## Control Board Orders Big Stock Of Liquors For Opening Of Stores

Approximately \$16,000 Worth of Wines, Liquors And Other Alcoholic Beverages Will Stock Morehead City and Beaufort Stores Scheduled to Open on Tuesday; William M. Webb and Gib L. Arthur Appointed as Board Members

### DRIVE ON BOOTLEGGERS TO START IMMEDIATELY

Enforcement Officer Will Work Under Direction of Board and Clean Up or Padlock All Existing Speakeasies; Board Has Not Appointed Store Managers Yet.

Approximately \$16,000 worth of beverages have been ordered by the Carteret Control Board and the ABC stores will open in Beaufort and Morehead City not later than Tuesday, it was learned today. And BOOTLEGGERS WILL BE ELIMINATED. That is the assurance given by Charles Lambert Skarren discharging official of the Board.

Plans were to open the stores by Wednesday of this week but a delay resulted when two of the appointees of the Control Board refused to serve they were Stanly Woodland and D. E. Willis. On Monday of this week Wm. M. Webb and Gib L. Arthur were appointed by the commissioners and both have qualified and several meetings have been held by the Messrs Webb, Skarren and Arthur this week to map out plans for the opening. Stores have been rented and are now being remodeled to answer specifications of County Control stores. A big stock of liquors, (Continued on page eight)

### INFORMATION ON WPA JOBS GIVEN

When the Works Progress Administration takes over a project from Emergency Relief Administration it will make its call for workers to the National Re-Employment Office located in the City Hall at Morehead City. All relief clients will be given preference by the Employment Office if they are registered at the Employment Office. Therefore all persons who are on the relief rolls who are able to work who are over 16 years of age both men and women should apply for blanks to Miss Godwin at the Beaufort ERA Office if they live in the East End of the county or to the Morehead ERA office if they live in the West End. No payrolls will be certified for payment unless everyone whose name is on it is registered at the Employment Office.

### TIDE TABLE

Information as to the tides at Beaufort is given in this column. The figures are approximately correct and based on tables furnished by the U. S. Geodetic Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is whether near the inlet or at the heads of the estuaries.

### Covering The WATER FRONT

By AYCOCK BROWN

WHETHER THEY CLOSE the bridge for repairs or leave them open, we still contend that plans were underway by State Highway officials to do something to the two spans between Morehead City and Beaufort. As a matter of fact specifications for repairs had gone from one department to another or how would the rumor have ever reached this section?

WE THINK GOVERNOR Ehringhaus and Highway Chairman Capus Wayne failed to use their best judgment when wired for information about the bridges. Even if both were out of town, as most public officials are in the summertime, those behind in their offices might have shown a bit of interest. We will admit that Governor Ehringhaus' office wired that His Excellency was out of town but a simple request like that, so it seems might have been handled by an office boy. And the Honorable Capus has never yet acknowledged receipt of the telegram sent him by the Chamber of Commerce, which is not another method of building up love and friendship between taxpayers and office holder.

SPEAKING OF BRIDGES, Mr. Beaman of the Port Commission advanced one of the most sensational predictions a few days ago that we have heard in some time. The Port at Morehead will grow to such an extent said Mr. Beaman that within 10 years the bridge between Morehead and Beaufort will be eliminated to allow harbor space. Naturally there will be another bridge built to take care of the traffic but it will be to the northward of the present structure. (Continued on page eight)

### OUR CANNERY TO OPEN ON MONDAY

Establishment Sponsored by Chamber of Commerce Completed and 25 Women Will Be Given Temporary Employment

Representing an investment of approximately \$1,500 the cannery sponsored by the Chamber of Commerce is ready to begin operation, according to Fred Seely who has been the principal figure in getting the plant started. It is located in the old knitting mill building on Live Oak street. The building has been rented for a nominal sum.

The first produce to be canned will be tomatoes which escaped the June drought. About 25 women will be employed at the start, according to (Continued on page eight)

### Rookie Rolls The Regimental Ball

Private Flemming Fell For The Gag And Made Five Dollars

To Private Flemming of Raleigh goes the distinction of being the first man to really roll the "regimental ball," at the annual and colorful social event staged by the 120th Infantry during their encampment at Camp Glenn. For years it has been a standing gag among the officers. Just prior to the staging of the regimental ball they always tried to find some greenhorn rookie who would serve as "ball roller." Five dollars was the price paid for the services of a ball-roller. No one ever accepted the job until this year when

Private Flemming took them seriously and secured a wheelbarrow in which he rolled a ball shaped floral design. Uniformed men by the hundreds thronged the floor of the Casino by the Sea and the event was a big success. The 120th Band played for the grand march and later in the evening Jimmy Poyner and his orchestra furnished syncopation for the dancers. (We are indebted to our friend Haywood Trotter and the Charlotte Observer for the use of the flashlight picture above showing Flemming and his "ball.")

### NIECES INHERIT M'COOK PROPERTY

He Took a Houseboat And Made A Beautiful Home on Bluff Overlooking Core Sound at Atlantic; Other Wills Probated

Robert L. McCook who made his home in Carteret county at one time or another for several years died several months ago. On the edge of Core Sound he built a beautiful home. Thousands of dollars was spent in converting a palatial houseboat into a home and at the time of his death he had also built an arboretum enclosed in glass where flowers and fruit trees were planted.

In his will probated recently with the clerk of superior court here, it was shown that no one in Carteret (Continued on page eight)

### Australia Will Be Tried On Tuesday For Theft Of Money

#### CAVALRY ARRIVES WITHOUT A HORSE

About 200 cavalymen of the North Carolina National Guards arrived at Camp Glenn for two weeks training Sunday as the 120th Regiment departed for home. If you want to see a cavalry in training without being mounted aboard their steeds a trip to Camp Glenn will offer that opportunity.

They had expected to follow their horses on to Fort Oglethorpe in Ga., but such was not the case due to some last minute order so for two weeks they will devote their time to rifle practice, while the horses eat their oats far to the southward. The companies making up the men now in training at Camp Glenn form the Third Squadron of the 109th Cavalry.

At Present She is Bounded on North, East, South and West By Walls of Carteret Jail; Julian Willis Bound Over to Superior Court on Assault With Intent to Kill Charge; His Bond \$250.

Mrs. Tilley's colored servant, Australia Parker, (named after a province of the British Empire that is bounded on the west by the Indian Ocean, on the north by the Timor Sea, Gulf of Arpentaria and the Coral Sea, on the East and South by the Pacific ocean) was charged in Recorder's Court Tuesday with the theft of from \$50 to \$70. The case was continued. In the meantime Australia is bounded on the north, east, south and west by the walls of Carteret county jail.

The capias issued for Jack Greer has not yet caught up with him. He is charged with operating a speakeasy on wheels out near the beautiful shore line of Bogue Sound. The case against John Wayne who ran amuck in May and finally landed in Recorder's Court charged with assault with deadly weapon and non-support was settled, and so marked on the docket. (Continued on page Eight)

#### BODY OF WOMAN WAS NOT FOUND

Sheriff Chadwick and Coastguardsmen from the Fort Macon station failed to find the body of a woman floating in the waters of Bogue Sound today although they made a diligent search of the shore line and also the Sound in the Bogue Inlet Station boat. The crew of the tug-boat Alma reaching Morehead City early today from Swansboro reported to coastguard and Morehead City police that they had seen the semi-nude body of a woman floating in the vicinity of the Third Beacon on this side of Swansboro. The Sheriff and Coastguard made a futile effort to locate the body, despite the fact that no nearby towns have reported any missing females.

### Carteret Board Discuss W.O.W. Loan To County

Auditor Hamilton Stated That He Hoped a Compromise Could be Reached Whereby County Would Not Have to Pay Approximately \$72,000 Which Increases at Rate of \$10 Daily

#### APPOINT CONTROL BOARD

William Webb and Gib L. Arthur of Morehead City Will Serve With Charles L. Skarren Who Has Already Qualified; Tax List Goes to Herald Again

In addition to appointing William M. Webb and Gib L. Arthur as members of the Carteret Control Board, the county commissioners on Monday discussed the W.O.W. loan which has been in the limelight recently. The total amount due today in the original amount plus interest is approximately \$72,000 or about twice the amount originally borrowed. The court ruling on this debt released a few days ago follows:

"A county may not be permitted because of its financial condition to defy creditors and apply tax money it collects towards the payment of such claims as may be compromised, nor may a county invoke its embarrassing debt burden as an excuse for refusing to do anything at all," is emphasized in United States Court in New Bern recently, by which was affirmed the district court judgment in favor of the Sovereign Camp of the Woodmen of the World in their long pending suit against Carteret county for the payment of county bonds amounting to \$35,550 and interest. (Continued on page eight)

### BABSON PREDICTS BETTER DAYS FOR AMERICAN FARMER

Effects of 1934 Drought Disappearing Babson Sees Bigges Farm Income This Season

Babson Park, Mass. July 24—When I last reviewed the farm situation (during the winter) the weatherman promised to be the big factor in the 1935 agricultural picture. In the intervening half year he has done his best to carry out my forecast in certain areas. Newspapers have featured his antics,—dust storms followed by torrential rains, devastating floods and now threatened black rust disaster. Throughout most of the country, however, the weatherman has given farmers fairly satisfactory growing conditions. Put now his position as number one influence on the farm outlook is being challenged by the legal status of the AAA's processing taxes!

Crops About Normal Mid-year reports by the government's crop surveyors confirm the fair growing conditions which exist. They say the 1935 crops are starting with an acreage that is well above a year ago even though somewhat below the plantings of other years. Slightly higher than normal yields per acre of most major crops indicate that the 1935 harvest will be substantially above 1934 and, with the exception of corn and winter wheat, approximately normal. The cloud on the horizon is the possibility of a widespread black rust epidemic which would damage the spring wheat crop. (Continued on page seven)

### WORTHY CITIZEN DIED ON FRIDAY

David M. DeNoyer Who Made A Phenominal Business Success In Beaufort Succumbs To Pelagra

Funeral services for David Morgan DeNoyer were held Sunday afternoon at the home with Rev. Lawrence Fenwick, rector of St. Paul's church conducting the rite. Interment was made in St. Paul's cemetery. Mr. DeNoyer was born July 10, 1899, the son of Joseph and the late Susan Gilday DeNoyer of Devil's Lake, N. D. In 1917 he entered the World War and was first stationed at (Continued on page four)

### THIS GOOD SHIP MADE THE FRONT PAGE

The Motor Yacht "John A. Nelson" Flagship of The North Carolina Fisheries Fleet

#### A Faulty Drain Pipe Caused Her to Sink At Ocracoke

The total cost for putting the vessel back in cruising condition will be approximately \$700, according to Capt. John Nelson, commissioner of Fisheries. The cost for floating her on Wednesday, July 17, (three days after she sank) was \$400. A 75-foot tug towed her to Morehead City on Thursday. She is now at Bell-Wallace shipyards being put in shape again. Former Lieut.-Gov. Long and a party of friends were aboard the craft when she sank. Ocracoke Coastguardsmen transported them to safety. Much of the movable equipment in the main cabin was saved, including the collection of Governors, from Aycock down to Ehringhaus. The John A. Nelson originally cost North Carolina \$11,000. Before that purchase the vessel was the Wichita, one of the Carnegie fleet of yachts. She is 69.6 feet long, 16.2 feet wide and has a depth of 6 feet, was built in 1928 at Brooklyn.
