### County Agents Meet In Annual Conference

(F. H. Jeter)  
Raleigh, Jan. 13.—Studying problems of the home and farm in North Carolina, the 87 farm agents and 59 home agents of the agricultural extension service held their annual conference at State College during the week of January 8.

Unity of program in each county between the farm men and women and business and professional interests, the stimulation of producing more feed and food crops and the market outlets for surplus foodstuffs produced, were three of the important matters discussed. The home agent held their regular short course during the week varying the program at times to enter into joint conferences with the men, while the farm agents devoted most of their time to attending the lectures by the group of livestock experts brought to the college to attend the 17th annual meeting of the Southern Livestock Association.

A series of lectures on farm leadership by Dr. Robert G. Foster of the United States Department of Agriculture was one feature of the joint gatherings. These lectures had to principally with developing leaders among rural boys and girls enrolled in the 4-H clubs and Dr. Foster gave methods and practices in this work. The farm agents had a thorough course in livestock production, feeding and marketing. Some of the outstanding research and extension specialists in the livestock world of the South headed the discussions on these subjects.

Dr. Bradford Knapp, President of Alabama Polytechnic Institute at Auburn, brought an inspiring message to the county workers at the annual extension banquet. Dr. Knapp told the agents how farm demonstration work had grown from the small beginning made by his father, Dr. Seaman A. Knapp, into a world-wide agricultural movement and he declared that this form of teaching had caused a revolution in farming methods in the South. His talk gave the agents renewed faith in their work and opened their eyes to its possibilities in the future.

### MANY NEW PLANTS BUILT IN SOUTH LAST YEAR

Atlanta, Ga., January 13.—“During the year 1929, 137 new manufacturing establishments were located on Southern Railway System rails. Additions were made to 83 plants that were in operation at the beginning of the year. These new works represent an investment of about \$75,000,000,00 and give employment to nearly 20,000 people. This summary of the industrial advance of the South during the year appears in the current issue of the Southern Field, issued by the Development Service of the Southern.

**Branded by Turks**  
Albert Nye Roughton, fifty-four, an American citizen, who is now in Washington, exhibiting the scars inflicted on his face and body during the two years he spent in a Turkish prison. Roughton, who seeks a pension on which he may live, was a Spanish-American war veteran who was engaged in 1914-15 in running the blockade into Mesopotamia aboard a British ship. He was captured, branded as a spy and sent to prison in the Blue mountains. There he was branded with the German double-headed eagle superimposed on the Turkish “Spider of Death,” which served as a means of identification in case of escape. Escaping from prison with a young girl, Ada Allen Mace, another prisoner, Roughton later joined the expedition of Lord Carnarvon which unearthed the tomb of King Tut-Ankhamen.

### FAME OF SARGON SPREADING OVER ENTIRE WORLD

**People of This Country Sending Famous Medicine to Relatives and Friends in England, Scotland, Ireland, France, Canal Zone, Norway, Sweden, Cuba and Many Other Distant Lands.**

If you have found a medicine that was of such benefit to you that you would go to the trouble of sending it to relatives and friends in distant countries, you would have to be convinced in your own mind that it possessed real merit, wouldn't you?

That's just what thousands of people throughout the United States have been doing with Sargon.

From all over America and wherever Sargon has been introduced, thousands of letters have been received from grateful users telling of the gratifying results that have been accomplished by this celebrated medicine.

### THOUSANDS EXPRESS GRATITUDE.

On November 27th, a letter dated November 23rd, was received at the Sargon offices advising that in one week one drug firm alone had received orders to be shipped to Cavite, Philippines Islands; Coca-Solo, Canal Zone; Belebrook, Ireland; and Paris, France.

Only recently a well-known resident of Denver, Colorado, who had been restored to health by Sargon, sent a full treatment to London, England, to his sister, who is the wife of an executive of one of the greatest retail drug firms in the British Empire.

During the past month there appeared in the Toronto papers the statement of a well-known World War veteran whose health had been greatly impaired while in the service, who stated among other things, that he owed his restoration to health to two bottles of Sargon sent him by a friend in Minneapolis.

### LETTERS RECEIVED FROM THE NORTHWEST

From the Northwest, many letters of this kind have been received advising that users of Sargon are sending it to relatives back in their old countries of Norway and Sweden. Many such letters and endro-

ments have been received from men of prominence, including former governors, business and professional men, mayors, state and county officials, and even Ministers of the Gospel have deemed it their duty to come forward and tell what Sargon has done for them.

These are only a few of thousands of such cases and not a day nor a week passes that does not bring hundreds of statements from the people concerning the good this medicine is doing, and reciting case after case that would convince the most skeptical.

Sargon's fame is built on actual results—not empty promises, and only those who have put it to the test know its real powers.

Sargon's aim is not mere temporary relief, but new and abundant health. No wonder it is now called the medicine with a million friends.

F. R. BELL, Agent.

The business side of farming under North Carolina conditions will be discussed over Station WPTF at Raleigh each Friday afternoon at two o'clock during January and February by experts of the department of farm economics at State College.

More than \$600 is now available in the Jene S. McKimmon Loan fund which was formed in honor of Mrs. McKimmon and to aid worthy 4-H club girls who may wish to study home economics.

### Sickly Boy, 7, Gains 15 Lbs.—Father Happy

“My boy, 7, would not eat. I gave him Vinol and the way he eats and plays now makes me happy. He gained 15 pounds.”—J. F. Andres.  
Vinol is a delicious compound of cod liver peptone, iron, etc. The very FIRST bottle often adds several pounds weight to thin children or adults. Nervous, easily tired, anemic people are surprised how Vinol gives new pep, sound sleep and a BIG appetite. Tastes delicious.  
F. R. BELL, Druggist
