Parker Speaks to Students

Editor of The Beaufort News:

On the evening of April 17, Hon. John J. Parker, Republican Candidate for Governor, made a showing where in the Democrats had failed to encourage agriculin the State. He made his points so clear that nobody has been able to find any fault with the issues brought forth by him. A "Good Old Democrat" will say that he is a good man for Governor, but is allied with the wrong party. We have all learned the old time tune of a Democrat.

In 1907 Hon. J. J. Parker was ses and the Law Medal.

nominee. Mr. Maxwell accepted the verdict of the convention in good part. Mr. Rouse was not satisfied and is now a candidate in the primaries which he has a legal right to do but hardly a moral right. His desire to be the nominee has gotten the bet ter of his judgment.

Mr. Herring will of course be the nominee, having nearly the solid support of the party behind him. It will be well for all Republicans to vote however and make the decision practically

SAVINGS INVESTED AT HOME

Illustration of What a Little Forethought Can Do to Aid in Town's Development

The business men of an Ohlo community discovered, some years ago. that a considerable portion of the savings of its people were flowing out into the hands of promoters of wild-cat schemes, and that other funds were being invested outside the community in enterprises that were certainly no more promising than the community

So a committee of members of the commercial organization was formed and it was announced that this committee would pass upon investments offered to the people-this being before Ohio had a "blue sky" law. The commercial body frankly announced that capital was needed for the further development of the city's natural resources. While members of the commercial body pledged themselves to give preference to local investments, there was little difficulty in gaining what part of the country a citizen Ordinarily political platforms almost as complete co-operation from non-members of the organization Money was kept at home, and it went largely into the financing of the city's natural industrial expansion,

Here was another instance wherein the natural course of development was most obvious, but in this one the people saw it, while in so many instances they overlook it.—The Nation's Busi-

Diamond and Platinum Jewelry of Exquisite Charm

Last year we predicted very heavy advances in the price of diamonds

Our knowledge of the diamond market coupled with over a quarter of a century of close association and study of diamonds gave us a fair insight into diamond conditions

We wish to again be placed on record that within the next two years that good diamonds will sell for over \$1200. per carat

We had enough confidence in our knolewdge of diamonds to buy all of them we could finance, and the interesting part of it is, that we are now SELLING DIAMONDS AT 1919 PRICES,
