## Hold Referendum May 14 For Irish Potato Growers

### HAYNES TALKS TO ROTARIANS

#### Tells About The Culture Of Gladioli

Gladiolus from the bulb stage to the spike and blossom stage was the subject of a very interesting talk given Beaufort Rotarians by S. E. Hayne at their meeting Tuesday night. He also told how he and Mrs. Hayne, natives of Wilson, N. Y. had come south eight years ago to finally settle in Carteret east of Beaufort where gladiolus raising on a big scale is underway.

The subject of his talk was timely because this week gladiolus growers of Carteret are beginning to ship spikes. Before the current season has passed, it is likely that approximately \$50,000 worth of the flowers will be shipped from this county to markets throughout Eastern America. The Hayne farm has under cultivation about seven or eight acres this year.

"It takes from 52,000 to 60,000 bulbs to plant an acre," he told the Rotarians and a comparison of the value of a bushel of potatoes and a bushel of bulbs was given. The difference in value of the commercial type bulb and potatoes is from \$50 to \$75 per bushel.

During his talk he displayed a spike glad cut from his field on his way to town. Frequently he used this spike to explain certain matters about shipping, diseases and other interesting data. The Haynes came to Beaufort because of the splendid Gulf Stream Climate and fine farming soil.

### It Will Determine Marketing Plans For This Year

Potato growers of Carteret county and Eastern Carolina will march to the polls on May 13 and 14 to determine whether they want the marketing of their product controlled this year. The voting will be at the county agent's office on Friday and Saturday from 9 A. M. to 5 P. M. County Agent Anthony has urged all farmers to vote.

Should two-thirds or more of those voting in the referendum favor restrictions, a control program will go into effect. The proposed marketing agreement would prohibit interstate shipment of potatoes falling below the U. S. No 2 grade and those of less than one and one-half inches in diameter.

Polls will open at 9 A. M. on each of the two voting days and will close at 5 P. M. Public notice of the place of balloting will be made at least three days in advance of May 14.

L. P. Watson, extension horticulturist at State College, explained that each producer of potatoes for market is entitled to one vote.

Educational meetings to acquaint growers with provisions of the marketing agreement have been held in most of the affected counties.

### Makes Front Page In Rail Matter

Mayor G. W. Huntley

Mayor George W. Huntley of Beaufort made front page in the News and Observer recently when a letter he had written Governor Hoey relative to railroad rates was given publicity. In his letter he outlined a discrimination in rates which permits shipment of farm commodities at a much higher rate via the A and N. C. from Beaufort and New Bern than similar commodities from Pamlico County. In the above picture Mayor Huntley is shown examining tomatoes packed in the plant operated by Carteret Growers, Inc.

### Cabbage

There seems to be no end to Carteret's greatest cabbage harvest. During the past 10 days an average of 10 or more solid ice-car loads have rolled out of Beaufort and before the week has ended approximately 112 car loads will have moved. Each of these car-loads were purchased by the Federal Surplus Commodities Corporation which stepped in to aid the farmers as a result of efforts on the part of Representative Graham A. Barden. Peak prices paid for cabbage by the FSCC has been \$9 and \$14 per ton. Today they were bringing \$8 per ton in bulk. While growers have not gotten rich off their cabbage crop this year, they have not faced a total loss, as would probably have been the case, had Congressman Barden and the FSCC stepped in. Quite a tonnage of cabbage have moved by truck to markets, also.

### BATH HOUSES OPEN SUNDAY AT THE BEACH

Bath houses at Atlantic Beach will be opened to the public Sunday, it has been announced by Manager E. G. Petry, who is making preparations for the best season in the history of this resort. The beach hotel will be officially opened June 2; and the casino season will start June 20, with nightly dances and entertainment programs.

### Judge Frizzelle To Preside Here During June Term

Judge Paul Frizzelle, resident judge of this District and a resident of Snow Hill will preside over the June Term of Superior court beginning June 13, and continuing for two weeks. The first week will be devoted to the criminal cases on the docket, with civil cases scheduled to be tried during the second week of the term.

### Covering The Waterfront

By AYCOCK BROWN

MR. AND MRS. Serpell were having tea with Ambassador Josephus Daniels and Mrs. Daniels at the American Embassy in Mexico City a few days ago. On the library table Mrs. Serpell noticed a copy of the April seventh edition of The Beaufort News. She was surprised and probably she thought that this was a small world after all. The Ambassador told Mrs. Serpell that he had been receiving The Beaufort News each week since he went to Mexico to take care of our government's interests there. Mrs. Serpell asked for the copy to bring back to Beaufort as a souvenir for the editor. So last week-end when they returned to Beaufort a copy of this newspaper came back home with them.

DEAN NOE and myself have joined each other in drinking many Coca Colas together since we returned to Beaufort. I don't know which one drinks the most, but I know that when we meet down the street that I am always ready for one when I make the suggestion and that he is always ready for one when I make the (Continued on page 8)

### 3 Anglers Catch 70 Channel Bass

Tom Eaton of Hatteras, valued subscriber to The Beaufort News called the editor from Washington yesterday to give a news story which had just been wired him by his business associate Frazier Peele. Three anglers, Carl Goodwin, Jake Zythus and Al Monaghan of Plainsfield, N. J., surf casting in Cape Hatteras Bight had just landed 70 channel bass in seven hours with rod and reel. It was, according to Sportsfishing Observer Eaton, the largest catch made there in many years, and probably an all time record.

### Tip-Topper Again

Beaufort Rotary Club for the second successive month made the best attendance record during the month of April. For the second successive month Morehead City came second, but also in the tip-topper class. This is a good record for the Coastal clubs, considering that in the 189th District there are 41 towns and cities having Rotary clubs.

### St. Paul's Packed To Hear Dean Noe In Second Sermon

Historic St. Paul's Episcopal Church was crowded to capacity last Sunday when the Very Rev. Israel H. Noe delivered his second sermon since January 22 in Memphis, Tennessee, during his absolute fast, five days before he entered a hospital suffering from an attack of influenza.

The learned theologian, former Dean of St. Mary's Cathedral, Memphis, has been given a most cordial reception by citizens in his home town. Dean Noe will make an address to the graduating seventh graders at Beaufort School next Monday morning at 10 o'clock. (Complete text of his Sunday Sermon will be found on Page 3—this edition.)

### He Speaks Here Memorial Day

Senator R. R. Reynolds

C. L. Beam, of Carteret Post 99, American Legion announced today that Senator R. R. (Our Bob) Reynolds would make the annual Memorial Day address here on Sunday, May 29, at 2:30 o'clock. Senator Reynolds accepted the invitation early this week. Not only the American Legionnaires, but the public at large, is extended an invitation to attend the exercises which will be held on the Carteret Court House green.

## Potatoes

Carteret's Irish potato harvest, smaller than 1936 but larger than 1937, will get underway next week. County Agent J. O. Anthony said today that he had examined several hills on the Gibbs Brothers farm and that they averaged from 10 to 12 U. S. No. 1s each. That is a good indication that potatoes in Carteret this year will be plentiful and up to expectations. Everything will come up to expectations except the price, which today was quoted at approximately \$1.25 which is low compared to recent years, excepting 1937. If a fair price can be maintained it is likely that two or three hundred freight car loads will move from the Beaufort area during the current season.

### Taylor Pitches Win For Beaufort

West Taylor pitched three hit ball as Beaufort shut out Atlantic 11-0 Sunday. R. Hassell, Hunnings, and Thomas with two hits each led Beaufort's attack.

### Carteret Democrats To Convene At Courthouse

James Melville Broughton, outstanding Democratic key-note speaker of North Carolina, and a probable candidate for governor during the next gubernatorial election will be the key-note speaker of the Carteret County Democratic Convention to be held at the Courthouse in Beaufort Saturday afternoon, May 14 at 2 o'clock, it was announced today by Irvin W. Davis, chairman of the Democratic Executive Committee.

Chairman Davis has advised all precinct chairmen to bring a large turnout of Democrats to the convention, and the event is being publicized in a big way by local party leaders, which from all advance indications will mean that a large audience will be present to hear the speaker.

Key-noter Broughton is an attorney of Raleigh. He is one of the outstanding political speakers of North Carolina today, and from the inner circles of Democratic rings, one hears already that he is the potential candidate for governor during the next gubernatorial convention.

Chairman Davis will preside over the convention here on Saturday. Several other prominent Democrats will also be present for the purpose of making speeches or offering suggestions about how the political victories during the current year will be made Democratic victories.

### Sweet Potatoes

Anthony, County Farm Agent announced as we go to press today that unless farmers started selling their surplus sweet potatoes for sale to the Federal Surplus Commodities Corporation by Saturday, May 14, that this agency would not offer to buy after that date. ### Fishing And All Outdoors

By AYCOCK BROWN

THE BLUES STRUCK in at Capt Lookout last week-end and that on the Coast of Carteret is BIG news, especially if anglers going to sea could get them to strike—and they did. No telling how many were caught by week-end anglers and the trolling has been good this week according to reports brought back to town by party boatman. Simultaneously with the arrival of Blues in catchable quantities came Spanish Mackerel. And last week-end many Spanish Mackerel were reeled in—by anglers who think there is no sport finer than trolling for Blues and Macks off the coast of Carolina.

TO GET THE most out of your trolling for Blue and Spanish Mackerel you should use the lightest tackle you own. That gives you a chance to get the reel thrill of the sport and also gives your fish a fighting chance to beat you at your own game. To make the sport more interesting you should carry along a variety of lures, squids, bones and plugs. It gives you a chance to study your fish and find out what their favorite (Continued on page eight)
