### BOARD NAMES POLL HOLDERS FOR COUNTY

#### Registrars To Begin Duties Saturday, May 7th.

Registrars and poll holders are recommended by the various precinct chairmen of Carteret county to the County Chairman for the Primary Election in June and the General Election in November were made public this week by D. W. Morton, of the Board of Elections. The list as recommended includes two Democrats and one Republican in each precinct.

Republicans of the County will have their convention on Saturday, April 23, for the purpose of nominating their ticket for the various offices. Should the ticket they nominate, not be contested, the Republican poll holder named this week will not serve in the Primary election, but will serve in the General Election. If the Republican ticket is not contested, a third Democrat will be named to serve as poll holder during the June Primary.

Registration Books in the various precincts will be open on Saturday, May 7, May 14, and May 21. Saturday May 28, will be Challenge Day and on the following Saturday, June 4, the Primary Election. The list of Registrars and pollholders follow:

Stella L. W. Pelletier, registrar; J. C. Barker and Adrian Morris.

Bogue: W. D. Smith, registrar; L. P. Taylor and H. K. Norris.

Pelletier: J. C. Baggs, registrar; W. W. Buck and Herman Taylor.

Broad Creek: Randolph Smith, registrar; Cola Guthrie and Ray Barbour.

Morehead City: Charles V. Webb, registrar; W. R. (Teddy) Willis and E. Clayton Guthrie.

Wire Grass: Manly M. Eubanks, registrar; S. C. Campen and Wilbur Merrill.

Bettie: George W. Gillikin, registrar; Theodore Willis and Harvey Lawrence.

Newport: Lawrence A. Garner, registrar; Theodore Willis and Harvey Lawrence.

Newport: Lawrence A. Garner, registrar; Theodore Willis and Harvey Lawrence.

#### This Is Busy Season For Supt. J. G. Allen

Supt. J. G. Allen has requested this paper to call attention to the fact that his duties in preparation of the closing of the schools and plans for another school year will be such that the public cannot depend upon finding him at his office for the transaction of business except on Saturdays until the week beginning May 9th.

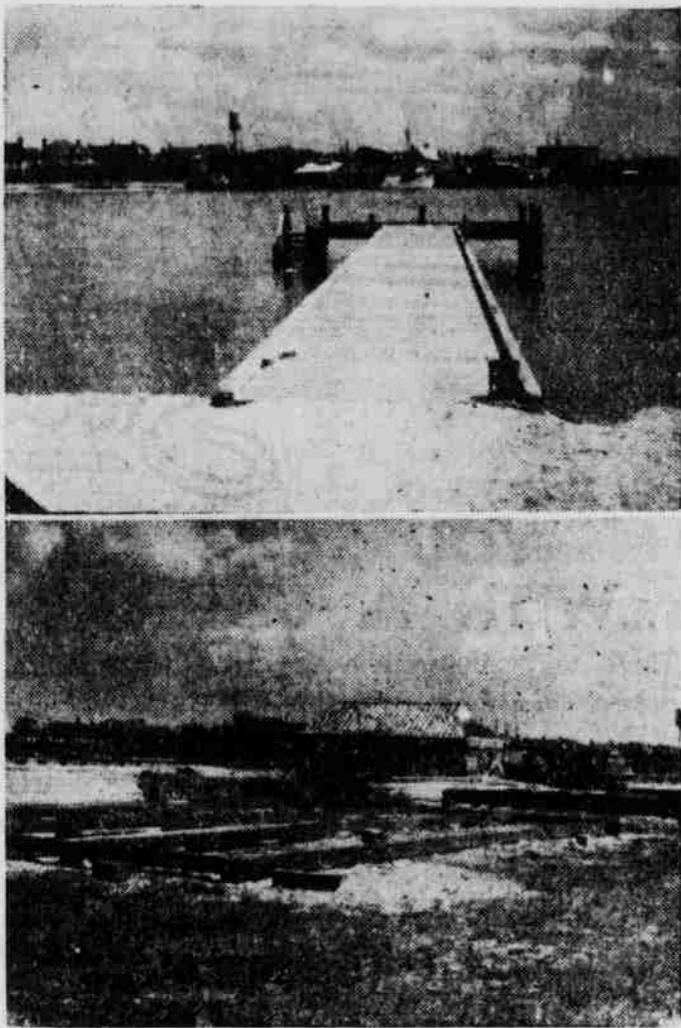

#### Small Admission To Be Made at Ft. Macon

Thomas W. Moore, superintendent of State Parks, in Beaufort today on business told a Beaufort News reporter that beginning May 1, a charge of 10 cents admission would be made at Fort Macon, to help defray the cost of up-keep and the caretaker's salary. Children under 12 years of age will be admitted free of charge, he stated. It is not unusual to charge admission for entering State Parks, and every North Carolina Park, when formally opened will have a small admission charge. Superintendent Morse was accompanied to the coast by State Forester J. S. Holmes. While here they visited Fort Macon.

#### DR. PRYTHERCH IN LOUISIANA

Dr. Herbert F. Prytherch, director of the U. S. Fisheries Laboratory on Piver's Island left early this week for Terrebonne Parish in Lake Barre La., where he will give scientific testimony in a lawsuit involving the oyster industry that state.

### Duke University Marine Lab.

Will Be Completed Early In June—

Duke University's new Marine Laboratory on Piver's Island here will be ready for use with the opening of the summer quarter on June 13, it has been announced. Work is progressing rapidly on the new coastal unit of the great University which will include a laboratory, lecture and recreation hall, dormitories, dining hall, pier, boat and pump house and other structures. In the top picture is the new pier with Beaufort in the distance. Below is shown the site of the laboratories where the boat house is nearing completion and two other buildings are well underway. Dr. A. E. Pearse of the Duke faculty who will be director of the local laboratory was in Beaufort over the week-end making an inspection of the buildings now under construction. He was accompanied by Miss Nell Dooley, chief dietician of Duke.

## Town Starts Cleaning Up

### J. B. CONGLETON TRIED TUESDAY

#### Rape Attempt Case Continued Until April 26

John B. Congleton, answering charges of public drunkenness on the State Highway in Recorders Court on Tuesday heard Judge Paul Webb tell him that he was a general nuisance and advised him to stay in his part of Town and away from the business section. The defendant plead guilty. Judge Webb ordered prayer for judgment and continued for 30 days. If John B. Congleton is arrested again for public drunkenness or on any other of the nuisance charges he has frequently been arrested on during the past many years, he will, if he is taken to Recorder's Court have the 30 days he did not get, but could have gotten on Tuesday, added to his new sentence—in the event he is given a new sentence. That should be a tip-off for local peace officers.

Foster Smith, appeared in court to answer charges of assault with intent to rape. The prosecuting witness, Ruth Styron, 17-year old Morehead City girl. She testified that Smith, whom she did not know personally, but had seen him around Morehead City, and had known him as a person nick-named "Tarzan" came up behind her on a dark street and attempted to rape her, but unsuccessfully. E. Walter Hill, the attorney who got a 30-year sentence for Robert Pasture when it was generally believed he would get the gas chamber, represented Smith. After

#### Historic Cemetery Is Included In Campaign

Although National Home Beautification and Clean-Up week will not officially begin in Carteret county until next Monday, Town of Beaufort officials got their part of the campaign underway this week by employing a crew of workmen to rake-up and clean up historic old Live Oak Cemetery. Next week the clean-up campaign will be officially observed throughout the county, especially in Beaufort and communities where there are Home Demonstration and 4-H Clubs.

When Struther's Burt the fam- (Continued on page eight)

### CABBAGE MART

Carteret County cabbage growers and cabbage growers throughout the country which are harvesting at this time are taking a licking. The prices are so low that many farmers will probably not cut their crops at all, except perhaps to feed to pigs. Rowe and Journey of Baltimore advised the Auction Market Wednesday that the prices there were only 40-60; that demands were light and shipments were heavy.

#### Former Dean Noe To Visit Mother

Former Dean Isreal H. Noe of Memphis, Tenn., who has recently been taking treatment at John Hopkins Hospital as the result of a 22 day absolute fast in January will visit his mother Mrs. Susannah Noe here at an early date, according to a dispatch from Memphis appearing in the newspaper today. At present the former Dean

### Inside Route To Cape Is Assured

The inside route to Cape Lookout via Core Sound and through the 'drain' of Shackelford Banks was assured this week when the project bearing appropriation of \$50,000 was included in the Rivers and Harbors Bill. Congressman Graham A. Barden in a wire to Aycock Brown, secretary of The Chamber of Commerce stated that he was expecting actual dredging of the project to start before or during the early summer. Excerpts from the Congressman's wire follow: "Improvement from Cape Lookout to Back Sound carrying fifty thousand appropriation definitely in Bill and will stay in it—Rivers and Harbors Bill went to the House today carrying Drum Inlet improvements at \$50,000 but of course it is impossible to get this incorporated in Appropriation Bill for this year."

### Will Establish Art Colony Here

GREGORY D. IVY

Pictured above is Gregory D. Ivy, head of the Woman's College, U. N. C. Department of Art. He will establish a Summer Art Colony at Beaufort beginning June 6 and continuing through July 5. The Students will be given a course of painting out doors while here, although The Community Center Auditorium will be used for lecture periods and on rainy days by the class. Mr. Ivy is a native of Missouri and a graduate of the State Teachers College of that State. He received his M. A. at Columbia. The course given here will be the first such course given in the South.

### TIDE TABLE

Information as to the tide at Beaufort is given in this column. The figures are approximately correct and based on tables furnished by the U. S. Geodetic Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is whether near the inlet or at the head of the estuaries.

### The Tip Topper

Out of 41 Rotary Clubs in the 189th District, the Beaufort Club was the tip topper during the month of April from an attendance standpoint. Only other tip topper in the District was the

### Did Poorly Baked Bread Play Part In Her Fall?

Confederates Surrendered April 26, 1862

Next Tuesday, April 26, will mark the 76th anniversary of the capture of Fort Macon by U. S. Troops under the command of General Burnside. The garrison in the fort were under the command of Confederate Colonel White. One of the Companies of the garrison was composed of Beaufort and Carteret citizens who had volunteered in '61 and called themselves the old Topsail Rifles. Early in April of 1862 Colonel White ordered that only bakers bread, cooked in the Fort's oven be served the men. The bread was unfit to eat. It caused discontent and near mutiny in the garrison. It's quite a lengthy story, but through a bit of research The Beaufort News editor has made this week he believes that the lack of guns being placed on the landward side was not the only reason why the fortress was captured so easily. The discontented men of the garrison probably had lost their fighting spirit because of events which took place before the battle—and events which poorly baked bread played a role.

### Eighteenth Foreign Vessel Arrives At Ocean Terminal

#### MILLER TALKS TO ROTARIANS

#### Officers Elected For New Rotary Year

Modern school problems in a most humanly interesting manner were discussed by Principal Ralph E. Miller at the weekly meeting of Beaufort Rotary Club on Tuesday night. His short after dinner speech was the highlight of the program. During a business session the nominating committee announced nominees for Rotary Club officers during the year beginning July 1, and M. Leslie Davis was elected president. Dr. Clifford Lewis was elected vice-president; (Continued on page eight)

#### Nyugat of Budapest Will Load 7,350 Tons of Scrap

The S. S. Nyugat, of Budapest, Hungary, arrived at Morehead City Port Terminal Wednesday, from Rotterdam, The Netherlands. At the ocean terminal she will take on a cargo of 7,350 tons of scrap metal for shipment to a North European port. The Nyugat is the first vessel flying the Hungarian flag and the eighteenth ship under a foreign flag to call at the new port terminal which was completed in November 1936.

Scrap metal for the cargo is being furnished by Ben Schwartz Inc., of the Newport News. This firm has approximately 9,000 tons of scrap metal at the Morehead terminal at present. Mr. Schwartz told a Beaufort Newsman today that his firm shipped approximately \$800,000 worth of scrap metal through the port of Morehead City last year. (Continued on page eight)

### CAPE LOOKOUT WON BOAT RACE

#### Fort Macon Oarsman Drops Out From Exhaustion

With only a 22-second margin the surfboat crew of Cape Lookout Coast Guard station won a race from Fort Macon over a two mile course near the latter station Wednesday afternoon. Coxswain Roland Styron of the Fort Macon boat said that his crew lost because one of their oarsmen, Surfman Theodore Willis fell out from exhaustion and also because Coxswain Dan Yeoc (Continued on page four)

### CARTERET FISH TO TRAVEL IN AQUARIUM CAR

#### Group of Collectors Here on Special Pullman

Fish of many species will soon leave Carteret waters for Chicago in special tanks to keep them alive aboard the most unusual Pullman car in the world. This Pullman, the "Nautilus" owned by the John G. Shedd Aquarium in Chicago reached Beaufort early this week under the command of M. V. Mayer and is now sidetracked at the railroad station. During the next few days Mr. Mayer and his four assistants along with Leslie Whitehurst, local boatman will be busily engaged in capturing the specimens of salt water sea life here whose future home will be in an aquarium hundreds of miles from the nearest salt water.

The "Nautilus" as seen by the person passing over the Beaufort drawbridge has the appearance of just another Pullman coach, but a visit aboard the \$44,000 marine life palace is quite different from anything that the average person has ever seen. Half of the car has been converted into comfortable living quarters for the crew aboard, including berths, a galley, and dining compartments. But (Continued on page eight)

#### Billy Hill Took An Unusual Ride

Billy Hill, the 3-year old son of Mr. and Mrs. C. C. Hill of Newport took a very unusual ride in his father's truck on Tuesday. The truck was parked in the backyard of the Hill home. It had been left in gear. Young Billy climbed into the driver's seat turned on the switch and stepped on the starter. The motor started and so did the truck. It headed for the barn and crashed through the first wall, but did not stop. Instead it crashed through three more partitions of the barn and came out on the opposite side, before the motor stalled. Mrs. Hill was frightened. She rushed to the truck calling Billy. He was not scratched. His pet goat which had been knocked from one stall to another was not hurt. The truck was damaged only slightly—but the barn was in a very wrecked condition. The moral to this story is not to leave your car in gear if you have any small children who are liable to decide to take a ride. They may not be as lucky—as lucky Billy Hill.

#### Fishing And All Outdoors By AYCOCK BROWN

FIRST CHANNEL Bass of the season were taken at Drum Inlet last Sunday by William Noe and R. Henderson fishing with Capt. Ammie Willis of Davis. They were casting from the surf, using cut bait, and fishing the high tide which came about noon on Easter Day. Nine of the copper colored beauties were landed, and they were beauties, because each weighed between 25 and 28 pounds. Bringing their catch back to Beaufort the anglers and the channel bass were photographed by Roy Eubanks and it is likely that the catch will be used in several of the papers of the State before many days have passed. Up-state newspapers and up-state anglers are mighty interested in channel bass fishing along the coast.

MERRIS GILLESPIE and Greaver of Tazewell, Va., came to Beaufort over the week-end to try the Spring fishing. They were not expecting to make any mighty catches. As a matter of fact their trip here was primarily for the purpose (Continued on page four)
