### Caswell Train'g School

By F. M. REGISTER  
 Superintendent  
 Buildings and Grounds

Buildings and Grounds  
 Our buildings are looking better  
 and better as we progress with our  
 painting. We certainly hope we will  
 have all our painting done by May 1.  
 Our grounds are being improved very  
 much by planting native shrubs.

Farm.  
 We are breaking land and ditching.  
 We hope to produce a bumper crop  
 this year. The cold destroyed all our  
 collards and other greens. We had a  
 beautiful field of collards. We will  
 miss them. You know it takes a 2  
 horse wagon load of collards for one  
 meal. We still have plenty of sweet  
 potatoes. It takes 10 bushels of sweet  
 potatoes for one meal.

**Our Boys and Girls**  
 Our boys and girls that are in  
 school are making very fair progress.  
 We surely need more teachers, but  
 haven't the money to employ them.  
 We hope the next Legislature will see  
 that we get ample funds for this  
 purpose.

### Sad News

Our 14 year old bus was laid to  
 rest last week. It reminded me of  
 "The Deacons One Horse Shay." It  
 was so old that it actually had no  
 trade in value. The saddest part is  
 that we have no money to replace it.  
 This bus was the children's friend  
 indeed for it carried them to church,  
 to movies, to entertainments, etc. It  
 also carried the children of employ-  
 ees to town to school. It certainly ser-  
 ved well for 14 years. I believe if Mr.  
 Henry Ford knew about this, he  
 would see that we had another Ford  
 (The Children's Friend.)

 Welfare Department, Raleigh; Mr.

 ton, N. C.

### APPROVAL OF 2 CODES

**TO SUPPLY MANY JOBS**  
 WASHINGTON.—The President's  
 approval of the codes of the gray  
 iron foundry and chemical manu-  
 facturing industries brought total ap-  
 provals up to 278. The former indus-  
 try employed 71,000 workers in July  
 1933, and has 1,000 plants represent-  
 ing aggregate invested capital of  
 \$243,504,000. It is expected that at  
 least 10,000 wage earners will be ad-  
 ded through reduction of hours to 40  
 a week and the annual pay roll in-  
 crease will be \$10,000,000. Effective  
 from February 26, minimum wages

are 25 cents an hour in the far South,  
 30 in the near South, 35 in the bor-  
 der states, and 37 to 40 cents in the  
 North. It is estimated that the in-  
 crease in wages under the chemical  
 manufacturing code will restore em-  
 ployment to the 1929 level or better,  
 with increase of numbers to range  
 from 7 to 10 per cent from the exist-  
 ing rate of operation. The basis is 40  
 hours per week; minimum wage 35  
 cents an hour in the South and 40  
 cents an hour elsewhere.

### MILLION EMPLOYED ON

**HIGHWAYS IN JANUARY**

WASHINGTON.—Almost a million  
 men were employed in highway and  
 dependent work during January on  
 State and Federal roads only, accord-  
 ing to an announcement of the Bu-  
 reau of Public Roads, United States  
 Department of Agriculture, which is  
 administering the \$400,000,000 high-  
 way appropriation. This is an all-time  
 high for the winter season. The tabu-  
 lation is as follows: employed "at the  
 sites of the highways," \$92,000; la-  
 bor in stone quarries, gravel pits for  
 road construction only 543,000; su-  
 pervisory, administrative, clerical, etc  
 51,000, total 986,000. The record far  
 exceeds highway employment for the  
 summer months of 1933. Assuming a  
 family of three, the persons support-  
 ed by these workers number 2,868,-  
 000. Actual employment is said to ex-  
 ceed 1,000,000, the names on pay  
 rolls being materially higher than the  
 figures given, due to labor turnover.

### IS IT THE TRUTH OR NOT?

By Jimmie Guthrie  
 One of them cold nights the other  
 day Captain Eugene Yeomans was 81  
 years old. I think it was February 15,  
 everybody started to give him a big  
 time and some presents at his home,  
 but such a rushing crowd of human  
 beings I never saw before roared  
 down upon his little cottage that the  
 underpinning broke and the house was  
 falling when the gang had to dis-  
 perse and fled to the church taking  
 Captain Yeomans with them and pre-  
 sented to him a time, the like has  
 not been known since George Wash-  
 ington's birthday unless the birthday  
 of President Roosevelt was similar.

I do not question the fact that  
 probably some of the President's  
 presents were more costly than was  
 Captain Yeomans' but not so numer-  
 ous by any means, and I am sure the  
 spirit in which they were given plain-  
 ly showed the picture "Peace on  
 earth, good will toward men." Rev.  
 Mr. Lewis, Mr. Johnson and Mr. Har-  
 desty addressed the audience placing  
 before them and Capt. Yeomans the  
 words as they are written in the 12th  
 Chapter of Ecclesiastes, he said he  
 thanks everybody for everything.

Other night a gang of we folk went  
 to Duffy's show at Morehead City,  
 cold as usual, but you see that doesn't  
 stop the Islanders. On the way thru  
 the hannel the boat met rough weather  
 but went on till the sea calmed  
 down and everybody was enjoying  
 life as life is enjoyed down the bay  
 on such occasions, when near the bow  
 came an almost collision which was  
 very soon righted and away she sped

toward Duffy's show, when moored at  
 the dock to the city everybody cheer-  
 fully as could be moved with much  
 speed toward the Big Show, when all  
 at once Ornona Brooks, daughter of  
 Mr. Gorda Brooks was stricken with  
 appendicitis and had to be taken at  
 once to the hospital for treatment.  
 She's doing fine now and the others  
 enjoyed a nice show.  
 Lucky Duffy had a big show that  
 night, saved Ornona's life, we had no  
 doctor.

### Captain Jimmie Guthrie,

Harkers Island, N. C.  
 Dear Jimmie:

I have discussed with Admiral  
 Hamlet the question of placing an-  
 other boat at Portsmouth Coast Guard  
 Station, and am pleased to inform  
 you that a new self-bailing motor  
 surfboat is enroute to that Station,  
 if it has not already been received  
 there I am pleased to have been of  
 service in this matter.

With kindest regards, I am,  
 Sincerely yours,  
 CHARLES L. ABERNETHY  
 House of Representatives,  
 Washington, D. C.  
 Feb. 24th, 1934.

### BANKERS CONVENTION

Raleigh, Feb. 27.—The North Carolina  
 Bankers Association will meet in  
 38th annual convention Thursday and  
 Friday, April 26-27, at the Carolina  
 Hotel, Pinehurst, Paul P. Brown,  
 secretary, announces. Details of the  
 program will be worked out, but  
 bankers' code and service charges un-  
 der it and the new insurance of de-  
 posits, as well as other new develop-  
 ments in the banking field will be  
 considered.

### NO STATE GAME WARDEN

**HAS BEEN ELECTED YET**

Raleigh, Feb. 27.—A State game  
 and fish warden was not elected by  
 the State Board of Conservation and  
 Development at its meeting last Fri-  
 day, but a special committee of four  
 was named to study qualifications of  
 applicants and report to the board at  
 a later meeting. Col. J. W. Harrison,  
 Bruce Etheridge, Josh Horne and J. J.  
 Store compose the committee. Mean-  
 while, Charle H. England, game warden  
 for five years, is expected to con-  
 tinue under the plan by which Mr.  
 Etheridge was authorized by the  
 board to employ a man to handle the  
 work until a warden is named.

The board reconsidered earlier ac-  
 tion and decided to continue the fish  
 hatchery at Boone, at which improve-  
 ments as CWA projects are now ex-  
 pected. The board conferred with  
 Mrs. Thomas O'Berry, State CWA  
 administrator, seeking to have oyster  
 planting, much already done, con-  
 tinued as CWA projects.

### CROP REDUCTION CONTRACTS

**ARE BEING VIOLATED**

Raleigh, Feb. 27.—Violation of the  
 letter and the spirit of crop reduc-  
 tion contracts, especially that for to-  
 bacco, is apparently being violated in  
 some North Carolina counties, specifi-  
 cally by landlords cutting off tenant  
 farmers they apparently will not  
 need as a result of the reduction of  
 acreage for next year. Capus Way-  
 nick, federal reemployment director  
 for the State announces.

An earlier statement of that na-  
 ture by Mr. Wayne brought a pro-  
 test and a denial, so Mr. Wayne  
 asked a few of his county directors  
 to send him names of any such dropp-  
 ings they might be familiar with.  
 One county director sent him a list of  
 about 30 names of tenant farmers  
 and landlords where such had hap-  
 pened in the one county. Landlords are  
 permitted to fire one tenant farmer  
 and hire another, and some of these  
 may be of that nature, Mr. Wayne  
 said. He pointed out the money paid  
 by the government for crop reduc-  
 tion contemplates using the full num-  
 ber of tenant farmers on the reduced  
 acreage, and that it is so stated in  
 the contract. This plan seeks to pre-

### BIRTHDAY PARTY GIVEN

Sea Level, Feb. 27.—Little Violet  
 Roma Fulcher, daughter of Mr. and  
 Mrs. Andrew T. Fulcher entertained a  
 number of her little friends at her  
 fifth birthday party Wednesday after-  
 noon at 4 o'clock. The table was beau-  
 tifully decorated with dahlia spray  
 and lace fern. She served cake, candy  
 and chocolate drinks. The cake was  
 baked by Mrs. Agnes Styron. Those  
 present were Luther, Guy, George,  
 Irene and John T. Styron, Welma and  
 Varina Taylor, Emma Pearl Fulcher,  
 Dora Thorne Hill, Alma May Salter,  
 Hilda Salter, Alonzo Taylor, Earl  
 Hamilton, Olea Neilson, Warden Ful-  
 cher, Sadie, Mildred and Garland  
 Fulcher, Frank Harvey.

### BOND AUTHORIZED

**FOR JONES SLAYER**

Trenton, Feb. 27.—After hearing a  
 petition on a writ of habeas corpus,  
 at Kingston this afternoon, Judge J.  
 Paul Frizzelle authorized the release  
 of S. W. Green on \$10,000 bond.  
 Green killed Frank Craft last week  
 after a quarrel. He had not been  
 able to give bond tonight. J. K. War-  
 ren has been added to Green's coun-  
 sel the others of whom are J. D. Lar-  
 kin and Jesse Jones. The widow of the  
 slain man was at the hearing today  
 accompanied by Ed Summersill, who  
 is assisting in the prosecution.

Frozen Boots!

LITTLE AMERICA, ANTARC-  
 TICA, Feb. 12 (via Mackay  
 Radio)—Believe it or not, we are  
 still hauling supplies from the scat-  
 tered caches on the ice into Little  
 America and, according to my boss,  
 Commander Noville, we shall be at  
 it for a total of three weeks or  
 more. I am actually living in a lit-  
 tle tent out by Pressure Camp and  
 I'm looking forward to getting into  
 one of those warm snow-buried  
 wooden huts in Little America that  
 isn't in danger of being blown away  
 by the wind.  
 Speaking of wind, we've got plenty  
 of it and they tell me this is only  
 a beginner. We are reaching the  
 end of our summer season down  
 here and the boys tell me it is nice  
 and balmy. I wouldn't know that.  
 The thermometer says fifteen de-  
 grees below zero and a biting wind  
 sends the cold right through our  
 velva.  
 There are 51 of us working on the  
 ice and already we are watching  
 each other's faces for signs of frost-  
 bits. If we see a small white dot  
 appear on another fellow's nose we  
 run up to him and help him to rub  
 it with snow to restore the circula-  
 tion. Frostbite is no fun under our  
 circumstances and Dr. Shrey has  
 been busy fighting it with us, but  
 now he is gone. Illness forced him  
 to quit the Expedition and he is on  
 his way back to New Zealand on the  
 Jacob Ruppert. We'll miss him.  
 We understand the research ship,  
 Discovery II, is bringing us another  
 doctor who will be transferred to  
 the Bear at Oakland and brought  
 here to spend the next year or so  
 with us on the ice. Then the Bear  
 will have to run out of here to New  
 Zealand before the Ross Sea freezes  
 again, so we'll be left all alone for  
 twelve months. I wonder—about a  
 lot of things!

W. S. McCormack  
 our autogyro  
 pilot

In addition to my job of segre-  
 gating the many types of fuel and  
 oil for the various airplanes, trac-  
 tors and snowmobiles, as they re-  
 quire it, I am now helping in the  
 distribution of parts for all these  
 machines. Gosh, I didn't know there  
 was so much work in the world!  
 The only water we have is heated  
 snow, so even the sketchy washin'

of hands and face and shaving are  
 priceless luxuries. Bathing is out  
 of the question. Later, when we get  
 indoors we'll clean ourselves with  
 cold cream. I never realized what  
 a wonderful thing that was. "Gee,  
 How I Hate To Get Up In The  
 Morning." It is a miserable feeling  
 crawling out of a warm sleeping  
 bag into a temperature of ten be-  
 low zero and finding your boots  
 frozen solid so you have to beat  
 them against the tent pole to soften  
 them up before you can put them  
 on and thus get your feet in out of  
 the weather. No yawning or stretch-  
 ing. Once awake and out of your  
 nest and you have to move fast.

Al Carbonne, the cook, is hav-  
 ing a picnic trying to feed us  
 properly. Working under tremen-  
 dous difficulties, with only a single  
 three-burner gasoline stove to pre-  
 pare five meals every 24 hours for  
 51 men, he is performing miracles.  
 But we must eat fast. The food  
 turns stone cold in two or three  
 minutes and freezes solid in ten.  
 Out on the trail we have thermos  
 bottles of hot cocoa. You can bet  
 I am very careful to keep that  
 stove supplied with the proper  
 gasoline.

We are working day and night  
 at top speed to get our supplies  
 to Little America before the bay  
 ice and barrier ice feet break off.  
 There is a considerable crisis of  
 this kind now at Pressure Ridge  
 but, with luck, we'll beat it.

I'm delighted at the radio news  
 that these disconnected, hurried  
 little yarns of mine are proving in-  
 teresting and are running in hun-  
 dreds of newspapers and that my  
 club is growing so fast. They tell  
 me that high school teachers are en-  
 rolling their entire classes and  
 studying the stories with the work-  
 ing maps every week. That's swell!  
 The more the merrier. We welcome  
 as members, without any cost what-  
 ever, all people interested in avia-  
 tion, adventure and exploration who  
 send in a self-addressed stamped  
 envelope to C. A. Abele, Jr., presi-  
 dent, Little America Aviation and  
 Exploration Club, Hotel Lexington,  
 48th Street and Lexington Avenue,  
 New York, N. Y. and the club staff  
 will send them all a membership  
 card and a big map of the South  
 Polar region.
