

**"ZIRON IS A GOOD MEDICINE"**

Says Rook City, Ala. Gentleman, After Having Given it Conscientious Trial.

Ziron is a new scientific combination of pure, inorganic, official, U. S. Pharmacopeia iron, with the hypophosphites of lime and soda and other valuable tonic ingredients, recommended by the best medical authorities in the treatment of anemic conditions.

Ziron helps to put iron into your blood and this helps to build strength for you, when you are pale, weak, nervous, depressed.

Read what Mr. Sidney Fry, of Rook City, Ala., says, and then try Ziron. He makes the following statement:

"Something over a week ago I used Ziron for the first time. I was troubled with indigestion and had a spell of weakness. Ziron helped both troubles. I felt stronger and my stomach quit hurting. I really feel that Ziron is a good medicine. It surely helped me."

Your druggist will sell you Ziron on a guarantee that if the first bottle does not benefit you, he will refund the money you paid him.

**Red Squirrels.**

The red squirrels are found most abundantly in woods of chestnut, hemlock or oak trees. The little squirrels do not lay up big cores of food as some of the other varieties. In summer time they make excursions to the fields and orchards. Apple seeds are a favorite delicacy.

**A Woman's House Plan.**

It is really remarkable how few women architects there are. Every woman has a sneaking desire to build a house from her own plans. Occasionally one does. Just so that she may have enough closets. Then she spends the rest of her life looking in them for burglars.—Life.

**Good Friday.**

Good Friday has been observed since the earliest days of Christianity in memory of the crucifixion of Jesus Christ, which event is said to have occurred Friday, April 15, 29, A. D., or April 3, 33, A. D. The expression "Good (probably God's) Friday" is said to be peculiar to the Church of England. Good Friday is observed the Friday before Easter.

**Music Attachment for Big Clocks.**

As an attachment for large clocks an inventor has developed a device governed by a perforated paper roll to play a different air on tune pipes just before each hour is struck.

**Education in China.**

Literacy among the people of South China is greater than among those of the north. Claim is advanced in Canton that nearly all the children of Cantonese parentage, except those of the large boat population can read; whereas in the north it is unusual to find a family the children of which are all placed in school.
