

## CARTERET FAIR PREMIUM LIST IS PUBLISHED

Printshop Craftsmen  
Of Beaufort News  
Printed It

ART WORK CREATED  
BY GEORGIA NEAL

The Catalogue and Premium List of the American Legion sponsored 4th annual Carteret Fair rolled off the presses of the Beaufort News Printshop early this week and already many of the bound volumes have been mailed by Manager T. E. Kelly to prospective exhibitors.

The booklet this year is decidedly different from any fair booklet published in the South. The cover design created by Miss Georgia Neal is quite likely to revolutionize fair booklet covers throughout the country, because of the unusual art work which depicts in cartoon a country fair town with many of the buildings carrying the signs of the advertisers who made the booklet possible.

Hundreds of premiums valued at hundreds of dollars will be offered the prize-winning exhibitors. A list of the premiums are included in the booklet along with other information pertaining to the event which is scheduled to take place during the week of October 10-15. The frontpiece of the booklet carries the photographs of the four principal officers and a list of the board of directors.

Printing a 52-page fair booklet in a busy weekly newspaper and printshop is no small job. Beaufort News printshop craftsmen had to wedge the work of printing the booklet in between other print jobs and the work of getting out the eight page edition each week. In this manner it took approximately 10 days to complete the job, with the facilities available

## Covering The Waterfront

By AYCOCK BROWN

YOUR COLUMNIST who some time thinks he is fairly good as a reporter of news surely missed a good flash a few days ago. There was a report in the newspapers of this State that a marlin weighing 100 pounds, approximately, was taken off Morehead City. Since the item first appeared in print your columnist has been trying to get the inside track on the story but so far everyone hereabouts who seem to know the most about sports fishing, seems to know the least about that marlin.

SUCH A STORY as that should go farther than within the borders of this State. It is news that anglers up around New York and cities throughout country would like to know. The Hatteras Blue Marlin story went from

## What's the Answer?

By EDWARD FINCH

WHY DO PEOPLE  
SHAKE HANDS WITH  
THE RIGHT HAND?

IN THE days when men fought with swords and had to be prepared to fight at any time they carried their swords with them constantly. When approaching a stranger a man had to extend his right hand empty in order to show that his approach was a friendly one. If the friendly feeling was reciprocated the other man grasped the hand of his acquaintance with his own right hand so that if he should change his mind he would be aware of it before the sword could be grasped. From this custom has come the meaning of our present day handshake; if one man refuses to shake hands with another it is interpreted to mean that there is enmity between them.

## More About The October—

# WAR

## School Principal Returns

PRINCIPAL R. E. MILLER, of Beaufort Graded and High School returned to Beaufort with his family last Thursday. During the past summer he has been studying at Columbia University in New York City. At the completion of his course there he took a tour with his family through Canada.

# Tarpon

A 92-pound tarpon was caught in the purse net of the menhaden boat Leland Mills off Brown's Inlet about 25 miles west of Beaufort Inlet Wednesday. It was the first tarpon landed in nearby waters this year, and news of the catch, despite the fact that it was made in a net instead of with rod and reel, is quite likely to attract a number of "silver king" anglers with rod and reel to this section.

Capt. John E. Noe, brother of Dean Israel H. Noe, is skipper of the Leland Mills.

Following the catch and after the fish was photographed from a number of angles, Aycock Brown, secretary of the local Chamber of Commerce, wired news that "tarpon were running" to Judge T. D. Bryson, dean of Duke University's School of Law. Judge Bryson had made arrangements with Brown last Spring, to tip him off when "Tarpon showed up." He is one angler who has fished for just about everything that swims between Southport and the Virginia line, including the Gulf Stream.

## Dean Noe Coming

Although we could not verify the report as we go to press today, it was stated here this morning that Dean Israel H. Noe would return to Beaufort for a visit with his mother, Mrs. Catharine Noe at an early date, possibly the coming week. Since his three months visit here last Spring Dean Noe has been living at his home in Memphis, Tenn. During his visit in Beaufort during the late Spring and early Dean Israel Noe summer he was guest preacher in many churches of the county and thousands of persons heard him and praised his eloquently delivered sermons.

## Legionnaire Bailey Chief Key Man In Carteret

### CIVILIANS WILL PLAY ROLE IN DEFENSE

Legionnaire W. H. Bailey, of Carteret Post 99, has been appointed Chief Key Man for Carteret County during the "War Maneuvers" to be held in Eastern Carolina during October. He will be assisted by Community Key Men located in practically every town and community in Carteret, including Atlantic Beach, Morehead City, Newport, Marshallberg, Atlantic, Cedar Island and other sections.

He was appointed as Chief Key Man of the county by Capt. Tom Daniels, adjutant of the Donerson-Hawkins Post of The American Legion in New Bern who is Dis-

### Col. S. Jarman Confers With County Key-Man

Col. S. Jarman, U. S. A. of Fort Bragg was in Beaufort last night and early today to confer with War Games County Key-Man W. H. Bailey relative to the coming maneuvers. Carteret has been blocked off in a dozen or more squares. In each square will be located assistant key-men who with citizens will be on lookout for approach of planes from the sea.

Key-Man Bailey stated after Col. Jarman's departure that he wanted citizens in the various communities to offer use of their telephones during maneuvers. These communities include: Beaufort, Morehead City, Atlantic Beach, Marshallberg, Davis, Atlantic, Bogue, Harlowe, Newport and Pelletier. A meeting of community key-men and all interested citizens is tentatively set for Friday September 16, it was stated. Aycock Brown has been appointed as publicity director of the maneuvers in this immediate section by Key-Man Bailey.

District Chief. The District and County Chief Key Men will be assisted by the entire civilian population. Common telephones will be used in the proposed "defense" of the country against "enemy" planes.

The maneuvers, similar to war games which have been held before at other points along the East and West Coast will prove whether the North Carolina coast is an open door for enemy invasion. And, unless the "defenders" along the coast keep a mighty good lookout, for "enemy planes" it is quite likely that what The Beaufort News has contended editorially for the past three or four years is actually the truth: THAT THE NORTH CAROLINA COAST IS AN OPEN DOOR FOR ENEMY INVASION DURING TIME OF WAR.

## Nine Foot 'Gator Caught In Shrimp Net Near Beaufort

An alligator (said by some to have been a crocodile—which was an error) was caught in a shrimp trawl net up Clubfoot Creek near the old canal on Tuesday. It measured 9 foot two inches from tip to tip. The 'gator was captured in a shrimp trawl net operated by Ed Culver, of Beaufort. Alligators are very numerous in the creeks and marshes of Carteret County this year. Large numbers of gators have been seen in the South River section. Many small one have been landed there by rod and reel anglers fishing for fresh water bass.

## REV. LOUIS D. HAYMAN RETURNS FROM HOSPITAL

The many friends of Rev. L. D. Hayman will be glad to learn that he is much improved and has been discharged from Duke hospital this week. He will be able to fill his regular place in the pulpit on Sunday and Holy Communion will be administered at the morning hour as usual.

## Big Air-Liner Landed Here Today— To Remain In Beaufort Through Labor Day

## COMING HERE FAIR WEEK

WHEN ART LEWIS SHOWS comes to Beaufort to be a feature of the Carteret County Fair during the week of October 10-15, the cabin plane pictured above will also be here. The plane will probably arrive during the preceding week to fly over Carteret communities to advertise the event which is sponsored by Carteret Post 99 of the American Legion.

## Bookmobile May Come To Carteret County To Serve Rural Residents

### Tobacco Princess At South Boston

MISS MARY SUE Rudder, attractive daughter of Mrs. W. S. Chadwick will leave this week-end for South Boston where she will be a Princess at the National Tobacco Festival to be held there next week. Miss Rudder is the official representative of Beaufort at the festival.

## BEACH SEASON ENDING WITH GAIETY GALORE

### Georgia Collegians Making Music For Finale

With music furnished during the week by Jerry Sullivan and his Georgia Collegians from the University of Georgia, a number of entertainment programs have been planned by Manager E. G. Petry for the last week of the open season at Atlantic Beach.

Sullivan's boys arrived Tuesday in time to provide the melodies for the final Girl Break dance of the season. They followed Ray Belaire and his New England artists, who played for the final amateur hour program Monday night, in which John Bangert Watson, ten-year-old New Bern boy, won the grand award of a New Bern radio contract for his boy soprano solo, "When Irish Eyes are Smiling." By request, he sang an encore, "Gold Mine in the Sky," with which he had previously won a

### Traveling Library Loans Books To Rural Folks

If the Carteret Board of Commissioners look with favor on the proposal and agree to furnish the gasoline and oil necessary for the operation during the month, the State's WPA Bookmobile may come to Carteret in December or during the late winter. Mrs. Norma Sawyer, District Supervisor of WPA Library Projects was here early this week for a conference with Miss Sara Rumley, County Supervisor of Library and Book-mending projects. The WPA Bookmobile operated by John Coleman was also in Beaufort and on display.

If the County Commissioners agree to pay the expense involved in buying gasoline and oil for the Bookmobile, (the cost for the month would be hardly more than \$25) it will touch at every community in the rural sections, at least four times. The Bookmobile carries about 800 volumes. These books are changed each week. No charge is made to persons borrowing the books. There are books which will appeal to adults, young men and women and children of all ages.

To give an idea of how the rural folks take to the idea, there were approximately 15,000 volumes loaned in Pender County during the past month. The State WPA owns 17,000 books, although only about 800 can be taken aboard the Bookmobile at one time.

Mrs. Sawyer was well-pleased with the library projects in this County which are supervised by Miss Rumley. She visited many of the projects in the various communities. In Beaufort she visited the indexing project at St. Paul's where workers are now completing the tabulation of several thousand volumes collected by the late Mrs. Nannie P. Gefroy during her lifetime, and which may be given to the Town of Beaufort if suitable library facilities are made available.

## GUEST ARTIST

Miss Florence Smith, the "sing-est" and "danc-est" young lady in Carteret County will be guest artist in Atlantic Beach Casino Saturday night. She will do some of the singing and dancing numbers which won her amateur hour fame there during the current summer.

## Passengers To Be Taken Aloft For \$1

Transport Pilot G. R. Minick who has flown 10,000 passengers during the past 10 years was scheduled to land at the West Beaufort Landing Field today with his huge 1,000 horsepower tri-motored Ford plane. The plane will remain here through Labor Day and will take passengers aloft for \$1 each as a result of arrangements with T. T. (Tom) Potter, local Sinclair agent.

The plane is powered with Sinclair lubricating oil and HC Gasoline, which has grown in popularity since Mr. Potter became the coastal representative for Sinclair several months ago.

The plane is painted silver and is of all steel construction. For \$1 passengers will be taken on an aerial tour over Beaufort, Morehead City and possibly Atlantic Beach, a distance of approximately 12 miles. The air-liner has accommodations for 16 passengers. Pilot Minick is a veteran at the controls of the air-liner and he said Wednesday on a visit to The Beaufort News office that he had taken passengers up in many North Carolina towns and cities.

# Marlin

One of the most outstanding taxidermy jobs ever shown in Beaufort is the beautiful white marlin on display in the show window of Carteret Hardware Company. The fish was landed off Ocean City, Maryland, several weeks ago by Christopher Jones He and Jack Neal were the fishing guests of Mr. and Mrs. Rowe Metcalf aboard the cruiser Cudacatcher, which had been on an unsuccessful blue marlin hunt off Cape Lookout early this summer. The white marlin weighed 72 pounds.

Reports that a "marlin weighing 100-pounds" was caught "off Cape Lookout" during the past week could not be verified by The Beaufort News as we go to press today.

## C. G. Cutter "Bibb" At Port Terminal

The United States Coast Guard Cutter Bibb, fastest and most modern vessel in the cutter service arrived at Morehead City Port Terminal late Sunday. Her crew of 110 men and 11 officers are engaged in small arms practice at the Coast Guard Rifle Range at Camp Glenn. Skipper of the Bibb is Commander James Pine. Second in command is Lt. Commander Donald C. MacNeil. Several members of the crew are from Carteret county and other localities along the central coast.

The Bibb is capable of cruising at 33 knots per hour. She is fully equipped for wartime or peacetime activities. She carries on her deck a sea-plane as part of the equipment.

## Comstock Arrives

The Comstock, 163-foot dredge of the U. S. Engineering Department stationed at Wilmington arrived at Morehead City Port Terminal today. For the next several weeks she will do maintenance dredging in Beaufort Inlet.

## WINTER COVER CROPS NEEDED ALONG COAST

### Farm Agent Anthony, Urges Farmers To Plant Cover Crops

Many a good farmer has found that the Government checks for carrying out soil-building practices have helped him do many things to improve his farm that he has wanted to do for years, but felt he could not afford.

One of the best ways to earn your payment is to plant winter cover crops, and one of the best ways to spend that money is in seeding more cover crops.

Winter cover crops will help make your farm a better place on which to live:

By keeping a lot of that fertilizer you bought last spring from leaching out of the soil. By keeping your good soil from washing away. By helping you start a good crop rotation. By producing more feed and thereby reducing your feed bill. By helping you add more livestock to your farm. By helping you balance your farming operations and making them more profits. By helping to make idle land pay its own way.

By growing legumes on well-irrigated land, and turning them under, you can add much nitrogen and humus to your soil which will be good for the next several crops.

You and your soil will get a lot more good out of green fields this winter than either could possibly get out of the dead remains of last summer's crops.

For further information, call or write my office.  
LET'S KEEP CARTERET COUNTY GREEN THIS WINTER.

## Fishing And All Outdoors

By AYCOCK BROWN

AN ADVERTISEMENT appearing in the State papers on Monday told about the thousand foot long 19-foot wide fishing pier at Fort Fisher. That pier attracts many land-lubbers who like their salt water fishing but are not sailors enough to go out on a boat or cannot afford to pay the rather expensive prices the average guide charges at not only Beaufort and Morehead City but every other point along the North Carolina coast. Dr. Johnson, of Beaufort and Morehead City made the suggestion sometime ago through letters to this and other newspapers urging the County or the two principal towns to co-operate in securing a fishing pier for Carteret. But as usual, the citizens are slow to get the significance of what it would mean and as a result no one has taken any action in promoting the project. It could probably be built with Federal funds.

BLUEFISH WHICH have apparently been off in the deep waters of the ocean most of the year are

## TIDE TABLE

Information as to the tide at Beaufort is given in this column. The figures are approximately correct and based on tables furnished by the U. S. Geodetic Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is whether near the inlet or at the head of the estuaries.
