Fine Workmanship

In the days of Queen Elizabeth, Mark Scallot, a blacksmith, made a lock consisting of 11 pieces of brass, iron and steel, all of which weighed only one grain. He also made a gold chain with 43 links, and when he had finished it he attached it to the lock and key, put the chain around a flea, and that nimble insect easily drew the lot.

Preference for Birds as Pets Is Increasing

Imports into the United States of live birds for pets have increased more than 500 per cent and their value has increased 600 per cent in the last four years, according to the Department of Commerce. Revelation of actual figures to this effect bears out a general belief that a "bird renaissance" is on the way.

The majority of birds sold in America are imported, though domestic representation is growing constantly. The import figures are interesting. In 1922 we imported 192,000 birds valued at \$122,000. In 1926 we imported 486,000 birds valued at \$737,000. The average cost of each bird rose from 68 cents to \$1.50, indicating better quality and keener demand. This year, according to an officer of the United Canary Breeders' association, the figures will be much higher.—Chicago Journal.

A roof needs both --

GOOD materials. Good workmanship. Both are necessary, if you want a first-rate roof. For a roof of that sort, come to us — we are specialists in high quality, both in materials and in the work we do.

And you can put the responsibility up to us. We've had long experience in all kinds of re-roofing. Tell us your needs—the type of roof you want and the size of your budget. We'll fit them to a T.

Troublesome? No more so than reaching for the telephone and getting in touch with us. Why not do it today?

"And this is where the shingles lock together."

FOR an inexpensive, durable, good-looking roof, we strongly recommend Barrett Wedglock Shingles. They're rot-proof and rust-proof — offer protection against fire — and, by a patented interlocking feature, are fastened tight on all four sides.
