**INVENTIVE GENIUS  
ROBS CALOMEL OF  
NAUSEA AND DANGER**

Doctors' Favorite Medicine Now  
Purified and Refined from All  
Objectionable Effects. "Calo-  
tabs"—the New Name.

What will human ingenuity do next?  
Smokeless powder, wireless telegraphy,  
horseless carriages, colorless iodine, taste-  
less quinine—now comes nameless calo-  
mel. The new improvement called "Calo-  
tabs" is now on sale at druggists.

For biliousness, constipation and indi-  
gestion the new Calo tab is a prac-  
tically perfect remedy, as evidenced by  
the fact that the manufacturers have at-  
tributed all druggists to refund the price  
if the customer is not "perfectly delighted"  
with Calotabs. Calo tab is bedtime with  
a swallow of water—that's all. No taste,  
no nausea, no griping, no salts. By morn-  
ing your liver is thoroughly cleansed and  
you are feeling fine, with a hearty app-  
etite. Eat what you please—no danger—go  
about your business.  
Calotabs are not sold in bulk. Get an  
original package, sealed. Price, thirty-  
five cents.—(adv.)

**THANK YOU**

Another half year has passed.  
It has been the best half year in our history.  
The perfect confidence of the public in your strong bank,  
as evidenced by the greatly increased business, is very  
much appreciated.

We thank you for the business intrusted to our care  
and solicit your continued co-operation.

**Notice Of Sale**

North Carolina,  
Carteret County.

Under and by directions of an  
order of the Superior Court of  
Carteret County made in the  
special proceedings entitled J. B.  
Jones vs Joseph Fisher et al,  
same being No. 439 on Special  
Proceedings Docket, undersigned  
Commissioners will on Monday,  
August 2, 1920, at 12 M o'clock  
at the Court house door Beau-  
fort, N. C., offer for sale to the  
highest bidder for cash that cer-  
tain real estate in the town of  
Beaufort North Carolina, de-  
scribed viz: The Northern half  
of lot numbered one hundred  
two (102) Old Town; same being  
(55) feet on Turner street, and  
one hundred ten (110) feet on  
Broad street, excepting that part  
of said half lot sold by Chas. H.  
Bell to Rosanna Fisher by deed  
April 7th 1870, book EE, page 89  
beginning at N E. corner of said  
lot 102 on Broad street run West  
with Broad street 22 feet, thence  
south 55 feet to southern bound-  
ary of said half lot thence 22  
feet east to east boundary of  
said lot thence North to the be-  
ginning. Sale subject to the con-  
firmation of the Court.

This 29th day of June 1920.  
Julius F. Duncan  
Commissioner of the Court. 7-29.

**An Everlasting Memorial.**

Nature has a great part in this last-  
ing and beautiful memorial, that is to  
be erected to the local service men in  
the city of Santa Monica, Cal. It is  
to be a large open-air theater, and  
will take the conventional Greek form,  
with seats arranged in concentric tiers,  
the orchestral area in the center and  
pillared stage at the bottom of the  
slope. As in the conventional the-  
aters of ancient Greece, the site and  
background will be a beautiful wooded  
hillside.

The level area in the center will be  
floored with mosaic stone work. This  
beautiful tribute to the service men  
will, no doubt, be the pride of the citi-  
zens of this city for many years to  
come.

**Division of Income.**

"In my opinion," writes a wife,  
"there is only one satisfactory arrange-  
ment which a young couple can make,  
and that is to take the weekly income  
and divide it into separate sums, some-  
thing on the following lines—rent and  
taxes, charities and church collections,  
doctor, dentist, etc., holiday fund and  
savings, an equal sum for pocket mon-  
ey for each of the young couple, an  
equal sum for dress for each. My hus-  
band and I have been wedded over six  
years, and have two bonny children,  
but we always divide our weekly in-  
come in this way."—Happily Married.

**The Rage.**

The movie star was sobbing as if  
her heart would break.  
"What's the matter, dearie?" asked  
her friends.  
"I want to get a divorce," replied  
the teary one, "but my husband is so  
good to me that I cannot find any  
grounds."—Film Fun.

**No Wonder.**

Otis—You say that something at the  
banquet last night disgusted you?  
Chester—Yes! had too much climate.  
Stat between a California native son  
and a man from Florida.—New York  
Evening Post.

**Temporary Truce.**

Grace—I hear that Charles and Hal-  
low have made up their quarrel.  
Gus—Only temporarily. They are  
going to be married soon.—Edinburgh  
Scotland.

**DID BOSSY NEED TAIL LIGHT?**

Incident That Has Given Long Island  
Judge a Peculiarly Knotty Prob-  
lem to Solve.

A justice of the peace, Egbert L'Ec-  
luse of Great Neck, Nassau county, L.  
I., has during his term of office had  
some very knotty problems to solve,  
but he declared yesterday that his  
most difficult one is now before him.  
The problem is: "Can a cow moving  
along the highway at night be con-  
sidered such a moving vehicle under  
the motor law as to be compelled to  
carry a red light in the rear?"  
"The facts in this case are unusual,"  
said Judge L'Ecuse. "One of our most  
influential residents was driving home  
the other evening in an automobile.  
Ahead of him was a man in a wagon  
who at one stage of his progress had  
been lending a cow attached to a rope  
at the rear of the wagon. The wag-  
on, as required by the law, had a red  
lantern at the rear. The cow had ob-  
jected to the leading rope and had  
surreptitiously pulled loose and pro-  
ceeded to select her own route over  
the highway. The Great Neck resi-  
dent was coming home in his automo-  
bile with members of his family. He  
saw the red light at the rear of the  
wagon and shaped his course to avoid  
it. In doing so he ran into the cow,  
which had no rear lights exposed.  
Quite a mixup followed.

"The driver of the automobile has  
now applied to me and requested a  
warrant for the arrest of the owner of  
the cow on the grounds that the cow  
was moving on the highway without  
the proper rear lights. You know  
there are so many constructions to the  
laws that even the justices of the su-  
preme court of the United States dif-  
fer at times. To give proper construc-  
tion, therefore, is not an easy task for  
an humble justice of the peace."—New  
York World.

**Purely Chinese Industry.**

A strong combine of Chinese firms  
in Hongkong, headed by Yuet Loong  
Chan & Co., controls the importa-  
tion of "Soo Mook" wood from the  
Philippines; and makes the red ink or  
paste that up and down the Chinese  
Republic is used for making the "chops,"  
or seals, that the Chinese employ in  
affixing their signatures to documents  
of a formal nature. In India and oth-  
er parts of the Philippines the tree is  
called the "hibiscus," and it has its in-  
terest for Americans in that it pro-  
vides also the dye which stains red  
the paper that the Chinese use to  
make the fire crackers that the Amer-  
ican small boy has long been familiar  
with on the Fourth of July. Thus the  
tree, which is so little known to the  
world at large, gets rather amazingly  
distributed in the form of a dye, ink-  
ing "chops" for China and coloring  
fire crackers for the United States,  
as well as helping in coloring Chinese  
clothes and stationery.

**Harnessing the Sun's Rays.**

That the rays of the sun can be used  
for curing many skin diseases, and  
that sun baths are beneficial to those  
who are in perfect health, is well  
known. The problem of utilizing this  
agency in northern countries where  
the hours of sunshine are few has  
been solved, he claims, by a British  
doctor, M. J. de Theze.

His invention consists of a revol-  
ving cabin, combined with a huge lens  
for concentrating the rays on any part  
of the enclosed patient's body. This  
installation has just been tested in the  
neighborhood of Quimper, France.—  
Popular Science Monthly.

**Fireproofing Mine Timbers.**

A coating of magnesia cement of  
the timbers of mines is declared to  
be an economical and efficient assur-  
ance against fire, especially in the  
arid regions where timber becomes  
highly inflammable and is difficult to  
replace. The magnesia stucco, which  
is abundantly available on the Pa-  
cific coast, is applied in two coats,  
each 1/4 in. thick, putting the second  
on before the first has set. When  
dry, it is elastic, adheres firmly to  
almost any surface, and is stable and  
durable. It is an insulator, and re-  
sists fire, water and climatic changes.  
—Popular Mechanics Magazine.

**Do Yours  
Look Like These?**

Ruddy-cheeked, vigorous,  
healthy youngsters—sick-  
ness never troubles them.  
Their glowing health is a  
joy to everyone.

Nourishing food keeps  
their little bodies sturdy and  
strong, but the waste prod-  
uct of this food is danger-  
ous, if not gotten rid of  
thoroughly and effectively.

Nujol is particularly valuable  
for relieving constipation in children  
as well as in grown-ups, as it  
does not upset the stomach, cause  
diarrhoea or form a habit.

Nujol works on an entirely new  
principle.

Instead of forcing or irritating  
the system, it simply softens the  
food waste. This enables the  
many tiny muscles in the walls of  
the intestines, contracting and  
expanding in their normal way,  
to squeeze the food waste along  
so that it passes naturally out of  
the system.

Nujol thus prevents constipation  
because it helps Nature maintain  
easy, thorough bowel evacuation  
at regular intervals—the health-  
iest habit in the world.

Nujol is absolutely harmless and  
pleasant to take. Try it.

Nujol is sold by all druggists in sealed bottles only, bearing Nujol Trade  
Mark. Write Nujol Laboratories, Standard Oil Co. (New Jersey),  
10 Broadway, New York, for booklet "Thirty Feet of Danger".
