Duke Plans To Build Marine Laboratory Here

Three Resolutions Drawn By Hamilton

They Refer To a Judge, A Court Office And A Gift of \$1,000

ATTORNEY IS READY TO "GO TO THE BAT"

Text of Mr. Hamilton's Resolutions Will Be Found on Page Seven of this edition of The Beaufort News.

Carteret county commissioners voted during their September meeting to give \$1,000 to the Regal Shirt Company, a new industry located in Morehead City for which \$15,000 is said to have been previously raised by local subscription. The Commissioner's views on this action were pointed out in a resolution drawn this week by County Attorney Luther Hamilton and which is printed elsewhere in this edition.

There has been some comment relative to the authority of a county in giving contributions to a private industry, but according to information reaching this newspaper thru Irvin W. Davis, clerk to the board of commissioners, "Hamilton says he is 'ready to go to the bat' with anyone who has an adverse view on the matter." The \$1,000 gift is part of the profits turned over to the county by the ABC stores.

Two other resolutions, one referring to the office of the clerk of superior court and the other to the judge of recorder's court were also (Continued on page eight)

Senator Will Make Address In County

Josiah W. Bailey

Senator Josiah W. Bailey will deliver an address in Atlantic on Saturday, October 17. This news was furnished a Beaufort News reporter in New Bern last week by D. Livingston Ward, secretary to the State Democratic Executive Committee. Atlantic is one precinct in Carteret county which gave Senator Bailey unanimous support during the late lamented Primary when similar support was going to McDonald and Eure. Maybe that is the reason on the first outstanding Democratic speaker coming to Carteret before the November fireworks is Senator Bailey, and the location chosen for the address, Atlantic. Senator Bailey is a great friend to that end of Carteret county and their Drum Inlet.

OPPORTUNITY TO HELP THE NEEDY

Welfare Department, P. T. A., Boy Scouts and NYA Will Collect Garments

Interested citizens are to be given an opportunity to help the needy this winter by cooperating with the Welfare Department, Parent Teacher Associations, Boy Scouts and National Youth Administration. The plan is to have the Scout Troop of Morehead City of which Dr. Eure is Scoutmaster and the Beaufort Troop headed by Mr. Carlton collect used but serviceable garments from citizens of the two communities on a date to be announced later. The N.Y.A. will repair and renovate these garments where necessary after which they will be turned over to a committee from each of the P.T.A.s for distribution as needed. Records will be kept and filed in the Welfare Department to prevent duplication.

The greatest need for the immediate future is children's outer garments such as sweaters, coats, shoes, overcoats, lumber jackets and the like. Any serviceable garment will be accepted and used to good advantage. The probabilities are that there are a great number of such garments which have been outgrown by their owners that would help keep someone warm when cold weather arrives. Many children are compelled to remain home during severe weather because of inadequate clothing. This plan presents an opportunity for a (Continued on page four)

Reynolds To Speak

United States Senator Robert R. (Our Bob) Reynolds will deliver an address to the Beaufort and Morehead City Rotarians at the Legion Hut in Beaufort on Tuesday night October 13, it was announced this afternoon by Tom Hood, secretary of the local club. Rotarian Hood received a wire from Senator Reynolds at Washington today saying he would be here to make the speech.

LEGION FAIR OFFICIALS

Secretary

William L. Hatsell

William L. Hatsell, adjutant of Carteret Post 99, The American Legion, is secretary of the October Fair scheduled for next month in Beaufort. In addition to being an official of the Legion, its coming fair and several other organizations here in Beaufort, Mr. Hatsell is one of the principal main springs of the Beaufort News where he has been employed for the past 17 years.

Treasurer

Tom Kelly

Tom Kelly, employment officer of Carteret Post 99 of The American Legion, is treasurer of the fair being sponsored by the local post and scheduled to be presented in Beaufort on October 12 to the 17. Kelly is widely known in Carteret where he has, for the past several months been supervisor of all county WPA projects. An expert accountant is Kelly, and in this capacity he will serve a useful benefit to the coming fair.

Only \$52.75 Contributed To Beaufort News Triplet Fund

But Those Who Have Contributed To The Welfare of Jean, June And Joan Have Given Freely

Fifteen days ago three tiny premature girl babies were born at Newport. Their parents Mr and Mrs. Charles Garner, tenant farmers of that section could not afford the hospitalization necessary to keep the tots alive. On Saturday, September 19, they were brought to Potters Emergency hospital here after the editor of The Beaufort News had promised he would through his newspaper sponsor a fund for their hospitalization. The hospitalization saved their lives and today each of the tots were reported to be getting along nicely and gaining weight.

The babies were named June, Jean and Joan. Each weighed less than four pounds at birth. Today Jean and Joan weighed four pounds and three ounces each and June three and 11 ounces. It is absolutely essential that they remain in the hospital some time yet but whether they

do or not depends on the people of Beaufort and Carteret county who have an opportunity to contribute towards their hospital expenses. So far a total of \$52.75 has been contributed to The Beaufort News triplet fund. This money has been given freely and generously by a few citizens of this town who want to help save the little babies' lives. More money is needed. So far only one church organization has contributed. That was five dollars, given this week by the Laura Duncan Missionary Society, an organization which is always ready and willing to help out in matters of a charitable nature.

It is understood that other church women of the town are planning to raise funds for the triplets' hospitalization. Rev. Lawrence Fenwick of St. Paul's church is planning to give (Continued on page eight)

Dividend Checks To Be Mailed After Oct. 10th

Liquidation of the Beaufort Banking and Trust Company and the Bank of Beaufort has been completed, Hugh Davis, Liquidating Agent, announced today. The Beaufort Banking & Trust Company, which closed on December 29, 1931, will pay a dividend of 15 per cent in addition to dividends already paid, bringing the total dividends on common claims to 65 per cent. The Bank of Beaufort, which closed on September 15, 1931, will pay a dividend of 13 per cent in addition to dividends already paid, bringing the total dividends on common claims to 38 per cent. Checks for the Final Dividends for these two banks are now being prepared but will not be mailed to depositors until after Court convenes here on October 19th as the Final Report of the Commissioner of Banks for each of these institutions must be presented in open Court and approved by the Judge presiding before checks for the Final Dividends can be released. As soon as these reports are approved, checks will be mailed. The office of the Liquidating Agent here will be discontinued within the next week. Mr. Davis, the Liquidating Agent, and Mrs. Willie S. Boyd, his assistant, are being transferred to New Bern, from which point the liquidation of the Bank of Morehead City will be continued.

Young Democrat Club Organized

John Larkin, state senator elect from this district made a 17-minute address to a group of about 100 persons gathered at the courthouse here on Monday night for the purpose of organizing a Carteret County Young Democrat Club. He was introduced by Charles L. Skarren Jr., a former college classmate of the young senator. It was Skarren who had previously mapped out plans for the organization of the club in the county. Fred R. Seeley, Carteret's Democrat nominee for the State Legislature, gave a five minute talk of party interest. Gherman Holland who served as temporary chairman of the gathering was elected president of the club. Other officers elected were: Lambert Morris, Atlantic, vice-president; Dick Whitehurst, Beaufort, secretary and Elwood Marshallberg, treasurer.

Deer Season Opens

The season on deer opened today and many nimrods in the county were out on drives. As we go to press this afternoon reports of three kills have come in. A 144 pounder dropped when Charley Paul and Will Dickinson both fired at the same time. Tom Gibbs shot a 120 pounder and Louis Dickinson a 40 pound youngster. Noe Hardware Company offers a prize for the largest deer killed this season in Carteret county.

Biology Students Will Study Here

Renowned Author To Lecture Here

Thomas Dixon

Thomas Dixon, internationally known author and lecturer will make an address in the courthouse here on Saturday night, October 17, at 7:30 o'clock, it was announced today by Claud R. Wheatly. His appearance here is sponsored by the Republican State Committee and his address is one of a series he is delivering in the interest of the Republican party. Most everyone has read Dixon's novels, The Clansmen, Leopard Spots and other stories which were built up around the activities of the Ku Klux Klan during the dark days following the War between the States. Dixon made a fortune off of those books and then lost it, or a goodly part of it in his real estate development Wild Acres, which flopped about the same time in Western Carolina as Morehead Bluffs did on the coast.

BEGIN WORK ON TWO GYMNASIUM

Newport And Atlantic Will Get Projects Costing Approximately \$17,000

The first shovels of dirt for gymnasiums for the Atlantic and Newport schools were moved yesterday when a small crew of men reported for work on these WPA projects involving an expenditure of approximately \$17,500.00 each.

The floor plans as drawn by Supl. J. G. Allen were embodied in blue prints and specifications prepared by Raymond Fuson, New Bern Architect. The gymnasiums will be identical except that the Atlantic project contemplates the installation of a water pressure system for the Atlantic gymnasium and school. A convenience that has been enjoyed at Newport since the construction of the present school building there.

The gymnasium will be of frame construction upon a fully adequate concrete and brick foundation, the overall dimensions of which are 76 feet wide by 113 feet long, (exclusive of porches) thus providing a playing court 38 feet by 76 feet with a 6 foot clearance on the sides and ends. (Continued on page eight)

Little Change Noted In County School Faculty

The faculty of the Carteret County schools for 1926-1937 shows little change from that of 1935-1936, according to information furnished us by Superintendent J. G. Allen. Seven of last year's teachers were lifted to other schools, either in the line of promotion or at the request of the teacher. Thirteen new faces appeared in this year's line-up, seven of which are residents of the county, and of which seven 3 had more recently been employed in some school in the county, leaving only four teachers entirely new to the system. Of the six new out-of-the-county (Continued on page four)

Similar Laboratory Is Located At Woods Hole, Mass.

SITE IS SELECTED ON PIVERS ISLAND

The establishment on the south side of Pivers Island here at Beaufort a marine laboratory, similar to that now maintained at Woods Hole, Mass., is part of a regional research program to be carried out by Duke University. This does not come as spot news to many persons here who knew that six months ago considerably property on Pivers Island was acquired by the University with the thought in view at the time of establishing a marine laboratory where teachers and students would have an opportunity to further their studies in biology.

With the establishment of the Duke laboratory in Beaufort which has attracted scientists from all over the world in addition to serving as an important place for the study of fish and marine life. Early this year the first unit of another marine laboratory was built at Beaufort Community Center by the Womens College of the University of North Carolina in Greensboro.

The Duke project will when completed involve the expenditure of thousands of dollars if present plans carry. According to a news release from the university: (Continued on page eight)

Covering The WATER FRONT

By AYCOCK BROWN

SEVENTH DISTRICT coast guardsmen cut a busy week-end. Station, cutter and patrol boat crews throughout the District were on regular autumn boarding duty. Fort Macon coastguardsmen under the command of Capt. Tom Barnett boarded 47 crafts on Saturday. So far no boatmen in this vicinity have been arrested. Only when they fail to comply with the navigation law which rules that complete equipment be carried are they subject to arrest. Down the Banks boatmen have not been so lucky according to word reaching here. Several failed to have the proper equipment according to reports, but it is likely that an exception will be made in their cases (Continued on page eight)

TIDE TABLE

Information as to the tide at Beaufort is given in this column. The figures are approximately correct and based on tables furnished by the U. S. Geodetic Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is whether near the inlet or at the heads of the estuaries.
