

# Put Your Money in the Bank

During the potato harvest we have paid many thousands of dollars to the farmers. We have given the farmer the right of way and have, at considerable expense, furnished cash when it was desired. We have worked day and night trying to give as good as possible.

A large number of farmers have decided to do their business like other business men and deposit their money and pay their bills by check. We appreciate the business intrusted to our care. To those who took cash, we invite you to return it and place it on deposit. If you pay your bills with cash, you may have to pay again, but if you pay by check the check comes back to you as your receipt to protect you forever.

*This is the time to save. A Dollar saved now may be worth two dollars to you when conditions return to normal*

## Beaufort Banking and Trust Company

The Largest Bank in Carteret County
