

# A Newsy Trip Around The World

By Elizabeth Saunders

John F. Bedell of Thorverton, England, refused to kiss the court Bible when called as a witness, declaring it was "indecently dirty from long use."

In Pocatela, Idaho, Arthur Marcetta was fined \$50 because he gave his wife "a good spanking."

Hinduism, which has 250,000,000 followers, or one eighth of the world's entire population, is the only living religion which worships goddesses as well as gods. In fact, they probably far outnumber the gods, as more than 80 per cent of the people in southern India worship local village deities, nearly all of which are feminine.

In Barnham, Illinois, recently bandits held up Rev. Walter Carvin, taking his watch and Bible.

The United States government collected more than \$200,000,000 in gasoline taxes during the past fiscal year.

Hot dogs numbering 45,000; 15 barrels of sauerkraut; 1,000 loaves of bread; 300 pounds of coffee, were fed 5,000 persons at a Republican political rally in Cleveland.

### FISHERMEN HAVE NOT HAD MUCH PROSPERITY AS YET

RALEIGH, Nov. 25.—North Carolina fishermen have not felt the effects of the New Deal to the extent that cotton and tobacco growers and other citizens have. They have not only lost much of their catch, estimated at 250,000 pounds, from overstocked market, but have had to sell what has been sold at a very low price. Captain John A. Nelson, State fisheries commissioner, reports

Efforts are being made by Conservation and Development officials to enlist aid of the State ERA in establishing a cooperative marketing system, similar to the Maine system. A special conservation committee, Director R. Bruce Etheridge, Captain Nelson, J. L. Horne, Jr., Rocky Mount and D. L. Ward, Jr., New Bern, with R. S. Prescott, secretary of the Carteret County Commercial Fisherman's Association, has assurance of aid from Governor Ehringhaus on the plan.

### Voluntary, Forced Bankruptcy

Voluntary bankruptcy may be entered into by a debtor who has admitted in writing his inability to pay his debts and his willingness to be adjudged as bankrupt on that ground. The debtor files petition. Involuntary bankruptcy may be forced upon a debtor by any creditor or creditors who, after filing their petition, can prove that at any time within four months before the petition was filed the debtor had committed any of the acts of bankruptcy.

## OIL COMPANY TO EXPAND IN SOUTHERN STATES

"We're investing in the South because we believe in the South," C. G. Swank, of Socony-Vacuum, tells Mayor Howard W. Jackson of Baltimore.

Baltimore, Md.—A wide-spread program of business expansion in the south, to meet "greatly improved conditions of industry and agriculture in his region," was announced here by the Socony-Vacuum Oil Company, Inc. A new policy of direct sales by the company of its lubricating products in this territory has been instituted; divisional offices have been opened in Baltimore, and new warehousing and distribution facilities have been established in key points in Maryland, Virginia, West Virginia, North and South Carolina and the District of Columbia. The entire program, calling for the expenditure of thousands of dollars in the Southeastern States, was instituted after an extensive survey by Socony-Vacuum, the world's largest marketers of lubricating oils. This investigation revealed not only unusually sound conditions here, but a "vast potential market which is coming back faster than almost any other section of the country," it was stated by C. G. Swank, who has been appointed general manager of the Southeastern Division of the company.

### Christmas Shoppers

It is time to get busy. Only twenty shopping days remain until Christmas. Those who buy early usually get the best selections. Read the advertisements in the News and come and look over the stocks which the merchants have to offer. When you buy from local merchants you see what you are getting. You cannot tell much from a mail order catalogue.

### TIMELY FARM QUESTIONS ANSWERED AT STATE COLLEGE

Raleigh, Nov. 26—  
Q. Should hogs be taken off feed before they are killed?

### Do YOU Know—

That the word "stocking" comes to us from "stock" which was formerly used as a covering for the legs and feet, combining breeches or "upper stocks" and stockings or "nether stocks." The use of stockings originated in the cold countries of northern Europe, the earliest being made of skins.

Ans. Yes. The animals should not have any feed for at least 24 hours before they are slaughtered. It is easier to get a good bleed when the system is not gorged with food and the meat always cures better when the small blood vessels are free from blood and food particles. The animals, however, should have plenty of water before them at all times so as to flush out the intestines.

Q. Will the use of artificial light increase egg production?

Ans. This method of stimulating production is being used with success in many parts of the country. The use of artificial lights is to lengthen the feeding hours which will increase mash consumption and this will naturally increase egg production. The lights should be so regulated that the birds have from twelve to fourteen hours a day in which to eat. Be sure that the entire house is well lighted. Two forty-watt bulbs for each 400

square feet of floor space will give sufficient light provided that each bulb has a reflector about sixteen inches in diameter and four inches deep. Extension Circular No. 158 gives the various systems of lighting most commonly used and this can be secured free upon application to the Agricultural Editor at State College.

Q. Who pays the processing tax on cotton?

Answer. This tax is paid by the consumer when any product manufactured from cotton is purchased. It is added to the manufactured article before it is sold to the retail merchant. The rate is 4.2 cents a pound net weight of cotton used in the manufactured article. The average amount paid by the consumer is about 8 cents on sheets; 3 1-2 cents on a work shirt; 8 1-4 cents on a pair of overalls, and about one cent per yard on unbleached muslin.
