CELEBRATE GOLDEN ANNIVERSARY.

Morehead City, Sept. 1—Sunday evening August 29th a large number of friends and relatives gathered at the home of Mr. and Mrs. Thomas G. Willis in honor of their fiftieth anniversary of their wedding day which was celebrated in 1876. Mr. and Mrs. Willis have lived in Morehead City for 34 years having moved here from Wilmington.

The home was prettily decorated in yellow cut flowers of the summer season, carrying out the golden color scheme. There were three cakes placed on the dining table. The wedding cake with 50 yellow miniature candles, a cake for one of the grand children whose birthday also fell on that date. Among the relatives were six children, seven grand children and one great-grand son.

The bride and groom were recipients of lovely gifts useful and ornamental and gold monies amounting to \$100.

In the grammar of life the great verbs are "to be" and "to do."

THE KITCHEN CABINET

When using the furnace this winter, place potatoes to bake, beans to bake, steak to broil or meats to roast, in the furnace or on the ledge. This will save fuel and the food has a different flavor. Onions roasted in their skins are especially delicious. Remove the outside and serve with butter.

THINGS WORTH REMEMBERING

When the screw tops of cans fail to respond to the hand, try using a little sandpaper. Another use for sandpaper is on a zinc table when the meat chopper is to be fastened on; place a strip under the clamps to hold it firmly.

When straightening the hem in linen, save all the drawn threads to be used for darned old linens.

For those who dislike dusting, bed-making and mow of the everyday household duties, start the victrola with a lively tune and work to the time of the music. It will take all the drudgery out and time will pass swiftly.

Slip-on covers for ironing boards are easy to wash and keep the board always fresh if one has two or three on hand.

To remove water marks on vases or glasses rub in a little oil, then wash as usual.

A tablet of aspirin dropped into the water of a vase of flowers will keep them fresh much longer.

Drop pieces of toilet soap into the boiler when washing; it will take the place of soap and add a delicate odor to the clothing. If more economical, melt the pieces in a little water and pour into a mold. When cold you have a good cake of soap.

Sticks of candy on a child's birthday cake are just as decorative and with a candle or two lighted will add to the pleasure, as the kiddies will eat the candy.

Cream Cheese.—Grate all dry cheese, using a cupful of grated cheese and a half cupful of boiling hot cream, stir in the cheese and when dissolved pour into a jar. Add any seasoning liked, chopped pimientos, red pepper or paprika.

Another good way to start a riot in Paris is for the American tourists to do as the Parisians do, and not pay for anything.—Kansas City Star.

GLOUCESTER MAN WEDS FLORIDA YOUNG LADY

Punta Gorda, Fla. Aug. 29—Mr. Elwood R. Willis of Gloucester, N. C., and Miss Lillian Decoster of Punta Gorda, Fla., were quietly married at the Methodist parsonage last Monday afternoon August 23. Mr. Willis has been employed by the Chadwick Brothers for the past year and regard him as a very reliable man. The many friends of the young couple here wish and predict for them a happy wedded life.

NICE BRIDGE PARTY GIVEN

Morehead City Sept. 1—Thursday afternoon from the hours of 3:30 to 5:30 Mrs. Maggie Wade Mallison entertained at cards at her home on Bridges Street in honor of her daughter, Mrs. Mack Stamps of Louisburg, N. C.

Bridge was the game played at which there were eight tables. During the game iced gingerale was served. For making high score, Mrs. John Lashly was presented with attractive book ends. The low score prize, which was a telephone pad was won by Mrs. George Henderson. The honoree was given an artistic vial of perfume at the conclusion of the game an ice course was served.

SERVICES AT ANN STREET METHODIST CHURCH SUNDAY

Rev. E. Frank Lee, Pastor

WORK WHILE IT IS CALLED TO-DAY.

How human it is for us to lament that we have not had the opportunity to make a success in life as have others. The reason why a great many persons make failure and shipwreck of their lives is that they will not learn the value of present moments, and then endeavor to let no particle of time fall useless to the ground. J. Pierpont Morgan told a friend that he placed a value of one thousand dollars upon every hour of his time.

Most people lack not opportunity but energy in order to achieve a noble destiny. The best locomotive ever built would not move a train an inch without the energy of the coal, the oil, or the electricity to propel it. It is not enough to have great qualities. They must be utilized. Ability is worth only what it achieves, and the finest ability in the world will never achieve anything unless held by will power and the energy that does things. One is often impressed, in riding across this great continent, with its vast unutilized wealth in its unmined mountains, in its millions of acres of rich, uncultivated soil, in its vast forests of timber, in its huge waterfalls—resources everywhere beyond the power of the mind to estimate. But what of the tremendous amount of human ability, of undeveloped mental power in the millions of beings that are utilizing only a meagre per cent of their great possibilities! There are no deserts except to the blind, no waste places to those that know how to utilize them. Work while it is called today, for the night cometh wherein no man can work!
