Bosses Won't Hire People with Halitosis (BAD BREATH)

People who get and hold jobs keep their breath agreeable

With the best to choose from these days, employers favor the person who is most attractive. In business life as in the social world, halitosis (unpleasant breath) is considered the worst of faults.

Unfortunately everybody suffers from this offensive condition at some time or other—many more regularly than they think. Fermentation of food particles skipped by the tooth brush is the cause of most cases. Decaying teeth and poor digestion also cause odors.

The quick, pleasant way to improve your breath is to use Listerine, the quick deodorant, every morning and every night.

Listerine halts fermentation, a major cause of odors, and overcomes the odors themselves. Your breath becomes sweet and agreeable. It will not offend others.

If you value your job and your friends, use Listerine, the safe antiseptic, regularly. Lambert Pharmaceutical Company, St. Louis, Mo.

BUYING A CASKET

The duty of buying a casket is one which most people must face at one time or another, yet it is usually approached with a feeling of bewilderment. Such an attitude is unnecessary. Value in a casket is made up of the same elements as value in any other merchandise. In our display rooms, patrons find a wide selection from which to choose, and a readiness on our part to explain the merits of each article.
