

# POTATOES

Every indication seems to assure us that potatoes should bring a fair price to the farmers this year. Are you going to squander this money or save it? Money saved now will be worth much more when prices become normal. This is not the time to squander, but to save. Now is the time to start a bank account or add to the one already started.

## Bring Us Your Potato Checks

We will supply what cash you need for immediate use, but let us suggest that you deposit your checks and pay all bills with your own check. This is the only safe way and the only business like way. Our check books and our services are free.

#### If your heels are inclined to "run over"—

it is because your arches are weak. This causes the foot to "rotate" at the ankle, throwing the body weight inward and causing the position illustrated.

**Dr. Scholl's Walk Strate Heel Pads** correct faulty walking and standing. Prevent crooked, run-over heels. Add grace to carriage. Save repair bills.
