Norwegian Freighter Expected Friday

First Foreign Cargo Is Salt

Shipment Originated At Sfax, Tunisia North Africa

This Is Second Big Cargo To Be Consigned To Morehead Port; First Was 8,000 Cases of Hortons

By AYCOCK BROWN

The S. S. Samnanger, Norwegian freighter sailing from Bergen, in that Scandinavian country has been expected at the Morehead City Port Terminal since noon today. A wire received from "Baker Collector" of the port of Charleston at 5 o'clock stated she cleared that port at 4 o'clock yesterday. Pilots of the Terminal returned to port late this afternoon, confident that vessel which bucked head winds would arrive off Beaufort bar sometime tonight.

Capt. Ira Willis and Capt. Charlie Piner official pilots of the Morehead port had sailed early this morning to meet the 430-foot, salt laden vessel off at sea and to bring her into port.

The Norwegian freighter which has a gross tonnage of 7,300, brings a cargo of salt to Morehead City. The cargo was taken on at Sfax in Tunisia, northern Africa some time ago, but due to the nearness of that port to war-torn Spain, conditions were such that considerable delay was caused in the arrival of the shipment.

The Samnanger sailed from Charleston Wednesday afternoon at 2 o'clock. She has a speed of 10 knots with favorable weather conditions, but bucking a head wind during the night a little time was lost in the approximate 225 mile course around the lightship which marks Fishing Pan shoals off Cape Fear.

Charles R. Allen of Charleston, to whom the salt, first foreign cargo to

AMATEURS WILL ACT ON FRIDAY

Amateurs from all parts of the county are expected to take part in the Amateur Night program at Beaufort Graded School tomorrow night. A similar Amateur Hour presented last year proved very successful. Prizes of \$5, \$3 and \$2 will be presented. No professionals will be allowed to compete for the prizes. Everyone who can sing, dance, or do other amateurish things are invited to take part in the program.

TIDE TABLE

Information as to the tide at Beaufort is given in this column. The figures are approximately correct and based on tables furnished by the U. S. Geodetic Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is whether near the inlet or at the heads of the estuaries.

SPEED WORK ON WPA COMMUNITY CENTER PROJECT

Will Finish Placing Shingles On Roof Today

FLOOR IS ALMOST LAID

The Beaufort Community building is nearly finished. Workmen were expected to complete shingling the roof today and before this work period has passed the floor will be laid, it was stated this morning by Dr. C. W. Lewis, who has been one of the boosters for the WPA recreational project.

Installation of electrical wiring has begun in the building and this may be completed before another week has passed, it was stated. It was thought that the building might be ready for use by Thanksgiving Day, at which time a dance or boxing match might be installed as a sort of formal opening, but no one would say definitely today whether such would be the case.

Most of the work on the interior has been completed. Various rooms and the vast auditorium will be available for use at an early date. After the wiring plumbing fixtures will be installed, and later arrangements will be made to heat the building. The public of Carteret county is invited to visit the Community Center and see the rapid progress that is being made on the building, it was stated by an official.

W. H. Bailey's Branch Store To Open Friday

William H. Bailey, Beaufort Jeweler, announces that his new branch store in Morehead City will be formally opened on Friday afternoon (Nov. 20) from 3 o'clock until nine. All patrons of the store are invited to attend the opening. Persons attending the opening will have privilege of registering for three prizes which will be given away tomorrow night. Mr. Bailey wants the public to know that he is not closing his Beaufort store, and that the new establishment is only a branch of his local firm, to serve the people of Morehead City and west Carteret county in jewelry and repair needs. The branch store will be located in The Wade Theater building.

New Shad Regulation Enacted At Meeting

"It shall be unlawful to take, catch buy sell or have in possession shad taken from the waters of North Carolina prior to February 15 of each year; or for any express company, railroad company, boat truck or other common carrier to accept them for shipment prior to said date," according to a new rule enacted by the Department of Conservation and Development at Mt. Mitchell on October 22, 1936.

SUDDEN DEATH FOR THREE WHEN TIRE BLOWS OUT

Speed On Bad Tires Is A Combination Which Invites Death

A few minutes before the above News and Observer picture was snapped, last Sunday, the battered car shown half buried in mud and water was bound for Morehead City with a party of pleasure seekers aboard. The left rear tire blew out. The powerful Packard careened out of control, and a few hundred feet along hurtled crazily over a culvert into a lagoon near Edgewater Club. In the center of the photo may be seen the mangled body of Dr. Marion Davis, of Greenville, wealthy young owner of the car. In the upper left Vernon Guthrie of Morehead City and another person who were passing at the time of the wreck are shown working over the body of another victim. Charles R. Forbes of Greenville, was the second victim, he died a few minutes after he was taken to the hospital in Morehead City. A short time later, Nathan Woodard, Negro orderly of a Greenville hospital where Davis was head surgeon, who was acting as chauffeur for the party died in Morehead City hospital. Two young ladies, by some miracle, escaped with their lives. They were Miss Alma Lee, member of the Greenville Public School faculty and Miss Lucile Norton, physical education director of East Carolina Teachers College. Both were suffering from shock, but neither was injured. The wreck occurred about 3 o'clock, on Route 70, between Mansfield's Service Station and the old Carolina Villa Hotel. Photo reprinted courtesy News & Observer)

During The Days Of Queen Ann Land In Carteret Was Cheap

A 225 acre tract of land near Beaufort was sold to General William Reed for 45 shillings, by "His Excellency, the most noble Henry, Duke of Beaufort and the rest of the true and absolute Lords Proprietors of Carolina," back in 1718, and it was the first transfer of property recorded in the books now at the register of deeds office. Starting at that date and coming through the years to 1936, the entire file of books and records in the register of deeds office will be indexed. Work on the indexing began this week—a WPA project.

Eight women were given employment on Monday to start the work. The completion of the job may take a year or longer, as there are many records to be indexed, which means work for a small group of women for quite a long time.

The land grant to William Reed back in 1713 was the first entered on the books. Forty five shillings of English money today would be only a few dollars. The tract in question was just north of Beaufort. Signing the instrument of transfer William Reed, Thomas Pollock, Christopher Gale and T. Boyd. Many other interesting records are in file at the register of deeds office and will be indexed by workers on this WPA project.

INDUSTRIAL HEARING HELD HERE TUESDAY

Van Buren Journey of the N. C. Industrial Commission conducted a hearing in the courthouse Tuesday in the matter of Harvey Lawrence of Bettie, who was injured by falling timbers on the Morehead City port terminal project last March. Dr. Chadwick, Dr. Royall, Mrs. Lawrence was stenotyped and from which a report will be made. Mr. Journey will then take a decision as to whether Lawrence is able to return to work.

MARRIAGE LICENSES

Robert H. Baillio, Oceana, Va., and Helen C. Butler, Morehead City.
Dallas Guthrie and Ollie Willis, Harkers Island.
Chas. E. Masters and Irene Bell, Newport.
Ralph H. Bell and Elaine D. Willis, Morehead City.
Joseph A. DuBois Morehead City and Hilda K. Williams, Newport.

H. A. Wood, supervisor of vocational rehabilitation of Raleigh interviewed several clients in the Welfare office here today.

Covering The WATER FRONT

By AYCOCK BROWN

ALSO SAILING from Charleston, S. C., on Friday, was the U.S.S. Indianapolis. She was transporting the President of our United States to a Peace Parley in Buenos Aires. Attracting less attention was a Norwegian freighter with a cargo of salt which cleared at 2 o'clock (according to a telegram received by Port Manager Beaman) for Morehead City. But the freighter flying Norwegian colors will attract plenty of attention when she arrives at the new port terminal in Morehead City today. That is because it is the first foreign cargo to be received at the terminal.

THE FIRST CARGO of any consequences arriving at the new port was Horton's beer and ale consigned to the Southeastern Distributing Company. Eight thousand cases of beer and ale was received less than a month ago and already over 200 dealers in Eastern North Carolina have been supplied with the product. People when they think of beer or ale are thinking of, calling for and drinking Hortons, spelled H-O-R-T-O-N as the voice of the screen says it every night at so much per say. The Southeastern Distributing Company was one of the first sponsors for the Voice from the Screen program which is presented each night at The Beaufort Theater.

THE SHIPMENT OF salt expected today originated at a port in Tunisia, a French protectorate in north Africa, on the Bay of Gabes, quite some time ago. Sfax, the port, has a population of 36,000 persons. The province of Tunisia is bounded on the north by the Mediterranean Sea, on the east by Libya, an Italian protectorate and Algiers, another French province. Much delay was caused with the shipment due to the Spanish Revolution, which tied up shipping of some nations in the Mediterranean.

SPECIAL EQUIPMENT for handling the salt which is arriving in bulk, has been installed in the terminal transit sheds at Morehead City, says Mr. Beaman. The shipment is consigned to Charles R. Allen of Charleston who notified dealers in this section some time ago that he would be ready to supply their salt needs through the Morehead port at an early date. The Allen interests will give jobs to several men in re-handling the cargo. It will have to be graded and sacked for distribution to various firms buying same.

DESPITE SOME poisonous rumors (Continued on page eight)

Red Cross Drive Will Continue For Another Week; Workers Report

Seventy-seven persons in Beaufort have joined the Red Cross since the annual membership drive began on Armistice Day, Mrs. M. S. Bloodgood, Membership chairman, stated as we go to press today. The drive for memberships will continue thru Thanksgiving or one week from today.

Workers securing new memberships have done mighty well, in the drive this year. Only half of the workers so far have given in reports and none of the communities in East Carteret have been heard from. While no set quota has been named it is believed that the total will be swelled considerably when communities and all workers have reported. While only one more week to go, local Red Cross officials urge everyone to JOIN NOW.

Vandals Broke In School Bldg. Here

Somebody who had a mania for tearing up things broke into the Beaufort Graded School Building Sunday night and did a bit of damage in the library. Nothing was stolen, a check up showed, but neither could any reason be given for such an act on the part of somebody. Some people seemed to think the house breaker was an intellectual sort, as he aimed his destruction at the library. Officials have several suspects in mind and an arrest may be made in the case at an early date.

Seasonal Foods At Curb Market Nov. 25

Foods of the Thanksgiving season will be offered for sale by members of the Carteret Home Demonstration clubs in Morehead City on Wednesday Nov. 25, it was announced by Miss Clark this week. Many of the demonstration women have turkeys for sale and any person wishing to place orders for one may place same with Miss Clark and it will be brought to the curb market for delivery next Wednesday. Autumn flowers, cakes, farm produce and other good things will also be on sale at the Thanksgiving Eve curb market.

School Lunchroom Is Newest WPA Project

Undernourished children at the Beaufort graded school will be given free lunches as the result of a WPA project started Monday. Three WPA workers and two NYA girls were given employment in the lunchroom.

Wilmington Rector Coming To Beaufort

The Rev. E. C. McConnell, for the past two years rector of the Church of the Good Shepherd in Wilmington has resigned and will come to Beaufort to assume the rectorship of St. Paul's Episcopal church here on December 1. He will hold his first services on Sunday, December 6, a vestryman said today. Rev. Mr. McConnell succeeds former rector Rev. Lawrence Fenwick who resigned to accept a post in Georgia.

Makes Name For Self

Roy Eubanks

Roy Eubanks is making a name for himself as a photographer. He is considered one of the best in Eastern North Carolina at the present time and he continues to rise. At the present time he is District Photographer for the WPA and his work carries him to all sections. Photos he made of Fort Raleigh on Roanoke Island recently were used on a full-page spread in the retransmission section of the New York Times. And he is the "Eubanks" of "Eubanks-News Photos" which are frequently printed in this newspaper.

Negro Knifer Gets Four Months In Jail

Charlie Debix was sentenced to four months in jail for knifing Mark Washington when his case was called on Tuesday in Records court on charges of assault with deadly weapon. Mark Washington, his victim was charged with assaulting Victoria Powers, Negress, but he was found not guilty.

Loren Hill of Marshallberg will be tried next week on seduction charges. He is out under bond of \$100. Lonnie Mann of Newport was found not guilty of violating prohibition law, when it was not proven that he owned certain liquor found near his home on Election day.

Lillie Mae Greenfield, prosecuting witness in assault with deadly weapon case against Lacy Martin did not appear to prosecute, so the matter was not pressed with leave.

Mrs. Jack Harrel was found guilty of reckless driving and must pay court costs and one third of damage occurring in wreck near Henderson's Garage about three weeks ago when the car owned by Charles Hatsell was damaged.

Clyde A. Erwin To Make Address Here

Dr. Clyde A. Erwin, recently elected to the office of state superintendent of public instruction, will be the principal speaker at a meeting of Carteret School Masters either in Beaufort or Morehead City on Friday evening, December 4, it was announced today by J. G. Allen, county school superintendent. About 18 persons in Carteret belong to the School Master's Club but on the occasion December 5, school marmas, committeemen and other public officials will be present.
