Worth-While Saving.
 An efficiency expert found that the girls in a hat manufactory whose work it was to sew silk-ribbon bows and hat bands on hats wasted bits of ribbon valued at \$800 a year in cutting by guess from the rolls of ribbon given to each girl. Now the ribbons in that factory are cut by accurate gauges.

Wonderful What Eugenics Can Do.
 "Wanted—three or more furnished rooms for light housekeeping. Have two indestructible children."—Boston Transcript.

Cause for Admiration.
 Mildred's mother married an elderly looking man with a gray beard. When Mildred's aunt asked her if she liked her new father, she said, "Oh, very much, because he looks like Santa Claus."

Immunity From Second Attack.
 The United States public health service says that it is well known that an attack of measles or scarlet fever or smallpox usually protects a person against another attack of the same disease. To some extent this appears to be true also of influenza. Just how long such protection lasts is not known.

Malots Among Moroccans.
 In Moroccan encampments the tents of several of the tribes are often topped with copper balls and decorated with

Safety First

The days of cheap money are rapidly passing. We advised you a year ago that money placed in our Savings Department on four per c interest would soon be worth much more than the interest to you

If you did not save when money was cheap, you will find it harder from now on, but this makes it doubly important that what money you can save goes in a strong bank

With our large capital stock and surplus and our splendid record of success we solicit your business with assurance that your money will be perfectly safe with us
