Harkers Island Electrification Project Is Now Practical Assured

Crowell Appointed Terminal Manager

And A & N. C. Now Evident

BEAMAN RELIEVED OF DUTY DUE TO ILLNESS

H. P. Crowell, the railroad man from Maine, who came to North Carolina to direct the operations of the State-contrilled A and N. C., railroad and later chosen its president, was placed in full charge of the Morehead City terminal last Saturday.

Simultaneously, two other officials of the A. and N. C. were given positions with the Port Terminal, thus making evident a direct administrative tie-up between the port and the A. and N. C. The railroad, leased for many years by the Norfolk Southern, was taken back by the State to serve the port.

The appointment was made effective immediately. A bulletin issued Saturday and signed by Ben F. Royal, chairman of the Morehead City Port Commission, declared that Crowell was to have "full charge of operations."

Maurice R. Beaman, general manager of the terminal, was granted an indefinite leave of absence on account of illness, the bulletin said.

E. W. Dozier, traffic manager and W. M. Dutton, auditor in charge of accounts for the A. and N. C., will serve in similar capacities with the Morehead Terminal. They will retain their connection with the rail road and their new duties are classed as additional.

Under Crowell during the last five months of the first year, the railroad operated in black figures Port Commission officials were high in their praise for the work Beaman accomplished in the establishment of the Port Terminal at Morehead City.

Recover Stolen Safe

A safe containing several hundred dollars which was stolen from the D. Pender store here last Saturday night was found on Sunday by a group of boys down near the shore of Taylors Creek. Drifting in the creek nearby was a boat which had been stolen from Capt. Jack Willis, and which is believed to have been used by the robbers in transporting the safe away from the store. It had been opened with chisels and the contents removed. So far no one has been arrested in connection with the

TIDE TABLE

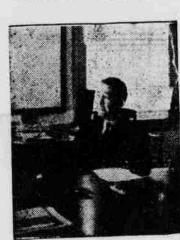

Information as to the tide at Beaufort is given in this column. The figures are approx imately correct and based on tables furnished by the U. S. Geodetic Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is whether near the inlet or at the heads of the estuaries.

Tie-Up Between Port Hearing On Finding Of Skeleton Is Set

Dr. R. C. Smith, Carteret county coroner, stated today that he would conduct a hearing on Monday or Tuesday of next week in efforts to determine whether the skeleton found on Peanut Shoal last Thursday by Capt. Snow of the Menhaden boat Bishop is the remains of Joe Willis, who has been missing from his home in Morehead City since last July 2. It was tentatively identified as Joe Willis, but rumors started which indicated that the missing man might have been seen in various Eastern Carolina towns since July 2, added more mystery to the story. A number of witnesses will testify at the hearing Coroner Smith stated. In hte meantime, Solicitor Dave Clark of Greenville has ordered that the fragments of the skeleton remain unburied until a a Coroner's verdict is reached.

Relieved of Duties

Maurice R. Beaman

Because he is a very sick man and unable to carry on the duties of managing the Port Terminal, Maurice R. Beaman, who played the most important role in the establishment of the project which resulted in the expenditure of \$2,000,000, was given a leave of absence last Saturday by the Morehead City Port Commission. It was Beaman who played the leading role in the establishment of a proposed airport to be located near Fort Macon, which has been approved by State WPA officials, and sent to Washington for Federal approval. He is a native of Sampson county, but now owns a home overlooking Bogue sound west of Morehead City. (Eubanks-News Photo)

Big Dance Is Planned For Commnuity Center

:: Our Christmas Card To You ::

A Scene You Seldom See In Beaufort

There is no spot news attached to the above photograph. many of your Christmas cards, show snow scenes, the editor of this newspaper thought that a picture of Beau fort's big snow last winter would be a suitable subject for the front page page of our Christmas edition. The fact that a 12-inch snow, the first of any conquence for Beaufort since 1917, almost hid from view our native semi-tropical foilage made the snow of last winter national news. The photo is being run as a sort of Christmas card to all our readers, whom we of the Beaufort News wish a Merry Merry Christmas--(Eubanks News Photo.)

Barden Will Seek Funds To Help State's Seafood Industry

WOULD BE EMPLOYED BY BEAUFORT STATION

During the next Congress, Representative Graham A. Barden will request an additional appropriation to be used for protection and preservation of the present supply of sea food and commercial fish, if possible to increase the supply in the future in order to meet the ever growing

At present he is studying facts of the fishing industry in this section, particularly Carteret county, to be able to justify an increase in appropriations for carrying on biological surveys and experiments.

It is but natural that the third district representative should be interested it the fishing industry, because it is prominent in five of the nine counties in the district. Carteret-one of them-leads the entire Atlantic coast from New Jersey to Texas in sea foods, not including the important menhaden fish, used

Nannie P. Geffroy was the foun-

At the age of eight she promised ilities in the county. Her life's

turned down a child that truly want ed an education, taking many whom she clothed and fed, and started on

Nannie P. Geffroy's St. Paul School was spoken of as the model educational institution with the proper curriculum by the late Governor Charles Brantley Aycock, who fathered the present educational system of North Carolina. She was the grand niece of the

late Louis Pasteur, eminent French scientist, on her mother's side of the family. Nannie P. Geffroy disliked moving picture shows and radios. The only moving picture she ever saw was "The Life of Louis Pasteur" presented at The Beaufort theater a few months ago.

Her St. Paul's school was endowed by friends throughout the coun try. Her death brought assignments from the Associated Press for newspapers in larger cities of the United States and a special story was assigned by The New York Times to

their local correspondent. Nannie P. Geffroy made St. Paul's school, what it is today. Whether her death means the death of the school, could not be determined as we go to press today.

Representative Prospects Are Excellent

Stores To Remain Open Barden Leads Fight To In Beaufort Saturday

Grocery stores and several of the other stores in Beaufort which signed a petition to re main closed Saturday, following Christmas, will open on that day it was reported here this week. Practically 100 percent of the store managers agreed to remain closed on Saturday but the out of town superintendents of one or two chain stores ordered that they must be open on that day. That resulted in the independent stores following suit. It is understood though that the bank will remain closed on Saturday giving their employees two Christmas holidays.

Appointed Director

H. P. Crowell

H. P. Crowell, president and gen man, general manager of the port was employed last year to manage the A and N. C., has done a good job with that carrier. Although the first year's operation was in the red to the tune of \$50,000, the last five months of that year showed black He is nationally known in railroad circles .- (News and Observer Pho-

C. G. Patrol Boat Cahoone Arrives

The Coast Guard Patrol Boat arived at Morehead City late Tuesday afternoon and will be stationed in Morehead Cityy. She is replacing the Travis, another patrol boat of similiar size which was stationed at Advance Base A in Morehead Cit; for several years. It was the Travis which made front page frequently during the big freeze on the Chesapeake Bay last winter. Both the Cahoone and the Travis are practieally the same size. Both are 125 feet long and were built in Camden, N. J. in 1927.

Son Of Local Resident Given Important Post

G. P. Dickinson, son of Mr. and Mrs. R. N. Dickinson here has been elected to the vice-presidency of the Durham Life Underwriters Association. The honor for this native of Beaufort was conferred a few days ago at the annual election of officers for the organization. Along with another official Mr. Dickinson was named a delegate for the Du-ham Underwriters to the annual moting of the State organization in Greensboro this week. Mr. Dickinson is also district manager of the Occidental Life Insurance Company of Washington,

Have Line Extended To Community

T. P. CO., TO GET A \$10,000 LOAN

A loan enabling the Tidewater Power Company to build a \$10,000 power line extension to Harkers Island, has been approved by the Federal Rural Electrification Administration, according to announce-ment in Raleigh this week. Representative Graham A. Barden telephoned The Beau-fort News that with the loan practically assured, prospects are excellent for the project to be underway at an early

It was Graham A. Barden, Third District Congressman who has been a consistant leader in the fight to put this project across. He has been assisted by his close friend Earl Davis, a leading citizen of the island community. The proposed line will extend across the water a mile and a half from Marshallberg and four miles down the main road of the island and will seems 100 customers, said J. M. Greinger, State REA engineer in Raleigh this week.
