Miss Lucille Tosto spent Sunday afternoon and Monday at Merrimon with her sister Mrs. Elbert Eubanks.

Some of the young people attended services at Lukens Sunday night. Elder John Sewell preached.

CASWELL TRAINING SCHOOL

By F. M. Register, Supt. Buildings and Grounds
We had twelve projects filed with the CWA and two of them have been approved already; a land clearing and ditching project and a gymnasium project. This has made us all quite happy. Of course, we are expecting others to be approved, such as a swimming pool and play grounds etc.

Farm.
Our farmer tells us that our corn crop will reach 6500 bushels. Ample supply for our needs. Our can goods are all gone, sorry to say, and it takes money to buy these most necessary vegetables; our boys and girls must have wholesome food.

Our Boys and Girls
In our last news letter, we mentioned the fact that we were going to ask Club members to give us five cents a month to pay our boys and

girls who worked on the farm, in the dairy, laundry, sewing room, dining room and hospital, thirty or forty cents a month for a little spending money as the only money they ever received was a few pennies now and then that some kind person gave them. Now here comes the best part of the story; on Tuesday following this notice, we received a check from a gentleman in Salisbury for \$2.40 saying he thought this a fine idea and he was enclosing enough to pay a boy or girl for six months at forty cents per month and would send more later. I can say that two people are happy today—the giver of this money and the recipient.

Visitors.
Mrs. Owen Davl, Goldsboro; Mr. Lipscomb, Raleigh; Mr. Thomas of Goldsboro; Mr. Taylor of Williams-ton.

Miss Vada Chadwick is on the sick list at this writing.

Misses Edith and Katie Chadwick spent Thursday of last week at Beaufort visiting their cousin Miss Margaret Hill.

IS IT THE TRUTH OR NOT?
'Bout Harker's Island, she's changing, continually changing from one thing to another all the while time, yes she's even reversed her fishing from fish to shrimp; she has caused it to be almost unbearable to stop at the docks in Beaufort now, the scent of rotten shrimp heads is so great, she does the most of what ever she starts to do. The typhus fever or anything else may swamp the town, but Harker's Island will continue to bring in the December run of prawn.

Lookout, she's on a drive for old Santa. Stop if you may, All letters in the alphabet Or the C. W. A.

Even now the two Lewises So brisk and so brave Have started shrimp fishing Their children to save.

For forty long years They have worked like a boss And have never had to call On the National Red Cross.

Shes learned that shrimp fishing is about to be the most profitable of all fishing, so Morehead and Beaufort can lookout for her, there is nothing new under the sun. This great fleet of a hundred and fifty boats carrying them a whirl against which nothing is able to withstand.

The new work has come now and it is quite a change too. We rather have it like it was before than like they've got it now, too, much work attached to it now, ought to be a change made, this here working under a boss aint what its cracked up to be, I'm specting a job totting cement up the light house to the workmen up there.

POULTRY PRODUCTS CODE IS UNDER CONSIDERATION

Washington.—To benefit both producers and consumers of poultry products, a master code of fair competition for wholesale groups engaged in procuring and distributing poultry and eggs is being formulated through discussion with officials of the Agricultural Adjustment Administration. The proposed code applies to the marketing division of the industry. Where its provisions were inadequate to deal with regional problems, it has been suggested, according to an announcement from the AAA, that regional or supplementary codes could meet local problems. The code is designed to remove unfair practices and wastes in marketing poultry and eggs, thus increasing returns to producers and assure maximum results in grading and standardizing poultry products, in behalf of consumers as well as protecting farmers with high quality products. A code applied to 6,000 commercial hatcheries has already received a public hearing.

30 days in which to comply with the positive provisions of the law.

"Consistent policy, that avoids discrimination and treats every motorist alike, requires a fixed time beyond which the use of old license plates on the highways will not be permitted. The law fixes this time as the first day of January. It has been agreed by all administrative agencies, therefore, that this provision of the law will be strictly enforced after sunrise on January 1. All police officers of counties and cities will be requested to join the enforcement officers of the State to see that this provision is strictly enforced on and after that date with no favoritism to any one," Mr. Maxwell states.

Car License Plates Went on Sale Friday

RALEIGH, Dec. 2.—Motor vehicle license plates were placed on sale Friday morning by the State Department of Revenue at its home office here and at 45 branch offices in the State and these plates will be usable from the date of sale, Commissioner of Revenue A. J. Maxwell announces.

The selling time has been advanced from December 15 to December 1 as part of a positive plan to make January 1 the deadline for the use of old plates, Mr. Maxwell states, saying that it gives every motorist
