That we will commemorate the life and virtues of our deceased eminent brother by a faithful daily practice of the precepts inculcated by the Three Great Lights in Masonry which will likewise fit us, when the silver cord shall have been loosed and the golden bowl broken, "To become living stones in that spiritual building—that house not made with hands—eternal in the heavens."

3rd. That we deeply sympathize with the aged mother, wife, and children of our deceased brother, and commend them to the watchful care and keeping of the All-Seeing Eye. 4th. IN MEMORIAM. Died on Saturday morning, November 5th 1887, Bessie, daughter of David and Margaret Pierce, aged 9 years and 7 months.

This dear little girl was the pride of loving parents, fond brothers and sisters and friends. She was a child of loving and affectionate disposition, and to her mother was a true blessing. Her sweet gentle face will be missed from the home circle, which she did so much to adorn. There will be one less to welcome the father upon his return home from his daily labors. One daring less, for the devoted mother, to imprint the kiss of affection upon at night, after the evening prayer has been said. It is hard to realize, but Bessie is dead. On Saturday last with noiseless tread, the loved ones went to and fro about the house, with bated breath, because little Bessie was dead—dead—no, not dead! Only gone to join little Hubert, her loving brother who has been waiting and watching for her on the "Other Shore." Her darling little brother Hubert, had preceded her but ten months ago to the Celestial City. When bright little Hubert died, the cup of grief of his parents was indeed full, and again these devoted parents are called upon in so short a period, to follow another precious jewel to the grave. Their cup now surely runneth over. The loss of these little ones are crushing blows, but God knows best. "He does not willingly afflict, neither does he wish to grieve the children of men."

Our blessed Savior whom on earth, was partial to the little ones, and reproved, on a certain occasion those who were present, by saying: "Suffer little children to come unto me, and forbid them not, for of such is the Kingdom of heaven." Christ our blessed Savior has called these two little ones, then why should we grieve or wish them back? Our hearts bleed for the stricken parents and relatives, in this time of their deep distress. We can only commend them to "Him who doeth all things well."

Little Bessie was a devoted member of the Ann St. M. E. Sunday School. The School met at the Church and proceeded in a body to her home, and then escorted her remains to the cemetery. The beautiful casket which contained all that was mortal of little Bessie, was entirely covered with flowers, which she so much loved, and which is also typical of the resurrection of the body. She was laid to rest under the beautiful old oaks, in Ann Street Cemetery, there to wait the resurrection morn.

"Beautiful spirit free from all stain, Ours the heartache, the sorrow and pain, 'Tis mine the glory and infinite gain— Thy slumber is sweet."

ITCHING PILES. SYMPTOMS.—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue to fester, it will often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in many cases removes the tumors. It is equally efficacious in the tumors. It is equally efficacious in the tumors. It is equally efficacious in the tumors.

BUCKLEN'S ARNICA SALVE. COMMUNICATED.

Amans Store, Onslow Co., Nov., 2d, 1887. EDITOR RECORD.—Our farmers seem to be fully awake to the fact that something must be done to improve our condition and appear to have gone to work earnestly. We have two working Granges in the County, one at Richlands, the other at Jacksonville there is great interest taken in both. Mr. Barry brought a message from Texas farmers, to our farmers, and last night organized the 11th farmers Alliance in our County. On Oct. 23th a County Alliance was formed; Delegates from each Alliance met at Jacksonville, our county seat, and made a strong body. It was estimated that some 400 farmers represented. These two organizations do not work against each other, but are helps to each other; in fact all Grangers nearly are members of the Alliance, and work faithfully as for the Grange, the aim of both is the same. We want to work as a unit, and not each farmer for himself; we have tried that long enough, and find that we can do nothing, except work hard and live poor. Crops in this section are a failure. No one will make more than a 3/4 crop, some not that. Brother Farmers let us hear from the workings of your Granges and Alliances. We take an interest in each other.

OUR NEW YORK LETTER.

[From Our Regular Correspondent.] New York, November 5th, 1887. Mrs. James Brown Potter's opening night at the Fifth Avenue Theatre was a brilliant affair as was expected. All the society friends of the debutante were among the audience. The audience was a representative one of wealth and refinement. The criticisms of the young actress were not wholly favorable. The play is a bad one and another will be presented next week. It is the exception to now see a ticket speculator in front of a theatre. Augustin Daly was the first to abolish that nuisance. In the lobbies of many of the play houses signs are conspicuously displayed warning people that tickets bought of speculators are worthless. Nevertheless tickets may be obtained at the hotel news-stands for all the theatres by paying a small advance on the regular price. By the way Daly's new play "The Ball Head of Love" is said to be an excellent piece.

As the campaign goes on the more filthy the political columns of the newspapers become. It is wonderful how low some of our respected (?) contemporaries will stoop to throw mud and otherwise injure a candidate's reputation. As the meeting draws near the excitement increases. On some of the open squares of the city nightly meetings are now held to ratify the nominations of certain candidates. An express wagon or a truck serves as a platform for the speakers who hold forth on the virtues of their respective men to an admiring crowd. A wheezy brass band generally uses all its influence and wind to attract the necessary crowd. A meeting of the United Labor Party was in progress Thursday evening as your correspondent happened to pass, several hundred people, mostly young loafers and unemployed men, were assembled around a truck from which a true son of the sod, who, probably, only a few months ago was cutting peat on the Emerald Isle, was denouncing capital, capitalists and newspapers in the strongest terms. The speaker talked much about many things his audience knew nothing about and many things he knew nothing about himself, nevertheless he was cheered lustily by the ignorant crowd.

There is more talk of pushing the Broadway elevated road through. Fortunately there are men interested in the enterprise who are good citizens and will not push a scheme for their own benefit that would be detrimental to the public interests. An underground rail road on Broadway would doubtless be a great convenience to the hundreds of people who are compelled to stand up in the cars of the elevated roads the whole distance up or down town. Legislative action will doubtless be taken to compel the roads to furnish a seat for every passenger or in other words to run more trains than they do at present. No one can conceive of the number of people who patronize the roads daily that is excepting the stockholders.

Another new club is added to the list and is known as the "Lawyers Down Town Club." The club occupies capacious apartments in the new Equitable building on lower Broadway. An electric surface car attracted considerable interest as it traveled up town on the Madison Avenue line of tracks. The car resembled an ordinary horse car in many respects the only difference noticed was the complication of wheels and belts in the centre underneath. An electric surface road is successfully operated in Newark. It is a great wonder that some of the lines of this city have not adapted the electric system in preference to the old style. It is evidently decided that the Third Avenue Company will convert their line into a cable road. It will be a good thing to get rid of the old cars of this line. They are beyond repair and very dirty. Many people prefer to walk rather than incur the danger of catching all kinds of diseases from Asiatic Cholera down by patronizing them.

A stable was destroyed by fire in 48th street on Friday night and twenty five horses were destroyed with it besides a number of valuable carriages. Cold weather has no terrors for the equestrians, they may be seen in larger numbers than ever galloping through the park. Their friends in the carriages look decidedly uncomfortable some holding their ears and some clapping their hands to keep up the circulation. The beautiful autumnal foliage has long since disappeared and the trees are stripped entirely of their leaves. The squirrels are running hither and thither through the park busily engaged in laying in a supply of nuts and all the metropolitanism is said to be engaged in preparing for the snow, ice and slush of a New York winter.

The advantages of a reliable, safe and efficacious Family Medicine, is incalculable, and when such is found, the blessing is thus happily expressed. I EXCLAIMED, "EUREKA!" I have been using Simmons Liver Regulator myself some five years or more, and my family also, and can testify from experience to its virtues. I never recommend a medicine unless I know it to be good. In a ministry of twenty-five years I have often felt the need of such a medicine and when I found it I exclaimed, "Eureka."—Rev. J. P. Harper, proprietor of the "Christian Visitor," Smithfield, N. C.
