ness, instead of being allowed to open with \$15,000 as heretofore. Banks in the larger towns may be allowed by the Commission to increase their investments in banking house, furniture and fixtures. Administrative features are strengthened and the State banking department feels more secure in possession of protective measures.

Spurious securities are banned by the Capital Issues Law the principal enacted by the General Assembly of 1925 having been re-enacted by the session of 1927 and made to apply to conditions in North Carolina. Registration requirements defined in the act permits the offering of only the best grade of securities to investors in this State. The new law carries only an inspection fee of 2 per cent to 1-10 of 1 per cent on securities registered by qualification and 1-20 of 1 per cent upon securities registered by notification. The administration of the new Capital Issues Law is placed with the same department and the same officials designated under the act of two years ago and vendors of blue sky certificates are likely to encounter greater difficulty in dispensing their "wares" in North Carolina.

North Carolina bonds to the extent of ten million dollars were sold during the week to the New York syndicate which has held an option on them for some months, the rate paid being considered advantageous to the State; according to figures released by the United States Department of Revenue, improved and unimproved land in North Carolina has decreased in value \$3 per acre, the former being assessed in the middle

section of the State at \$50 while unimproved land upon the average, is said to be worth \$36 per acre; the Equalization Board is expected to take up the task of revaluing property in the State at an early date for the purpose of reaching an equitable adjustment or allocation, of the equalizing fund raised to \$3,250,000 by the recent session of the General Assembly, which created a commission composed of ten men, one from each congressional district; Pardon Commissioner Sink, with some two hundred investigations of pardon applications to make before returning to become judge on May 1st, announces that he will consider no new cases and refers interested parties to his successor, E. B. Bridges, when the latter takes on the "ermine;" the State Department of revenue requires, under legislative enactment, a penalty of ten per cent of the amount of his tax of any one giving a worthless check in payment of the same, the rule applying to all classes of taxes; Insurance Commissioner Wade reports 183 fires during the Month of February with a consequent loss of around half a million dollars; Governor McLean has under advisement an application for parole of Thomas E. Cooper, Wilmington banker who served two years in the Federal prison at Atlanta and recently began an eight year sentence on the roads of New Hanover county, and a formidable array of prominent citizens are asking for clemency; Frank Parker, crop statistician, estimates approximately 50,000 bales of cotton in the State still unpicked which he charges to low prices; the establishment of a three million dollar cement plant at New Bern will mean much to the State according to an opinion given out by Secretary of State W. N. Everett who points out that a million and a half barrels will mean an actual saving to the tax payers of a large amount in the construction of

good roads; 10,000 blanks for the registration of aliens in the State under the Bolich law are being forwarded to clerks of the superior courts from the office of the Secretary of State; twenty State high way projects with estimated cost of \$2,000,000 will be submitted to bidders here tomorrow some of the counties interested being Columbus, Robeson, Franklin, Warren, Randolph; Caldwell and Henderson; the State Board of Health reports the prevalence of an epidemic of measles and whooping cough which has been raging over the State recently.

The Capital City was favored during the week with a visit from Governor elect L. G. Hardman of Georgia and a party of officials from that state who came up to learn some things of value to them in the administration of affairs down in Atlanta. Governor McLean and other State officials extended a cordial welcome to the visitors and showed them many courtesies. They were especially interested in the study of the executive budget system under which financial affairs in this State have been administered for the last two years and held up as a model in various states of the Republic.

Fish Commission Merged

The State Department of Conservation and Development and the Fisheries Commission Board were merged at a meeting here on Friday with the election of J. K. Dixon as assistant director of the former agency and the decision to continue Capt. John A. Nelson as fish commissioner. The selection of a State-wide game commissioner was deferred, provisions of the game law not being effective until June. The new organization named committees on game and fish, commercial fisheries, industry, forestry and geology. These committees contemplate visits to other states and departments in Washington with the view to better preparation for the work of development of North Carolina resources. It is said that State hatcheries are now ready to distribute millions of trout amongst those desirous of stocking the fresh waters of the State.

Authorities claim that cotton farmers are purchasing less fertilizer this spring than usual which indicates reduced acreage; tobacco has supplanted cotton as the principal money crop of the State; tobacco, \$103,802,000, while cotton "tips the scales" at \$71,875,000; a recent highway allot-

ment by the Federal government allocates to North Carolina \$1,713,356 available June 30; income tax collections this year are expected to exceed the budget estimate of \$6,222,000.

Henry Ford says a million dollars is no more to him than an old belt. Well, we have an old belt. How about a swap? Philadelphia Public Ledger.

But when the dust settles there will be Great Britain calmly doing business in China.—San Francisco Chronicle.

SERIOUS DRAWBACK.

"He who laughs last laughs best."
"Yeah, but he soon gets a reputation for being dumb."—(Detroit News.

NO SALE.

"Ah, how do you do, sir!" saluted the book agent at the door. "I am introducing the Famous Orators and Poets of America" and—
"I am not making any new acquaintances," interrupted old Gaunt N. Grimm. "G'dya!"—Kansas City Star.

And HOW!
A Foot Tonic!
"What! You danced until 2 o'clock this morning? And here you are—fresh as a daisy at 8! How do you account for it?"
"FLORSHEIMS!"
"What's that—a nerve tonic?"
"No—a foot tonic—a pair of shoes that don't kill your feet. Get Florsheims if you want to glide over hard pavements and dance floors in real comfort!"

THOUSANDS HAVE LEARNED
that of all the lighter lower-priced sixes only
Chrysler "60" combines these advantages
COUPE (with rumble seat) \$1245
60 miles plus—with exceptional ease
5 to 25 miles in 7 3/4 seconds + 22 miles per gallon + 7-bearing crankshaft.
To literally scores of thousands, Chrysler "60" is proving that its public preference is based upon the soundest of buying reasons—unmistakable money-value. There's more than a thrill in the "60's" pick-up and in its speed ability of sixty miles and more an hour with exceptional ease. There's speed without the least effort, combined with most unusual riding comfort and handling facility. Mechanically, the "60" has many of the very same features to be found in the Chrysler "70" or Imperial "80": Seven-bearing crankshaft, invar-strut pistons, impulse neutralizer, manifold heat control, air cleaner, oil filter, full pressure lubrication, hydraulic four-wheel brakes and shock absorbers. Come, see the Chrysler "60"—and note the essential fineness of its Standardized Quality manufacture. You'll recognize, especially after driving it, there isn't another six of its price that even begins to compare with it in quality and value.
Chrysler "60" prices—Touring Car, \$1075; Club Coupe, \$1125; Coach, \$1145; Roadster, (with rumble seat), \$1175; Coupe, (with rumble seat), \$1245; Sedan, \$1245
F. O. B. Detroit, subject to current Federal excise tax.
All Chrysler cars are protected against theft under the Fedco System. Chrysler dealers are in position to extend the convenience of time payments. Ask about Chrysler's attractive plan.
