many of them will take advantage of this splendid opportunity to learn more about up-to-date farming.

Quite a number in this community are sick with typhoid fever. Some of them are improving, we are very glad to state.

Born to Mr. and Mrs. Travis Turner, July 8, a daughter.

ANNUAL MASONIC PICNIC.

Annual Picnic Gathering for Benefit of Oxford Orphanage, July 27.

The thirteenth annual picnic for the benefit of Oxford Orphanage will be held in Albemarle on the 27th day of July, which is the last Thursday in this month. This picnic has become so well known that the people begin to look out for it ahead of time and make inquiry about it before it is advertised.

There will be the usual excursion trains run into this town by the various roads which always add greatly to the crowd. We will have one of the best speakers in the State to deliver the address for us this year, and will have fourteen of the orphan children to render in the picnic grounds a program well worth hearing, and one that is the equal of the best.

The Enterprise is always glad to advertise this annual picnic and gathering and deems it commendable in the good people that they are willing to do such a great work for so worthy a cause.

To those near and far we would say come in and see us; help the orphanage while here. We will learn each other better and become better as a result.

HOTEL AT BADIN.

I wish to announce that I have leased the new hotel at West Badin and am now ready to serve you. We furnish good service with reasonable rates. Everything new. When out our way, stop at the "Piedmont."—C. Giles, Proprietor.

NO INSTITUTE THIS YEAR.

We regret to say that we shall not have an institute this year. The State has arranged to have one-half of the counties to hold an institute one year and the other half to hold one the next year. This arrangement gives us an institute next year.—E. F. Eddins.

OUR LINOTYPE IN SHAPE AGAIN.

The Enterprise had its troubles last week and this. Although we have kept the wire hot, the factory failed to get the right parts to us until yesterday at noon. Hence, this issue must appear late, and many desirable news items and letters from correspondents must be omitted. However, we hope to be in good shape next week and ask our correspondents to have us short, but newsy letters, covering all important notes.

WOMBLE HAMMOND.

A beautiful home wedding occurred Thursday at 6 o'clock at the home of Mr. and Mrs. Peter Womble, on Lee street, when their attractive daughter, Miss Vennie, was married to Horace P. Hammond, of Albemarle. The parlor and hall were artistically decorated with palms and cut flowers and were lighted with numerous candles. Prior to the ceremony Miss Mary Hiatt charmingly sang "O Perfect Day," accompanied by Mrs. A. C. Bonkmeier, pianist. The bridal party entered to the music of the Lohengrin march.

The bride was accompanied by her maid of honor, Miss Florence Phillips, and was met by the bridegroom and his best man, H. W. King, before the altar improvised of palms. Here the pastor of the bride, Rev. S. C. Hilliard, of Forest Avenue Baptist church, administered the vows.

Little Florence Womble, sister of the bride, carried the ring in an exquisite white lily.

During the ceremony, Mrs. Bonkmeier rendered "Hearts and Flowers," very softly on the piano. The bride was attired in a handsome blue tulle suit with accessories to match and wore a lovely corsage of roses and lilies of the valley.

The bride is a popular young lady of Greensboro and Mr. Hammond is prominent in the business life of Albemarle. After the honeymoon in the north, Mr. and Mrs. Hammond will go to Albemarle to live.—Greensboro News, Sunday, July 9.

Commissioners Consider Typhoid Campaign.

Our County Commissioners in their session on the first Monday considered the advisability of an anti-typhoid campaign for Stanly county. The Board decided that it was important that Stanly should have such a campaign at once. They reached this conclusion by reason of the fact that there are at present several cases of typhoid fever in the county, and also that three deaths had recently occurred in the county from typhoid. The physicians in the county are heartily in favor of the campaign, but they also deem it advisable that such a campaign should be begun as early as possible.

Dr. Bullitt, representing the State Board of Health, was requested to notify the Board that our Commissioners sanctioned the campaign provided it could be begun by July 15, and if that date was impossible, the county could consider no date later than the first Monday in August, this year.
