

# SUNDAY SERVICE and Lodge Meetings

## HOURS OF SERVICE

It has been agreed to hold Sunday night services at 7 p. m. during November, December, January and February, at 7:30 P. M. during March, April, September and October, and at 8 p. m. during May, June, July and August.

### ANN STREET M. E. CHURCH.

E. Frank Lee, Pastor.  
J. A. Hornaday Jr., S. S. Supt.  
Preaching services every Sunday 11:00 A. M. and 7:30 P. M.  
Sunday School every Sunday at 9:45 A. M.  
Prayer service Wednesday evenings 7:30.  
Ladies Aid Society 1st Monday of each month at 3:30.  
Missionary Society 1st Tuesday of each month at 3:30.  
Mission Study Class 2nd and 4th Mondays of each month at 2:30.  
Philathea Class meeting at 7:30 P. M. on 2nd Monday evening each month.  
Teacher Council on 1st Thursday of each month at 7:00 P. M.

### FIRST BAPTIST CHURCH.

Ann Street  
L. B. Boney, Pastor  
Services Sundays  
Sunday School 9:45 A. M.  
Hon. M. Leslie Davis, Supt.  
Preaching by the Pastor 11 A. M. & 7:30 P. M.  
Junior B. Y. P. U. 7 P. M.  
Mondays  
Ladies Aid Society 2:00 P. M.  
Tuesdays  
Senior B. Y. P. U. 7:00 P. M.  
Wednesdays  
Mid-week Service 7:30 P. M.  
3rd Sundays  
Woman's Missionary Society 3:00  
A cordial welcome is extended to the public to worship with us "Come thou and go with us and we will do thee good"

### ST. PAUL'S EPISCOPAL CHURCH

Ann street between Moore and Orange Streets  
Rev. George W. Lay, D. C. L. Rector.  
Sunday Services  
Holy Communion, 8 a. m. except first Sunday. Sunday School, 9:45 A. M.  
Holy Communion and Sermon, 11 A. M. on first Sunday of each month.  
Morning Service and Sermon 11 A. M. on other Sundays. Evening Service and Sermon 7:30 P. M.

### Concordia Lodge No. 11, I. O. O. F.

Tuesday nights, 7 o'clock  
H. H. Lewis N. G.; W. O. Williams V. G.; J. R. Jinnett Sec.; D. M. Jones, Treas.

### C. B. H. NO. 11

Meets every Friday night at 8:30 o'clock. Visiting Brothers are cordially invited to attend these meetings.

### FRANKLIN LODGE

No. 109 A. F. & A. M.  
Regular communications 1st and 3rd Monday nights, 7:30 P. M. of each month.

### KNIGHTS OF HARMONY

Carteret Lodge No. 2.  
Meets every Monday night in the year, at 7:45. Visiting brethren cordially invited to attend.

### ORDER EASTERN STAR

Beaufort Chapter 128  
Regular Meetings 2nd and 4th Thursday at 7:30 P. M. Masonic Hall.

### THE MACCABEES

Meets every Tuesday night at 8 o'clock in Hall over W. E. Skarren and Co.

### H. D. NOBCOM, R. K.

### LIBRARY NOTICE

The town Library will be open Friday September 21st, from 3 o'clock until 4:30 and after September 21st every Tuesday and Friday afternoon.

REBEKAH LODGE No. 141.  
Rebekah Lodge No. 141 I. O. O. F. meets every Friday night at 7:30 P. M. I. O. O. F. Hall.  
Mrs. H. M. Parkins N. G.  
J. R. Jinnett, Secty.

### NORFOLK SOUTHERN

Passenger Schedules Effective Dec. 28, 1924. at Beaufort, N. C.

Lv. 6:30 A. M. Goldsboro, Norfolk and intermediate points. Parlor car from New Bern.

Lv. 4:00 P. M. Goldsboro, Norfolk and intermediate points. Sleeper New Bern to Norfolk, Va., and Washington, O. C.

For reservations etc, call on SETH GIBBS, Agent, Beaufort, N. C.

### FOR OVER 40 YEARS

HALL'S CATARRH MEDICINE has been used successfully in the treatment of Catarrh. HALL'S CATARRH MEDICINE consists of an Ointment which Quickly Relieves by local application, and the Internal Medicine, a Tonic, which acts through the Blood on the Mucous Surfaces, thus reducing the inflammation. Sold by all druggists. F. J. Cheney & Co., Toledo, Ohio.

### DAVIS NEWS.

We have been having some cold weather for the past few days. Professor Joseph Hamilton of Atlantic passed through here Friday afternoon with Miss Gertrude Styron and Miss Jessie Lee Morris on their way to Morehead City where they were to debate.

Mr. Alvah Hamilton of Morehead City passed through here Saturday on his way to Atlantic to visit friends. Mr. Alvin Davis who is employed at Wake Forest with his brother came in Saturday night to spend a few days with relatives.

Mrs. S. E. Styron and daughter Kathleen went to Morehead City Friday.

Messrs Weldon Fulcher and Howard Gaskill of Stacy were here for a short while Saturday night.

Miss Dessie Willis left Wednesday for Atlantic City to spend a few months with her sister Mrs. Clyde Peterson and was accompanied by Mrs. Leonard Davis.

Miss Margaret and Mildred Willis of Beaufort spent the week end here with their grand mother Mrs. Sabra J. Salter.

Mr. and Mrs. S. C. Willif motored to Beaufort Saturday morning.

Mr. and Mrs. Dewey Guthrie and little daughter of Beaufort passed through here Sunday.

We all regret the death of Mr. Sam Davis which took place Sunday night at an early hour. He is survived by a wife and five sons and two daughters and lots of friends.

Mr. Jimmie Salter left Monday for Portsmouth where he is to buy crabs.

Our boys here are doing some fine business crabbing and we all wish them much success.

Reverend Mr. Boney of Beaufort preached a fine sermon here Sunday night and all enjoyed it.

Mr. Jim Willis died Friday night during the bad squall, he left several sisters and a brother to mourn his loss.

Mr. Ralph Morris of Atlantic passed through here Monday on his way to Beaufort.

Mr. D. L. Davis who is employed at Sea Level left Monday to go back to his work.

Buncombe County has started a "Home Production, Home Consumption Campaign" in which those sponsoring the movement are agreeing to grow their own home supplies for use on the farm, reports County Agent Dale Thrash.

Extension Circular 159, "Culture and Value of the Farm Home Garden" is the new garden publication issued by the Agricultural Extension Service of State College. Copies may be had free of charge as long as the supply lasts by writing the Agricultural Editor, State College of Agriculture, Raleigh.

Careful cutting of the wood supply should help to improve the farm woodlot, states Forester H. M. Curran.

Cairo, Egypt, a city of many languages, has adopted the automatic telephone system.

# Around Orchard

LIME-SULPHUR, OIL FOR WINTER SPRAYS

Fruit growers are now considering winter treatments for their orchards. This is important, for there are various pests which can be controlled economically only by proper winter sprays, but many growers waste much time, labor and cash by applying improperly timed or unnecessary winter sprays, says Dr. F. H. Lathrop, entomologist, Clemson college, South Carolina.

In most of the important orchard districts lime-sulphur solution has been the dormant spray for many years. This solution may be purchased from commercial spray manufacturers or it may be made at home. This is a very safe spray for dormant fruit trees, and when used with reasonable caution there is almost no danger of injury to the trees. Lime-sulphur has the great advantage of being both an insecticide and a fungicide.

Oil sprays have attracted considerable attention in certain fruit-growing sections during the past few years. Oil sprays may be divided into two classes.

Miscible oil sprays as prepared by commercial manufacturers form an emulsion when mixed with water.

Oil emulsions are the second type of oil sprays. These sprays consist of an oil, such as "red engine-oil," emulsified with soap and water. Sprays of this type may be purchased from commercial manufacturers or prepared at home. Growers are not advised to attempt making oil emulsions at home unless they have proper equipment and have had considerable experience in the use of oil sprays.

Oil sprays properly applied are more effective than lime-sulphur for killing scale. However, they have several disadvantages, if oil sprays are applied too strong, or at the improper time, or if the oil has not been thoroughly emulsified, serious injury may result to the fruit trees. In addition to this, oil sprays have less fungicidal action than lime-sulphur. Oil sprays are recommended for an occasional cleanup of San Jose scale, but not for continued use season after season.

For the control of San Jose scale on apples, pears or peaches lime-sulphur may be applied at any time while the trees are dormant. It should be applied at the rate of one gallon of the standard concentrated solution to eight gallons of water. However, this spray for San Jose scale may be combined with the spring spray for aphids. This is our standard recommendation for apple trees: Lime-sulphur diluted to one to eight, with the addition of nicotine sulphate three-fourths pint to 100 gallons of the diluted spray solution. Apply this spray to apple and pear trees just as the green tips of the buds appear in the spring.

On peach trees the spray application should not be delayed later than two or three weeks before the buds show green in the spring. If aphids are to be combated, later applications of nicotine sulphate should be made.

In cases where San Jose scale has been especially injurious it may be advisable to apply an oil spray. This application may be made to best advantage either in the fall after the leaves are off, but before freezing weather occurs, or in the spring just as the buds show green at the tips. Applications should not be made during very cold weather.

### Baldwin Apple Checks Up True to Its Strain

Baldwin apples are probably more generally distributed throughout the United States than is any other one variety of apple, and it has been grown for a great number of years under a wide range of soil and climatic conditions.

Many fruit growers contend that when the Baldwin is grown for long periods of time under different conditions new strains of this variety are developed.

In 1911, horticulturists at the New York state agricultural experiment station at Geneva decided to try out this theory. Eighty-four Baldwin apple trees were purchased from 40 different locations in the United States and were set out on the station grounds at Geneva to determine whether distinct strains of this variety had developed under widely different environments.

The trees are now in full bearing, and all 84 produce fruit similar in size, color, season and quality, say the station fruit specialists in a recent report on the progress of this experiment.

"While there may be strains of the Baldwin apple in different parts of the United States," says the report, "it seems fairly certain from this experiment that they have not originated necessarily because of difference in environment."

### Begin Pruning Work

The orchard owner should begin his pruning work. Where there is no hope for a peach crop the trees should be cut back, thinned out and got in condition for another year's crop. The apple orchard should have all dead wood removed. Interfering branches should be cut out and, where the branches are overheavy it is better to prune them back now than later. Spray machinery should be got in condition and supplies of lime sulphur and copper sulphate arranged for.

### Proving That Hasty Criticism Is Unwise

In "My Book of Memory," Youth's Companion tells us, Mr. Silas Hooper the English novelist, repeats an amusing story concerning Dr. W. B. Pope, once a famous Wesleyan professor of theology, and of his son Sam.

The son was preparing for the bar. Occasionally he tried his "patent" hand at preaching the gospel in village chapels. One Sunday morning his father said to him: "Sam, I'm not feeling at all well today. You will have to preach for me this morning."

Sam demurred. The father insisted and suggested that he had two hours to make a sermon, and if he could not do it in that time he was not fit to be a barrister.

Sam went away to the study. Then he went off to chapel. Unknown to him, his father followed and found a seat hidden behind the pulpit. He heard the sermon and then hastened home again.

"Well, Sam," said he on his son's return. "I've heard you preach, and a poor thing you made of it. I thought you could have done better than that."

"You think the sermon was not very good?" the son inquired.

"Good?" the old man replied. "I think it was one of the worst sermons I have listened to!"

"Well, father," said Sam, "I thought it was a poor thing myself, but I turned over a big pile in your study, and it was the best I could find."

### National Hero Just Small Boy to Mother

A Dutch salvage firm is scouring the bottom of the Caribbean sea looking for a part of the treasure that went to the bottom in the Seventeenth century when Piet Hein, admiral of the Dutch fleet captured eight Spanish galleons loaded with silver and sank five others.

When Piet Hein captured the Spanish "silver fleet," the power of the Dutch republic had already started on its decline, Pierre Van Paassen tells us, in the Atlanta Constitution. The news of the admiral's victory therefore sent the country into frenzies of enthusiasm. When he arrived at Rotterdam, members of the government were on hand to greet him and the aristocracy of Amsterdam and Haarlem in lace and cloth cheered itself hoarse at the sight of the popular young admiral. All Holland was in gala. But when the admiral approached the little cottage in Delfts-haven where his mother lived and he rapped on the door there was a voice: "Is that you, Piet?" "Yes, mother," "Then wipe your feet on the mat, my boy. It's a little muddy outside today."

### Beavers in Real Wilds

Few places now exist where beavers may be seen living wild, in natural surroundings in Europe. Forty years ago the last one disappeared from Scandinavia, where they lingered longest near Arendal, in southern Norway. A correspondent of the Field reports that a small, but thriving and increasing colony of these animals now exists in the same region (at Niel Elve), in a very inaccessible part of the country, no human dwellings anywhere near, and the ground covered with thick undergrowth and trees of birch, aspen and pine. No indication of their origin is given, and it seems possible that a small remainder of the old stock has been hidden here all this time.

### Gull Beautiful Bird

Many feathered scavengers are uncouth, repulsive and awkward in flight, but the herring gull is a thing of beauty and exceedingly graceful under wing, a master of the air currents, gliding with perfection. He soars over the city, follows the river craft, perches upon the channel buoys, and may often be found in flocks resting upon the waters of inland ponds and reservoirs. Unlike other water birds, he is not shy; on the contrary, he is very friendly, perhaps because he has few enemies and is protected not only in the harbors but in the breeding rookeries.

### Its Origin Uncertain

The phrase "lynch law" has been variously traced to a Virginia soldier and to a Virginia farmer of that name, to one Lynch, who was sent out from England about 1687 to suppress piracy, and to a mayor of Galway, in Ireland; while yet another tradition refers it to Lynch creek, in North Carolina, where the forms of a court-martial and execution were gone through over the lifeless body of a Tory, who had already been precipitately hanged to prevent a rescue.—Chamber's Encyclopedia.

### Clock in Sidewalk

Thousands walk over the northeast corner of Maiden lane and Broadway in New York and never know that they are stepping on the face of a clock. This clock, measuring about two feet across, is covered with glass an inch thick. The hour and minute hands are painted jet black. Because of the dust and dirt the clock is scarcely discernible during the daylight hours, but at night it is illuminated and is a useful teller of time.

### "Find" on the Farm

The city kid was roaming about in the country when he came upon a dozen or so empty condensed milk cans. He yelled to his companions: "Hey, fellers, come here quick! I've found a cow's nest!"—Farm and Fireside.

Tom Tarheel says his children like eggs about as well as town folks and so he only sells his surplus.

gold plated walking stick with a perfume holder in the top was carried by Henry the VIII.

Enough soap is made by the Near East Relief Orphanage of Alexandria in Armenia to bathe their 12,000 orphans and still have some for sale.

The largest shipbuilding plant in the world is at Belfast, Ireland.

Norfolk, Va.

**Cramping Spells**  
"FOR MORE THAN A YEAR I had been in a very bad condition," says Mrs. R. E. Kimbrell, of Route 1, Dorchester, Texas. "I suffered with cramping spells which gave me bad pains in my back and sides. Sometimes I would have to catch at something, I would get so suddenly dizzy. . . I had to quit doing my work. I tried many remedies, but none of them seemed to do me any good."  
"In April I went up to Arkansas to visit my sister. . . She said to me, 'Willie, if you are going to take anything, take Cardui. It will really help you.' I came home and told my doctor what she had said and he said I could not take any better tonic, so my husband immediately got me a bottle and I began it. . . My case was a pretty tough one, I know, so I kept on faithfully. After the fourth bottle, I began to feel very much better, so much so that I was surprised at myself. I have taken six bottles now and I can truly say I feel like a different woman. . . I feel fine and I owe it all to Cardui, which I took faithfully."
