Notices of deaths and marriage published free of charge.

Entered at the Post Office in Bayboro N. C. as Second-Class matter.

Not Glad But Sorry The People Were Fooled

There are scores of cotton growers in North Carolina who were fooled by the Republican claim that if Parker should be elected, the price of cotton would go down. Some of them listened to the Republican cry "Roosevelt and High Cotton" and voted for Roosevelt. Others were partly persuaded by the sophistry of Republicans and did not vote at all. These men have found that the Republican cry was all a lie by seeing cotton go down to six cents very shortly after Roosevelt was elected by an unprecedented large majority, and because the Democratic papers have called attention to the exposure of the deception practiced by Republican speakers, the Hickory Times Mercury is moved to make this statement:

"Since Roosevelt was elected many two-by-four politicians are glad farmers are losing on their cotton. That shows a bad spirit, since a majority of the farmers South voted for Parker."

We have seen no politician—two-by-four or other kind—who are "glad farmers are losing on their cotton." On the contrary the politicians, like other folks, are sorry that the price of cotton has gone down below the cost of production. They have properly called their attention to the fact that the Republican promise of "Roosevelt and High Cotton" stands exposed as a naked falsehood and wicked deception. That's what hurts the Radical organ!

Just suppose Parker had been elected! The slump in cotton would have been declared to be the immediate result and the Democratic party would have been abused by every Radical paper in America as the author of the starvation prices of cotton.—Raleigh News-Observer.

White Girls For Hotel Help.

It was learned here last night that 25 white girls from Boston had passed through Norfolk on the way to Pinehurst where they will take places in a hotel, supplanting the negroes employed there. It is understood that the change was made on account of objection to colored help on the part of the guests of the hotel.

This brings us up to the point to ask why do the guests of the hotels object to colored help. Pinehurst is a place of winter resort for Northern people and the negro is migrating from the South to the North especially the negro women looking for and obtaining positions as

help, yet was the Northern guest of a hotel here in the South objecting to that kind of help and compelling the proprietors of this hotel to get Northern white help in their places instead, what is the cause of it? We are no prophet nor the son of a prophet but it does not take prophetic knowledge to see, that the time is coming and coming fast when all over the South white labor will be here taking the place of the negro labor, especially the female branch of labor, the cause or causes are plain and every day and year presents the case plainer and plainer to a careful observer. There is more than one cause for this. The sons and daughters of Ham are fast becoming Ishmaelites in the land both North and South, East and West. The South has got to have reliable labor and already several States have established emigration bureaus looking to supplying the country's wants, emigration once turned Southward, it will continue until all demands are supplied.

The Grand Jury Abolished.

Minnesota has abolished the grand jury by constitutional amendment and has just acted the Legislature to provide some method of bringing to trial accused persons other than by indictment at the hands of a grand jury. The plan that will be evolved will be watched with interest. If it can be improved upon, let us have the improvement, but it still requires the exercise of the highest wisdom to devise a better system than the grand jury system.
