**Is This True?**

Carteret is a county ruled by Democrats. Beaufort is a town ruled by Democrats. But the rulers' 'brain trusts' are Republicans. Probably the Democrats are lucky to have such capable 'brain trusters.' Are we wrong?

**Unfair To Our Spud Growers**

The AAA allotment for North Carolina will work a hardship on growers in east and north Carteret county. The allotment was made on a basis for the entire state, and for that reason where it will not affect some counties and sections it will work hardships on Carteret, Pamlico, Beaufort and other sections in the east where spud growing is the principal farm product. The counties in the Tobacco Belt that took up spud growing to an advantage when their tobacco crops were AAA-ed will not suffer as a result of the Irish Potato allotment—but farmers in our coastal counties will. For this reason Carteret spud-growers voiced their protest of the discrimination shown adjoining states. A better plan would be to make the allotment to the counties that will be most affected—and such a plan may be worked out.

**Summertime Is Celebration Time**

It was announced in the State papers a few days ago that Morehead City Port Dedication officials had tentatively set for late November or early December as the date for the celebration of the Morehead City Port. We are hoping that those tentative dates will be extended until late Spring or even early summer. We are extremely interested in seeing a successful dedication and we believe that no celebration under present conditions would amount to very much, if conducted during the winter season. People throughout the State are interested in Morehead City's Port Terminal. But they are not so interested in seeing the beginning of the project. They are more interested in the completion, and while perhaps it may not be completed by late Spring the terminal will have taken on the appearance of a terminal and channel will be of such a depth to allow the passage of destroyers, submarines, merchant vessels or any craft that might be sent here for the occasion. Usually our Springs and summers alone along the North Carolina coast are ideal for celebrations—but our winters are not. Then too it might be that a more interesting line-up of speakers will be present for the occasion next year because next year—is a time that many people will go a long way to talk politics—if nothing else. For color and success this newspaper would suggest Morehead City to postpone her celebration until June 1936.

**The Nazi Steel Purchase**

Maybe Labor and the Nation at large is concerned about the Nazi steel purchase that will go into the construction of Morehead City's Port Terminal, but no one around these parts has worried any about the matter. It is all as simple as ABC to thinking persons and some have hinted that all the unfavorable comments might be coming from Labor, but that big steel companies in America are backing the propaganda. For \$60,000 worth of steel purchased by builders of the Port Terminal from the Nazi government. That government in turn purchased \$60,000 worth of American cotton. That seems simple and a good move besides.

Not only that but an expert tells the editor of this newspaper that German steel is far superior to American steel for the purpose it will be used. The ex-

pert in question had no connection whatsoever with Morehead City's Port Terminal and was as a matter of fact a structural engineer from Atlantic City. German steel is 53 per cent lower than American steel which seems to point a finger at the Carnegie organization organization which might be followed with the words "Now we know why you can build libraries and ride in million dollar yachts." American steel companies have been enjoying prosperity because of huge profits—or it seems that way.

In the meantime Morehead City is getting a break. No one is worrying about the Nazi steel purchase locally but a nation is—so it seems. Morehead City is riding on waves of publicity. Newspapers throughout the country and radio news casters have been telling about the incident—and it is not bad publicity but very good. Morehead City is being talked about by the nation.

**TOWN COMMISSIONER HAS BEEN VERY SICK**

Capt. James Runley, a member of the Beaufort board of commissioners has been very ill at his home, the Old Davis House this week. He has a host of friends in Beaufort and throughout the State who are hoping he will have a speedy recovery. His condition today was reported as improved.

**BIRTH**

**MRS. ALICE MORRIS**

Funeral services for Mrs. Alice Morris were conducted at the Morris home in Stella last Friday afternoon at 3 o'clock with the Rev. W. C. Barbee, pastor of the Swansboro Methodist church officiating. She was the wife of Mick Morris and died at 4:30 o'clock on Thursday following an attack of chronic nephritis. She was 54 years of age.

Mrs. Morris was a devout member of the Free Will Baptist church of Stella. A large number of persons were present at the last rites and many floral tributes were sent, showing the esteem in which she was held in her community. Besides her husband three children, Miss Gladys

**Often Overnight When You Take the Right Thing**

But adults can't expect real results from the same sweet syrupy concoctions that you'd give to a child.

As a matter of fact, that powerful yet smooth, creamy creosoted emulsion known to druggists as Bron-chu-line Emulsion is not loved by children: it's a medicine for grown-ups, but it sure gives results and speedily, too. Get a bottle at Joe House Drug store to night and put it to work at once—it strikes right at the source of the trouble—satisfaction guaranteed.

**N. C. FISHERIES**

(Continued from page one)  
town pays \$30 per month insurance, they had been advised that the corporation had all sorts of markets for all sorts of seafood and that the cannery would employ all the unemployed." Instead," he explained, "the corporation merely buys shrimp and sells on the same market in the same way as the shrimp that are purchased here by independent dealers."  
In the Friday, November 8, edition of The Dare County Times, a full page advertisement was run by N. C. Fisheries, in the Friday, November 15, edition of The Independent of Elizabeth City, a similar ad was run, the size being a half page. Mr. Sikes has been approached by the Beaufort News for similar advertisements but so far has been unable to

secure same, which would be run perhaps in connection with the main plant at Morehead City. Mr. Sikes stated that he had not authorized any advertising in the two above named newspapers and that the manager of the Manteo plant had probably taken it upon himself to buy or secure the space.

But locally, seafood market conditions have been very good recently. It has been attributed by some that the price increase was the direct result of the establishment of the N. C. Fisheries plants. Capt. John Nelson in an interview yesterday stated that he believed the N. C. Fisheries, Inc., would have a tendency to better conditions for fishermen and that was the original aim of the organization. And that is the opinion of this newspaper.

**THANKSGIVING**

In these trying times when everything seems upside down we are inclined to lose sight of the Blessings that are ours. Let us stop and Give Thanks because after all there is no Nation of people who have a greater right to be thankful than we.
