Only four persons in North Carolina can play checkers better than NOW THAT AUTUMN is here it Macon in Morehead City according is likely that more people will be going to Gulf Stream Golf Links. The above photo reprinted through courtesty of the Richmond Times Dispatch, Mr. Harris is shown in a tourney he attended there recently. Due to the fact that he had to make a hurried return to Morehead City on business he was not able to com plete in that tourney and his score was thrown out. Mr. Harris is undoubtedly the checker champ of Carteret county, and would like to be challenged by anyone who really knows the game. He would also like to contact any Carteret players who would like to get up a local tourney. (Times-Dispatch photo).

He is a leader in every progressive movement started in Carteret county and has done more for his immediate community during the past half century than any other person. Capt. Jim has been a leader in all major political fights, and he usually wins, especially if the vote from Atlantic has anything to do with it-and it usually does. He has fought for better schools, better roads, and better conditions generally for Atlantic and Carteret, throughout his career. One of his latest achievements was getting harbor improvements for Atlantic. Today he is hopeful for Drum Inlet improvements will surely be realized, because he is leading the fight for same.

## Political Round-Up

AYCOCK BROWN

Supporters of Charles L Aberne- truck . . . Neither is there anything thy, Jr., who was seeking the Congres sional nomination last year said a It so happens that dealers who sell few days before election that if Beau Ford and Dodge rtucks operate busfort would support him-he in turn inesses here in Beaufort . . . The wolud get a new post-office building for the town . . . At the same time a few close friends of Representative Graham A. Barden knew that he had already secured an appropriation for a Federal building here . . . Congress man Barden had said two months before that he would try and get the appropriation on condition that his promise was not used in the campaign . . . A Virginian here fishing this week was told about the appropriation, and he said, "Beaufort a town of less than 3,500 population is lucky to get a building to cost \$118-000 . . . Uuually it is a \$50,000 build ing a town of this size gets" . . . A few weeks ago there were skeptics hereabouts who were predicting that some sort of jam up might occur so that Beaufort would not get her Federal building . . . Such is not the case however because bids for constructing same were advertised on August 30th . . . Will be opened October 7th . . . That news come from Barden the man who secured the appropriation . . . And it is definite . . . There will be some more definite good news coming from Congressman Barden's office for Morehead City, Atlantic, Beaufort and Harkers Island at a near date . . . Mark those words . . . With the new Board of Commissioners it is still strictly business . . . I say that assuming the Town board had a bit to say about

is nothing wrong with a Chevrolet

wrong with a Ford or Dodge truck .

Chevrolet trucks owns and operates and pays taxes in Morehead City . . I wonder if the dif ference in the price of the Chevrolet amounted to as much taxes as the Ford or Dodge

dealer here pays into the Town's coffers each year . . . I wonder what would happen if they decided to buy Col Sam Pigott a new mule . . Probably go to Missouri after it. . . Still there is another angle which the gabbers about town probably don't know. . . The salesman who sold the Chevrolet is a citizen of Beaufort and incidentally pays taxes into the town coffers . . . That should settle any argument . . . If it reaches the argument stage . . . As Monday is Labor Day the County Board of Commissioners won't labor in their official capacity . . . Sheriff Chadwick was urged and advised to see to it that the warrant against Lloyd Blake charged with rape, was properly prepared and served before he shoved off to the pony penning today. . And no official examinations were made of the alleged victim after it all was supposed to have happened

. . . So the case which as it stands where the new sanitary department | now is a capital crime, may be hard truck should be purchased . . . There to prove when it recahes the courts.

### Fishing And ALL OUTDOORS By AYCOCK BROWN

FISHING HAS not been good in surrounding waters during the past several days. And it can all be blamed on the weather. When anyers at an early date. Congressman one makes a good catch of fish when the wind is blowing from ward it is news. Izzak Walton quite some time ago said that anglers should not fish on an easterly wind.

It was good advice then\_and now.
WE MADE AN attempt to reach the Gulf Stream on Monday moning the trird such attempt this columnist has made so fa this summer. But Atlantic Beach Casino and also for the ground swell was too much for us and we had to turn back after sailing seaward south of Cape Lookout breakwater for a short distance. # IN WASHINGTON 15 TAKING PLACE

SINCE THE adjournment of Congress, members are giving more real attention to studies of the farm problem than perhaps any other phase of pending legislation. The word pending can be used because the farm problem will be the first order of business at the next session, or at a special session should one be called by the President.

SUCH STUDIES disclose some cheerful factors with reference to the general improvement of agriculture since 1932. Farm cash income has moved upward eighty-five per cent-farm prices are up seventydaughter Mary who is said to be 14 five per cent-forced farm sales have increased seventy-five per cent, and a physician, then and there, but no farm real estate values have gained

sixteen per cent. (Continued on page eight)
