Two More Big Days Of Carteret Fair

PLANS COMPLETED FOR AUTUMN GOLF CLUB TOURNAMENT

First Flight Will Begin
On Sunday At
1:30 P. M.

Gulf Stream Golf Club's first tournament will begin Sunday afternoon at 1:30 o'clock instead of Friday October 15, the original date set. Plans for the various flights, were made at a meeting of the Tournament Committee with Chairman Charles Hassell at the clubhouse on Wednesday night. Three flights have already qualified and more are expected to qualify before the event has been completed.

To the winner of the tournament will go one golf bag, first prize of the event. Consolation prize will be a dozen golf balls. It is likely that these prizes will be contributed by local merchants, whose names will appear in a follow-up story in next week's edition of The News. This information could not be gotten up to the time that we went to press today.

Of the three flights planned, the majority of players have a qualifying score of less than 100 for 18 holes. The flights which have been definitely arranged and the scores of (Continued on page eight)

Good Free Acts

Everyone who has seen the free acts offered on the O. C. Buck Expositions midway at the Carteret Fair this week have said they were good. Many people have returned each day to see the Flying Sullivans and Jeanne Clarke and Company offer their exhibitions of skill and agility on trapeze high above the fair grounds. The acts are well worth a visit to Beaufort to see. They are presented each afternoon and each night. Following the free acts at night a gorgeous display of fireworks are presented by expert Pyrotechnician C. Smith, who used to have charge of similar displays on Atlantic Beach when Jack V. Lyles was manager of the resort.

Fair President

C. L. Beam

Pictured above is C. L. Beam, president of the Carteret Fair Association, which is presenting its annual American Legion sponsored fair in Beaufort this week. He is assisted in the operation of the fair by such hard working legionnaires as Tom Kelly, R. Hugh Hill, Joe DuBois, C. Z. Chappell and several other local members of Carteret Post 99 of the American Legion.

TOM KELLY WILL RESIGN FROM WPA

He Will Take Job With
Lumber and Builders
Supply Corp.

After being connected with the Works Progress Administration in Carteret county for the past two years, during which time approximately \$700,000 has been spent on various projects, Tom E. Kelly, will resign at an early date to become associated with the Lumber and Builders Supply Corporation in Beaufort. For about one year of his service with the WPA Mr. Kelly was county supervisor, later taking over the administration of the central office here in Beaufort when Philip Ball was appointed county field supervisor.

During his association with the WPA Mr. Kelly has made a splendid record. His office has been one of the most efficiently managed offices in Eastern Carolina, according to high officials of the WPA who have (Continued on page four)

Yacht "Cudacatcher" To Sail On Saturday

If weather conditions are favorable the cruiser "Cudacatcher" of New York, owned by Mrs. Rowe Metcalf will sail for Daytona Beach, Fla., on Saturday. The yacht arrived in Beaufort last week with her owners aboard who spent two or three days fishing and then returned to their home. The Cudacatcher is one of the finest deep sea sports fishing cruisers to ever enter this port. She is powered with powerful engines and can make cruises far off shore in perfect safety. She is painted Gulf Stream blue and is lying at anchor in Beaufort harbor at present. Capt. Charles Bacon is her master. He is assisted by a crew of one.

Excellent Exhibits And Midway Attractions Are Offered Fair Visitors

Thousands are attending Carteret's greatest fair here this week. Three big nights and two big days are yet to go before the event closes. From present indications Carteret Post 99 of the American Legion will see the most successful fair they have ever staged before it ends. Two great free acts, the Flying Sullivans and Jeanne Clarke and Company are presented each afternoon and each night. Free fireworks are presented each night and cash prizes of \$20 have been presented each night with the compliments of the Fair Association and the O. C. Buck Expositions. On Saturday night a grand prize of \$50 in cash will be awarded the holder of the lucky ticket.

Superb Entertainment

Superb Entertainment is offered patrons of the Carteret Fair this year by the O. C. Buck Expositions. The midway attractions cover the entire athletic field of Beaufort High School, which was enlarged this year by the American Legion to offset the crowded conditions experienced last season.

Jack V. Lyles traveling representative for O. C. Buck spoke the truth when he gave out advance stories that this organization was one of the cleanest carnivals on tour. There is nothing cheap and tawdry about the O. C. Buck Shows, and there are no concessions operating which have been criticized unfavorably by the visitors.

Ten shows and ten rides are featured on the midway. Several of the riding devices offered this year are different from any ever presented in Beaufort before. That makes it interesting for thrill seekers. One of the most popular rides is the Octopus one of the featured riding devices offered by Oscar Buck, owner and manager of the Expositions. There are other rides, chair planes for adults add similar planes for small children, two ferris wheels near the main entrance have attracted those who like this thrilling ride, the merry-go-round with horses and other elaborately carved animals have attracted many children, the small auto merry-go-round is also one of the big attractions for tiny children, and this concession has been doing excellent business. There is no caterpillar, but a Ride-O takes its place for those seeking a thrill and nearby is the Whip, always a deadringer for those (Continued on page five)

Carteret On Display

Carteret is on display at the fair this year and every citizen in the county from Portsmouth to Pelletier should make it a point to see the many fine exhibits before the American Legion sponsored event closes on Saturday night. Horticulture, agriculture, home work, club work, seafood, poultry, displays from every part of the county greets the visitor who enters the High School gymnasium which during this week has been transformed into an elaborate Exhibit Hall.

Mrs. S. E. Hayne is in charge of the exhibits. She is an expert in this special kind of work and the various arrangements of displays have won acclaim from everyone. Your visit to the fairgrounds will not be complete unless you pay a visit to Exhibit Hall.

In addition to the various exhibits of home demonstration clubs and individuals from various parts of the county the larger schools have prepared excellent displays. Beaufort, Morehead City and Newport schools have exhibits which show the progress of present day education from the kindergarten through high school. At each of the booths in Exhibit Hall are hosts or hostesses who are ready to explain and talk about the articles on display.

Commercial exhibits also are displayed in Exhibit Hall. Carteret Hardware, Miller Furniture Company, Ben's Bicycle Shop, Dowdy Furniture Company, Paul's Garage, Sound Chevrolet Company and many other leading commercial firms of Beaufort and Morehead City have attractive booths—which are attracting considerable attention.

SIXTEEN CERO

Sixteen Cero, the largest weighing 25 pounds was landed off Beaufort Inlet Wednesday by a party from Forest City in Western Carolina. They were fishing with Capt. John Dickinson aboard his cruiser Idle-On.

CASH WINNERS

Twenty dollars in cash have been presented each night on the midway of the Carteret Fair this week, with the compliments of the Fair Association and the O. C. Buck Expositions. The winners have been: Monday night, John Chaplain, of Beaufort; Tuesday night, Cecil Bell (Continued on page five)

BEAUFORT COMMUNITY CENTER

Activities Should Start In This Building

Pictured above is the auditorium building of Beaufort Community Center down on Lenoxville Road. The building has been completed for some time but very few activities of any kind have been staged there. Two or three dances and one excellent "Grey Moss Inn" night club, the latter presented by the women leaders of Beaufort have been presented in the building. Efforts should be made to present frequent events in this splendid building. The west wing club room until this week housed the county offices of the WPA. The office has been moved to its former location in the Courthouse Annex. (Eubanks-News photo.)

Bike Winners

Lee Jones of Ann Street, Beaufort, and Helen Willis of Fisher Street, Morehead City were the lucky winners of the bicycles given with the compliments of the Carteret Fair Association and the O. C. Buck Expositions. School children of the county were admitted thru the gates at no cost on Tuesday. Each were given a numbered ticket. During the late afternoon immediately after the free acts featuring the Flying Sullivans and Jeanne Clark and Company, 'saucy seeresses of the air' numbers were drawn from a box. Lee and Helen were the holders of the lucky duplicate numbers.

Opens Studio Here

Roy Eubanks

Roy Eubanks, pictured above, has opened a photographic studio in Beaufort on Turner street. It is the only photographic studio in Carteret county. He is an excellent photographer. Until recently he was official photographer of this WPA district and his shots have been widely used. Many of his photos have been reproduced in the New York Times and other newspapers throughout the country.

DOUBLE FUNERAL HELD AT SMYRNA

John Willis And Albert
Lewis Were Baptist
Deacons

Double funeral services were held at the Smyrna Baptist church Sunday afternoon 2:30 o'clock for John E. Willis, 73 and Albert F. Lewis, 57, with the Rev. Mr. Sprinkle of Marshallberg and Rev. A. P. Stephens of Morehead City officiating. They both succumbed on Saturday about four hours apart as a result of cancers. Mr. Willis died at Potter Emergency Hospital in Beaufort and Mr. Lewis died at his home in Smyrna. Until their fatal illness, they had, for a number of years lived in the same house at Smyrna.

Mr. Willis is survived by only one sister. She is Mrs. L. H. Dudley of Beaufort. He was unmarried.

Mr. Lewis is survived by his widow, Mrs. Nannie Lewis and four children. (Continued on page five)

Blessed Event

Quadruplets were born to a mother in the "Man Killer From India" tent on the O. C. Buck Exposition Midway at the Carteret County Fair night before last. The babies and mother are getting along as well as could be expected under the circumstances and that is excellent. The biggest trouble the custodian of the tent is having to keep the babies in their bed of excelsior. They are very active and wiggle from their bed if a careful watch is not kept over them. The babies are almost black, very unlike their brown water moccasin mother. Care must also be taken to keep the other snakes in the tent from eating the new born babies.

POSTOFFICE BIDS WILL BE OPENED TUESDAY, OCT. 19

Bacon-Davis Act Was
Cause Of 12-Day
Postponement

Bids for the construction of Beaufort's new combination Federal and postoffice building will be opened in Washington, D. C., next Tuesday, October 19 at 1 o'clock P. M. The opening date was originally set for Thursday, October 7, but was postponed "due to contemplated changes in wage rate specified." An appropriation of \$119,000 was secured by Congressman Graham A. Barden for the construction of the building here.

Many citizens viewed with alarm the postponement of the date for opening bids on October 7. The Chamber of Commerce through its secretary Aycock Brown, immediately contacted Congressman Barden who set to work to determine the cause of the delay. He notified the Chamber of Commerce within a few hours that he had been advised from Washington that the postponement (Continued on page five)

Covering The WATER FRONT

By AYCOCK BROWN

I AM GRATEFUL to Irwin Fulcher for having his 16-foot skiff on the canal bank where it was last Saturday afternoon down at Stacy, otherwise I would have gone to a watery grave when the car crashed as a result of poor maneuvering on my part. I am also grateful that Graham Duncan is an insurance agent who can sell you every kind of policy, from one that will pay you your regular salary when you are ill, pay your hospital expenses, your fire insurance, your life insurance, your hubblecane insurance or your AUTOMOBILE LIABILITY INSURANCE. It is a very unwise person who will start buying an automobile without having the policy that will cover the other man's property when there is a wreck.

THE BEST OF us as well as the worst of us will eventually have some sort of incident occur in our lives before we finally enter the golden or red-hot gates of another world where insurance is a mighty valuable friend. Insurance is costly but it is surely worth its weight in gold, silver or (Continued on page eight)

TIDE TABLE

Information as to the tide at Beaufort is given in this column. The figures are approximately correct and based on tables furnished by the U. S. Geodetic Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is whether near the inlet or at the heads of the estuaries.

First Auto-Boat Wreck On Record

Everyone who has heard about the wreck say it is the first time they have ever heard of such a thing. So it must be the first crash of its kind on record. Last Saturday afternoon, Aycock Brown, editor of this newspaper while driving from Stacy to Beaufort, lost control of the car and it went over an embankment into a canal, striking a 16-foot skiff owned by Edwin Fulcher of Stacy. The skiff was demolished. The car was damaged considerably. Aycock Brown, who was alone in the car, was bruised up a bit, his principal injuries being: sprained, ligaments near the base of his neck. People hereabouts have heard of automobiles going out of control and colliding with other cars, or leaving the road and crashing into houses, fences, telephone poles, cows horses and hogs, but no one had ever heard of one crashing into a boat, until last Saturday.
