der the act of March 3, 1879

When the price of potatoes is
high it is a hard crop to beat.
They are planted in February or
March and gathered in June.
This is a quick turn over of cap-
ital invested and besides the
same land raises another crop of
cotton or something else.

The recent organization of a
large fish oil and scrap company
here will mean a great deal for
the industrial life of this commu-
nity.

A good many people are say-
ing that in eliminating Mr. Page
from the gubernatorial contest
that the Democrats left out their
best man.

The total Democratic vote for
Governor in the primary was
only about 125,000 with all the
hurrah stuff that the candidates
indulged in. As the Republicans
expect to poll at least 150,000 in
November it looks like no mat-
ter who the Democratic nominee
may be he is going to have a
fight on his hands.

They say the boll weevil is
coming this way. Well so far
we have not heard that he can
eat potatoes or soy beans, to say
nothing of Harker's Island onions

We think we know who is
going to get the Democratic nom-
ination for Governor but we are
not going to tell yet.

Some of our exchanges are
coming to us in a much smaller
size nowadays and some are not
coming at all. We guess paper
must be getting a little scarce
with some of the brethren.

Platform And Candidates:

The Republican National con-
vention has adopted a conserva-
tive platform and put a conserva-
tive candidate on it. They have
thrown down the gage of battle
to inter nationalism, Socialism,
Bolshevism and the various other
isms that are plaguing the hu-
man race. The party stands for
a rule of common sense against
a rule of non sense.

One of the best arguments in
favor of the nominee Senator
Harding and the platform on
which he will run is, that the
oft repudiated Bryan is bitterly
opposed to both. This certainly
ought to commend candidate and
platform to the American people.
Bryan trots out his old thread
bare arguments about "the inter-
ests" and "Wall Street" with
which he has so often tried to
fool the people and utterly failed
in doing so.

As a great many Presidents
have been Mr. Harding is a self
made man. In his youth he
learned to be a printer and did
for years work on a newspaper.
He is the owner and publisher of
a newspaper now and is a suc-
cessful man of business. More-
over in politics he has been suc-
cessful, having arisen to the
United States Senate of which
body he is an honored and influ-
ential member.

Governor Coolidge of Massa-
chusetts is plenty big enough to
be President himself and in nam-
ing him for Vice-president the
party made no mistake. He will
add much strength to the ticket.

Of course nobody can tell what
is going to happen in politics,
but the outlook now is that the
Republican ticket will sweep the

country. The recent elections,
primaries and straw votes have
shown this. For instance in Ne-
braska, Mr. Bryan's own state,
in a recent primary the Demo-
crats polled 76,000 votes while
the Republicans got 130,000.
Many other similar instances
can be shown.

It looks then like a Republican
year, but there is going to be a
considerable fight. The Demo-
crats have enjoyed being in pow-
er for eight years and will give
up with great reluctance. As
to what sort of a showing they
will make depend largely on
their convention next week.
That will have acted soon and
then the people can take the case
and render their verdict.

On The Honor Roll

According to a table of statis-
tics supplied by W. N. Poindex-
ter of the State University and
based on the reports of the State
Auditor and Superintendent of
Public Instruction there are 33
counties in North Carolina that
draw more out of the State treas-
ury than they pay into it. We
are pleased to note that Carteret
County is not one of these "pauper"
counties as they are called.
According to the statistics Car-
teret paid into the State chest
in 1918 \$7,482 more than she
took out and stands higher in
the column than 66 other coun-
ties.

A very surprising thing about
this matter is that certain coun-
ties that are supposed to be
among the best in the State are
either in the "pauper" list or else
rank very low in the "surplus"
column. Among these may be
mentioned Ashe, Catawba, Burke
Lincoln, Gaston and Wilkes.
Gaston county is the largest cot-
ton manufacturing county in
North Carolina and for that mat-
ter in the entire South. It has a
thriving little city in it and many
small towns and a large number
of rich men and corporations.
There is a great deal of wealth
in Gaston and it is absurd that
such a county has to have help
from Carteret and other moder-
ately wealthy counties.

Probably the truth is that in a
lot of these counties property
has been assessed far below its
real value and that they are
avoiding their responsibilities to
themselves and the State. The
people of Carteret may justly
feel proud of the fact that they
are not relying on other folks to
educate their children.

TO THINKING PEOPLE

Did you ever stop to think that whenever a professional man was
compelled to go away from his home searching up patronage, that perhaps he
had lost the confidence of his home people and if they would not patronize him-
WHY?

In the first place scientific eye examinations are made with fragile
instruments that are not lugged from town to town.

Take notice that these traveling spectacle men have a small case
full of glasses, and merely keep trying them until you tell them with which you
see clearest.

DO YOU IMAGINE IT TAKES MUCH SKILL TO DO THAT

Every patient that comes to me is handled with the some care that
would be taken with my own mother or my own child.
