AN ORGANIZATION PLAN PERFECTED FOR FISHERMEN

Attempt Will Be Made To Unite All Eastern Carolina Fishermen

EHRRINGHAUS IS INTERESTED

As was announced in the News last week another fishermen's meeting was held in the county courthouse here Saturday afternoon. The attendance was rather small but representatives were there from Cedar Island, Morehead City and several other places. This was the fourth meeting that has been held and it was suggested by some one that maybe the reason not many were present was that so many meetings had been held. However if the organization is to be perfected it will be necessary to hold more meetings.

The meeting was called to order at 2:30 by Chairman Walter Lewis of Morehead City. Rodney Prescott of Morehead City was secretary of the meeting. Chairman Lewis and Secretary Prescott reported as to the special committee's trip to Raleigh to see Governor Ehringhaus on Tuesday a week ago. The Governor assured the delegation of his interest in getting better prices for fish and of his readiness to cooperate. He promised to see Mrs. Thos. O'Berry State Director of the Federal Emergency Relief and see if she could use any fish for relief purposes. He also agreed to write a letter to the wholesale fish dealers in North Carolina asking them to try to pay better prices for fish. It was stated by the Governor that the average income for fishermen in the State for 1933 was only \$160.

A plan for perfecting a fishermen's organization was read to the meeting by Secretary Prescott. After some discussion a motion offered by L. H. Hardy of Merrimon to approve the plan was put and carried. Mr. Hardy also stated that he is a long haul fisherman but if necessary to raise prices of fish that long hauling be stopped he for one was willing to stop. Duffy Day of Cedar Island also took part in the discussion. Captain John A. Nelson suggested that too many trucks are hauling fish in trucks that are not suitable for the purpose.

The tentative plan as adopted calls for communities in which fishing is the major enterprise to elect representatives who will compose the Carteret county committee which will name a committeeman to meet with representatives of other counties, discuss problems of the industry, and plan a program for presentation to the board of conservation and development or to the general assembly, if necessary. Representatives will serve for one year, and the first election will probably be held in December.

If the movement as begun in Carteret can be carried into other counties as anticipated, the association will be known as the Eastern Carolina Fishermen's Association.

BIRTHS

Born to Mr and Mrs. Johnnie Wade of Williston, Oct. 6, a daughter.

Born to Mr. and Mrs. Harold Webb of Morehead City, October 8, a daughter.

NO SERVICES SUNDAY

Until further notice, the regular eleven o'clock service at St. Paul's Episcopal church will be discontinued. Owing to the meeting of the General Convention at Atlantic City, a number of clergy from this Diocese are absent and it has not been possible to procure visiting clergy to fill the pulpit.

COURT ORDERS MANDAMUS AGAINST CARTERET COUNTY

New Bern, Oct. 10—A preematory writ of mandamus was signed Monday in federal court here against Carteret county, the Beaufort graded schools and the Morehead City schools, on suits brought by the Sovereign Camp of the Woodmen of the World for collection of overdue bonds.

This means that the Carteret officials will be compelled to levy assessments against the property for payment of the bonds, now in the hands of George Green, federal court clerk here.

The suit amounts, filed sometime ago, are as follows: Carteret county, \$35,550; Beaufort schools, \$15,597.50, and Morehead City schools, \$3,880.

Construction Started On Laboratory Bridge

The actual construction of the bridge to the U. S. Laboratory on Pivers Island, planned for many months, was started several days ago and if no trouble arises will continue to its completion. The Davis Construction Corporation was low bidder for both the fill and the bridge. The fill is to cost \$3587.00 and the low bid on the bridge was \$4785.00.

The bridge will be of creosoted wooden materials and will be 10 feet wide. As there is not much parking space on the island it is expected that the bridge will be used mostly by pedestrians. If a fire should ever occur on the island the bridge will permit the use of Beaufort and Morehead City fire apparatus. Some eight or ten men will be employed on the bridge and they have been obtained through the National Reemployment Service. The fill will be done by a hydraulic dredge. It is thought that the entire job can be completed in about four months.

A HOME NEWSPAPER

The Beaufort News does not pretend to carry the news of the world. In its field which is mainly Carteret county it does undertake to keep abreast of what is happening.

In last week's issue of this newspaper, which was about an average, there appeared the names of 345 Carteret county folks. Of course each name was connected with some item of news. In the same issue of the News there were about 30 columns of reading matter which would average close to 1000 words to the column. In a year's time the reading matter printed in the News would equal about 16 good sized books.

Persons who are interested in Carteret county events would do well to read the Beaufort News and of course a good many do.

HARKER'S ISLAND FERRY SCHEDULE CHANGED

Editor of The News: Beginning next Sunday, October 11th, we will change the schedule of the Harkers Island ferry slightly to enable the ferry to get back to Harkers Island before dark on the last trip in the afternoon. All trip schedules will remain the same with the exception of this last trip.

The new schedule will be as follows:

Leave H. I.	Lv. Gloucester
8:00 A. M.	9:00 A. M.
12:00 M.	1:00 P. M.
4:00 P. M.	4:45 P. M.

Very truly yours,
ROY J. HART,
District Engineer.

New Bern, Oct. 6.

NOTICE TO UNEMPLOYED

All unemployed persons who desire work and who wish to have their application in the active file, so if and when any calls are made to the Employment Service for help their names may be one of the names submitted to the employer, are requested to call at the Reemployment office in the auditorium at the City Hall, Morehead City, any day between the hours of 9 and 1 and make this request known. It is a NRS ruling that all applications have to be renewed every 90 days or the application is cancelled or put in an inactive file.

All employers, contractors, housekeepers, etc. are also requested to use this service when in need of employees.

Mrs. Floyd Chadwick, Manager, National Reemployment Service, Carteret County, Morehead City, N. C.

SUNDAY SERVICES AT ANN STREET M. E. CHURCH

The Pastor will preach at the Morning hour, 11:00 o'clock, on "Outlawing War." It is desired that all the membership of the church, as far as possible, be present for this study and discussion. The pastor will begin a series of Revival services at Harlowe Methodist Church Sunday night. The Reverend Mr. Brandenburgh of Straits will preach at the Methodist church here at 7:30 o'clock.

The second cattle sale in Macon County resulted in 346 head being sold. Most of the animals were culls which would not pay for wintering. The adjustment program has meant \$100,000 to the farmers of Lincoln County in rental and benefit payments this year.

BEAUFORT GETS A NEW ENTERPRISE

Sea Food Company Locates Here; Will Employ A Good Many People

A new enterprise is now getting started in Beaufort which promises to give employment to a right large number of people both here and elsewhere in the county. The business referred to is the New Bern Sea Food Company, W. S. Travis of Cape Charles, Va., is principal stockholder and general manager of the concern. Mr. Travis has been here several days and his son W. B. Travis is here temporarily helping to get the business under way.

The New Bern Sea Food Company, as its name implies, has been in operation in New Bern but has moved here in order to get nearer to the source of supply of sea food. The concern will handle crabs, clams, shrimp and fish. Its specialty however will be packing crab meat which will be shipped mainly to northern markets. The crabs are boiled, the meat picked out of the shells and packed in one pound tins and shipped in boxes or barrels. Four grades of the meat will be packed. A 12 horse power boiler and processing kettle with a 12 barrel capacity have been installed. It takes 15 minutes to cook a batch of crabs.

When the new firm gets into full operation it will employ 60 or more people mostly women. The pickers have to be trained and after they have learned can make good wages. Crabs will come mostly from the eastern part of the county, probably as far as Sea Level. Catching the crabs will give employment to a large number of fishermen. It is planned to cook the first batch of crabs Monday afternoon.

JUDGE PARKER WILL HOLD COURT HERE NEXT WEEK

A one week's term of Superior Court or the trial of criminal and civil cases will convene here Monday. Judge R. Hunt Parker will preside over the court. This will be the first time in Carteret county.

The first three days of court have been set aside for trial of cases on the criminal docket. There are three or four persons in jail awaiting trial and a considerable number out on bond. Thursday, Friday and Saturday have been designated for the trial of civil actions. About thirty cases are on the calendar for trial at this term.

MARRIAGE LICENSES

Louis Dixon, Portsmouth and Iona Willis, Harkers Island.
Everett Littleton and Mary E. Pittman, Lukens.
Leslie Guthrie and Kathleen Willis.

STATE DEBT HAS GROWN

It's a far cry from the North Carolina of Today, State Treasurer Charles M. Johnson finds. The Treasurer's report of 1901 shows the total State debt then was \$6,527,770, while the debt today, less the sinking fund investments, is \$161,424,678.14. Total cash on hand that year was \$62,371.41, while today it is \$12,358,615.95. Mr. Johnson points out.

WILL BE NO RAINY DAY SCHEDULES IN CARTERET COUNTY THIS YEAR

There will be no rainy day schedules in the schools of Carteret County during the present session. This policy was determined upon at a Principals' conference in the office of the County Superintendent last spring. Although each school has doubtless announced this fact from their respective platforms, the attention of the public is called through the press not only to the fact of the changed policy but to some of the reasons prompting the change.

The health of the children is a prime consideration of the schools, but it is believed that fewer interruptions to regular school work, better use of the rainy school days throughout the year, and the welfare and convenience of both pupils and patrons, can best be guaranteed through a regular hour for dismissals each day. Under the rainy day regime it quite often happened that the classes for the day would be rushed through and the pupils dismissed for lunch or at the end of the shortened day, and the pupils go home in a down pour of rain which as often would have escaped had the regular time for dismissal been observed. Too, the judgment of parents and principals as to whether rainy day schedules should be expected on

BANKS ARE LARGE BUYERS OF BONDS

Answer President Roosevelt By Showing Amount of Bond Investments

(N. C. Bankers Assn.)

Raleigh, Oct. 9—As evidence of the fact that the banks of North Carolina and of the nation are cooperating in government financing, it was pointed out that the banks in this State have invested approximately one-third of their deposits in United States and North Carolina bonds and notes, and that the American banks are carrying 51 per cent of the United States government debt, in a statement issued today by Millard F. Jones, President of the North Carolina Bankers Association.

"In his recent radio address to the country," Mr. Jones states, "Mr. Roosevelt referred to the successful British refunding program of 1933 and made the statement, 'and let it be recorded that the British bankers helped.' Some have interpreted this statement by the President as inferring that the British banks had rendered a larger measure of assistance to the Government than has been the case with the American banks. A survey of the situation reveals the following facts:

"The banks of North Carolina have 18 per cent of their deposits invested in United States securities, approximately 12 per cent in State of North Carolina bonds and notes, and also hold a considerable amount of local municipal and county bonds and notes. In all, the banks of our State are investing a total of approximately one-third of their deposits in Government obligations, while at the same time they are extending credit to business and industry in this State to a total of approximately \$100,000,000.

"The banks of the United States hold more than \$14,000,000,000 of United States bonds and notes, or slightly one half of the total government debt. The British banks hold only 11 per cent of the Internal British debt. During the first year of the present administration, United States banks purchased \$4,000,000,000 of new Government issues, while in the same period British banks reduced their holdings of government bonds. Furthermore, the British bond conversion was made after Great Britain had balanced its budget and had made an end of huge governmental expenditures, while United States bank support of government financing has been given at a time when the Government is still committed to huge expenditures and an unbalanced budget, accompanied by threats of inflation.

"In light of these facts there could hardly be any inference that American banks, and particularly banks in North Carolina, are failing to support the government's fiscal program."

BIRTH OF SON

Information was received here today of the birth of a son this morning to Mr. and Mrs. Joseph Matthews of Raleigh. Mrs. Matthews was formerly Miss Anna Skarren, daughter of Mr. and Mrs. Charles Skarren of Beaufort.

Very Quiet Campaign Now Being Conducted

So far as appearances go the political campaign in Carteret county is one of the quietest on record. It is reported that some organization work has been done but neither Democrats nor Republicans have had any political speakings in Beaufort or elsewhere in the county. It is expected that there will be a few speakings before the campaign is over.

County Republican Chairman C. H. Bushall states that W. C. Meekins, chairman of the Republican state executive committee and W. B. Rouse of New Bern, Republican nominee for Congress will be in Beaufort on Saturday the 20th. The meeting is mainly for the purpose of conferring with the precinct committeemen but there will be some speaking and the public is invited. Democratic Chairman Luther Hamilton has not announced any speaking dates yet but the News understands that he may do so soon.

A notice elsewhere in this paper by Chairman D. E. Langdale of the County Election Board gives dates for registration and so on. Registration books will be open on the next three Saturdays, beginning October 13. Challenge day will be on the 3rd of November and the election will take place on the 6th.

ONLY A FEW CASES TRIED HERE IN RECORDER'S COURT

Recorder's Court Tuesday had a very brief session. Only two cases were on docket and both of them were continued. Glenn Guthrie of Morehead City charged with having in his possession for the purpose of sale and transporting whiskey was not tried because his attorney could not be present. He was put under a \$200 bond.

Cleve Norris, colored man of the North Harlowe section in Craven county, indicted for having liquor in possession for purpose of sale and transporting, asked to have his case continued so he could get an important witness. This favor was granted and he was required to give a \$200 bond.

Henry Turner Jr., young colored man of Beaufort who was tried and convicted some weeks ago for resisting an officer but was never sentenced had judgment suspended. He must pay costs and be of good behavior. Officer Holland the man assaulted asked that this be done.

MRS. CORNELIA MANN DIES AFTER A SHORT ILLNESS

Newport, Oct. 9—A large crowd of sympathizing friends and relatives attended the funeral of Mrs. Cornelia Mann Sunday morning at 10 o'clock at the home of her brother Mr. E. X. Garner. The services were conducted by her pastor Elder Ransom Gurganus assisted by Elder E. F. Pollard, both of Jacksonville, N. C. Interment was in the Mann burial plot adjoining Cedar Grove cemetery at Newport. She had been a member of the Primitive Baptist church 21 years.

Mrs. Mann had enjoyed very good health until a few weeks ago when she sustained a stroke of paralysis and was critically ill until the end. She was 76 years old and was the widow of the late Jabez Mann who died several years ago. She was the daughter of Elijah M. and Rebecca Mann Garner. Her nearest surviving relatives are her twin brother, Mr. E. X. Garner, Newport R. F. D. 2 and two brothers R. E. Garner of Mount Olive and Owen D. Garner and a sister Mrs. Lattie Garner. The two latter live in Florida.

WILL LECTURE ON HOLY LAND

The Rev. C. B. Culbreth, will lecture on "The Holy Land" at the North River Church Sunday afternoon at 3:00 o'clock. The lecture will be the story of the visit of Mr. and Mrs. Culbreth the other year to Egypt and the Holy Land. Mr. Culbreth will be glad that all the children and young people will be present for this service and lecture.

PARENT-TEACHERS MEETING

A meeting of the Beaufort Parent-Teachers Association is called for Tuesday afternoon, October 16. The meeting will begin at 3:15 and will be held in the school auditorium. This is the first meeting of the year and will be an important one. All members and any others who may be interested are urged to attend.

Mrs. C. R. Wheatly, President.

Mrs. F. E. Hyde and Mrs. W. G. Mebane motored to Norfolk Monday returning Tuesday with Dr. Hyde.

PROFESSIONAL MEN MUST PAY TAXES

License Taxes Must Be Paid This Week By Lawyers, Doctors And Others

By M. R. DUNNAGAN

Raleigh Oct. 8—Every professional man and woman in North Carolina will have paid their license taxes to engage in such profession by the middle of this week, or an execution will have been served on the delinquents and steps will be taken to deprive them of their licenses to practice in the State, it is learned from authoritative sources. This will be the first time that these professional license fees have been gone after "with gloves off" and increased revenues result.

Information is that when the tax-gatherers now go after their man, they get his fee, and any back fees due, or the execution is issued. Two years ago only 1800 lawyers paid license fees, and more than 40 per cent paid the half fee, swearing that they did not receive more than \$1,000 from their profession the year before. This year the number paying is expected to reach 2400 or 2500. The same is true to a greater, but usually lesser, extent, in case of other professionals, doctors, dentists, engineers, eye doctors or several names, photographers, and others. In one county out of 20 professional men who were delinquent, it was necessary to issue executions in only two or three cases. That is understood to be the average of executions issued, two or three to the county.

All license fees, as well as the sales tax, are expected to be collected up to date within the next two months. There has been talk that irate taxpayers who have been "getting by" are now out to "get Noble," meaning Dr. M. C. S. Noble, Jr., executive assistant chairman of the Revenue Department. However, when the reports of collections are submitted to the General Assembly, and it is seen that the cost of collection has been reduced from 25 to 50 per cent, that is more than likely to pronounce him and others of the department "faithful servants."

Orders have been given for three specially designed trucks to be used in the forest fire control service in as many counties. W. C. McCormick, assistant State forester, announces. The first three will be assigned as follows: one to Chatham county, one to the Overhills Forest Fire protective Association in Harnett county, and one to Scotland county and the Scotland County Forest Protective Association. Each truck will have a tank, capacity 200 gallons of water, a double tcaon pump, for securing water from nearby streams, and room for eight fire-fighters. These trucks will be used only in eastern counties, not being practical in the mountain counties. Mr. McCormick said. Trucks will be added to the standard fire fighting equipment in the 44 cooperating counties as rapidly as funds are available for their purchase.

Dr. A. T. Allen, State Superintendent of schools, suffered a relapse recently, and returned to the hospital. He is expected to be out again in a few weeks.

TIDE TABLE

Information as to the tides at Beaufort is given in this column. The figures are approximately correct and based on tables furnished by the U. S. Geodetic Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is whether near the inlet or at the heads of the estuaries.
