Another Cargo of Salt Due at Port Terminal Soon

She Learned About Diving From Him—
On Trip To Fort Macon Recently

MOST DIVERS have a reputation of being tipsters or victims of other vices, but such is not the case with Capt. L. H. Barnes, shown in the above photo explaining his work to Miss Catharine O'Bryan of Beaufort. He is one of the best in the business and is president and chief operator of the Submarine Engineering Co., Norfolk. At present he is engaged on a project which involves the construction of a launchway leading from the new \$30,000 boathouse which the E. L. Davis Co., of Beaufort is building at Fort Macon. At left he is shown emerging from water at Fort Macon, dressed like a 'man from Mars.' (Candid photo by Aycock Brown; expert finishing by Roy Eubanks, The Photo Shop.)

County Will Sponser NYA Project For Shop Building

Dizzy Oyster Is Taken From Pump Propeller At Lab

The oyster had no way of saying it was dizzy but it must have been. Last week when they scraped the propeller blade in the salt water pump at Piver's Island, an oyster estimated by Bivalve Expert Dr. H. F. Prytherch to be six months old, was discovered. The reason the oyster must have been dizzy is because the propeller blade when in action, which is frequent, makes 1,750 revolutions per minute. In a period of six months that oyster was whirled around not telling how many millions of time. How the bivalve survived its dizzy travels had even Dr. Prytherch who knows more about oysters than any other man in America, considerably baffled.

Students And NYA Employees Will Learn Trades

OTHER BOARD MATTERS DISPOSED OF AT MEET

Because it was too good a proposition to pass up the Board of County Commissioners at their regular monthly meeting on Monday agreed to sponsor an NYA project for the construction of an NYA building here. It was one of several matters before the Board. Commissioners W. P. Smith, Cleveland Davis, Raymond K. Davis, W. Z. McCabe and K. P. B. Bonner, Chairman, were present for the meeting.

The Board acted upon the NYA proposal after Mrs. D. F. Merrill, county NYA supervisor, Principal Ralph Miller of Beaufort High School and W. H. Taylor of the local school board appeared, outlining the offer which had been made. The County will pay half the cost of materials, amounting to only a few hundred dollars and in return, the County will have a vocational shop building adequately equipped. The cost of equipment and the labor in the construction of the building will be furnished by NYA. As a result a structure in which students of Beaufort Consolidated school will have a place to learn trades under a vocational teacher who will be added to the local school faculty. While students are not using the building NYA workers young men between the ages of 18 and 25, will be using the facilities offered and learning a useful trade. It is estimated that when completed the building will represent an expenditure of approximately \$3,000.

BEAUFORT TEAM WINS BANQUET

Cup-Match Will Be Held At Beach Tonight

Beaufort Bowlers were victorious last Thursday night and as a result the Morehead City Javees will entertain the local team on Tuesday, Feb. 28, at Fort Macon Hotel banquet followed by a dance at the Boat Club. In the meantime, the play-off between the two highest teams will take place at the Idle-Hour Alleys on Atlantic Beach tonight and the winners will be awarded the trophy cup.

Last year Beaufort won the trophy cup. Whether they retain same this year will not be known until after the game tonight between teams composed of E. Hubbard, G. McNeill, B. Leary and H. deFuniak of Morehead City and T. Hood, Bob Lang, J. Potter and R. Paul of Beaufort. Last year the Beaufort team lost in the tournament and the banquet and dance were given in the American Legion Hut here. A feature of the banquet and dance was the appearance of ex-Dean I. H. Noe, who made the principal talk and presented the cup.

Much interest and good will has been built up between Beaufort and Morehead City as a result of the bowling tournaments. Because each of the members of the championship teams are widely known and popular in their respective communities, it is believed that a record crowd will be present to see the cup match tonight at the Idle-Hour on Atlantic Beach. Plans for the banquet and dance in Morehead on Feb. 28, are under the direction of George McNeill and Rudolph Dowdy.

NYA Official Here

Mrs. Margaret Strauffer, N. Y. A. State Consultant on Crafts and Woman's Work, was in Beaufort Wednesday. She gave a demonstration on chair bottoming and basket making to 26 N. Y. A. girls at the courthouse annex.

January Weather Was Clear; Below Freezing Four Days

Twenty-two clear days, five cloudy, three partly so, and one with rain was the exceptionally fine weather record for Beaufort during January, according to the monthly report of the cooperative observers at the U. S. Fisheries Station on Piver's Island. Not only that, and something you can write and tell your friends about in colder climes, was the fact that only four times during the month did the temperature go below freezing.

Day by day weather statistics for the month follow: (Continued on Page 5)

APPEAL TAKEN IN BAD CHECK CASE TUESDAY

Several Sentences Ordered By The Recorder

Charged with giving V. B. Hagood, of Roanoke, Va., a worthless check for \$52.25 in payment for a load of apples, C. M. Krouse was found guilty when tried before Judge Paul Webb in Recorder's Court on Tuesday and sentenced to 90 days on the roads. He gave notice of appeal and the case was bound over to Superior Court. A bond of \$200 was required of Krouse for his appearance in the higher court.

Tootsy Bell, Negro bootlegger, charged with selling liquor was found guilty and sentenced to four months on the roads.

For failing to obey order of court Alfred Anderson was brought into court to answer a capias. The capias was considered and the defendant was sentenced to 12 months on the roads. The original charge was for violating the prohibition laws.

Andrew Fisher and Alfred Anderson on charges of violating the prohibition law were found not guilty but Moses Gaskill arrested on the same charge and named in the same warrant was ordered to work out Court costs on the courthouse green.

Following evidence presented by Mildred Pasteur and Naomi Turner, Isaac Simmons was found guilty of assault with a deadly weapon. He was given a six months suspended sentence upon condition that he not violate the law for a period of two years, that he remain of good behavior during this period towards his wife and that he pay the costs of the court action.

Prayer for judgment and continued was the order in the case of F. E. Jones, charged with driving an automobile while under the influence of liquor. His license was lifted for 12 months and he was ordered to pay the costs. Officer Pelletier of Morehead City was the State's witness.

The charges against Andrew Fulcher, Clem Gaskill, Lewis Davis, Lige Salter, Lloyd Hill, and Dave Gaskill, Capt. George Lupton and Jim Tosto, for violating shellfish laws, was continued to April 18, 1939.

Carteret Allocated Funds For Highway Improvements Tues.

George W. Coan Jr., WPA administrator for N. C. stated in Raleigh on Tuesday that approval had been given 15 relief projects which would cost \$373,647.28 and give employment to 1,218 persons. He said that of the total \$99,914 would go for roads in Carteret. Which roads would get the monies for improvements in Carteret was not mentioned, but it is believed that the route to Salter Path from Atlantic Beach will be among those to be improved. Already WPA laborers are cutting a right-of-way for this route.

Twenty-three Are Jailed Here During Month of January

Twenty three persons were placed in the County jail during the month of January, with the highest population at any one time being 16 inmates. There were 12 persons in jail on the last day of the month. Of those incarcerated nine were white males, 10 were Negro males and four were Negro women. No white women were jailed. A variety of cases, mostly misdemeanors were involved. They included breaking and entering, reckless driving, bad checks, etc, according to Sheriff Holland who gave out the information from his monthly report.

MARRIAGE LICENSES

Guy Avery, Beaufort to Annie Goodwin, Wadesboro.

Southern Salt Company Of Norfolk Consignees

Bowls High Score In Tournament

TOM HOOD of the First Citizens Bank and Trust Company with an average weekly score of 155 points, was high man in the Morehead-Beaufort tournament which ended last Thursday night at the Idle Hour. Earl Hubbard of Morehead was runner-up with an average score of 144 points. Tonight at the Idle Hour the play-off cup match will be held. (News Photo.)

GARDEN NOTES FOR CARTEERET

County Agent Gives Information On Right Seeds

In an effort to give the rural readers of Carteret County more local news about farming and gardening, The Beaufort News will publish a series of interviews with Farm Agent J. O. Anthony. Of current interest is the subject of gardening, the proper seeds to plant, when to plant them, how to plant them, etc. Farm Agent Anthony says:

"Now is the time to be getting rid of some of those seed we ordered in January. Plant some more of your wrinkled garden peas, beets, carrots, spinach, onions, salify, snap beans, parsnips and Irish potatoes. It is also time to treat and bed your sweet potatoes (Get some good clean certified sweet potato seed and treat them and plant them according to instructions in Bulletin 263. Approved Practices for Sweet Potato Growers. If your county agent cannot supply you, write to the Horticulture Department at State College, Raleigh.

We mentioned carrot and beet seed. Why not put these in rather heavy so we can have carrots for soup mixture along with our tomatoes which should be started in the bed at this time, and the okra and butterbeans we will plant next month. We can use the beets for pickling and have a supply on hand for use while fresh. (Continued on page ten)

Another Huge Turtle Added To Lab Museum

A logger-head turtle which weighs in the neighborhood of 400 pounds, and is the largest live specimen ever displayed at the U. S. Fisheries Laboratory was added to the marine collection on Piver's Island last week. The huge reptile is being kept alive in a special constructed indoor tank for the remainder of the winter in water with a temperature about the same as the Gulf Stream, from which it was captured in a trawl net recently. When summer comes the tremendous turtle will be placed on display in the special built pool outside the laboratory.

The Danish S. S. Stal Bringing Salt From Tunis

Another salt laden ship is expected at Morehead City Port Terminal between February 25 and 28, according to R. Hugh Hill, local representative of the Southern Salt Company, of Norfolk, Va., to whom it will be consigned. It will be the third consignment of salt to be received at the port terminal which was opened in November 1935 and the ship which will bring it in will be the fourth vessel under a foreign flag bringing an import cargo although about 25 ships of foreign registry have visited the port to take on cargoes of scrap metal during this period.

The expected consignment will be the largest to ever reach the port with approximately 1,500 to 2,000 tons to be discharged. It will come to Morehead City from Sfax, the same salt port in Tunisia, North Africa, from which the Norwegian S. S. Samnanger (much heralded "Salt Ship") brought about 1,800 tons in 1935.

The Danish S. S. Stal is the name of the ship bringing in the cargo. Last February the Canadian S. S. Zenda, brought a cargo of 800 tons to Morehead City for Southern Salt Company from Turk's Island in the West Indies. (Continued on Page 10)

Fishing And All Outdoors

By AYCOCK BROWN

AT THE TIME I wrote Fishing and All Outdoors last week I did not know that a movement was underway to present Surf Casting Derbies on a large scale along the North Carolina coast during the coming summer. I learned that such was the case when Executive Secretary T. E. Pickard Jr., of the Governor's Hospitality wrote me this week after he had read my column in The Beaufort News. It will be good news to everyone interested in surf-casting and salt water angling to know that the fishing derbies on a large scale, to take in every section of the Carolina Coast are planned and the proposal should be given every support by every salt water community.

THE FIRST TO BREAK the proposed news in the press will be this column. We break the news by reprinting as our column today the letter from Pickard, who like many other persons think of Fishing and All Outdoor Editor Brown in the terms of "Aycock (Continued on Page 10)

TIDE TABLE

Information as to the tide at Beaufort is given in this column. The figures are approximately correct and are based on tables furnished by the U. S. Geodetic Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is whether near the inlet or at the head of the estuaries.

Covering The Waterfront

By AYCOCK BROWN

PUBLICITY IN The New York Times brings results. On January 29 Ray Camp mentioned my name as a good source for fishing information if the person seeking same was considering the Central Carolina coast. Since the column appeared I have had a dozen or more letters from people wanting fishing information. Then on Tuesday night of this week Camp again gave me a publicity break by mentioning my name in his Outdoor Sports review broadcast over a national hookup. Several persons heard the broadcast. I did not. One person told me that Camp said "... And if you want to know more about Goggle Fishing write or drop in on Aycock Brown, editor of The Beaufort News, in Beaufort, N. C., and if his stories sound too fishy go over to Piver's Island at Beaufort to the U. S. Fisheries Laboratory where Dr. Prytherch the director, another expert goggler, will verify everything Brown says.

INCIDENTALLY, another person who heard the broadcast said that Camp reported that when he was down here in North Carolina quail hunting last week that he went to Beaufort, dropped in at The Beaufort News office to talk to Aycock Brown, but he was out (Continued on page ten)

What's the Answer?

By EDWARD FINCH

WHY DO WE TREMBLE WHEN AFRAID?

TREMBLING when frightened is caused by the spasmodic working of the nerve forces which flows between brain and muscle. There is a series of repeated tiny spasms throughout the nerves of the body causing an attendant reaction in the muscles which results in what we call trembling. Intense anger, joy and certain nerve illnesses will have the same effect. © Western Newspaper Union.

'Eques Lanceolatus' Is Taken For First Time Off N.C. Coast

Eques Lanceolatus, is the scientific name; Serrana or ribbon fish is the common name, and it was caught in a trawl net off Cape Lookout last week, purchased by Tony Seaman with other fish in Morehead City and turned over to the U. S. Fisheries Station on Piver's Island where Director H. F. Prytherch will have a cast made of it for permanent display in the marine museum.

The fish is not like the common ribbon varieties of our local waters. Instead it looks more like a fowl of some kind, with its dorsal fin extending from back of head like a rooster's comb. This queer looking fish made news because it is strictly a West Indian variety and had never before been recorded north of Pensacola, Florida. It brings the total number of species recorded from nearby waters above the 300 mark.

MARCH TERM JURORS DRAWN

Judge Williams Will Preside Over Session

A one week term of superior court for the trial of criminal actions will begin in Beaufort on Monday, March 13. Judge Clawson Williams of Elizabeth City, will preside. It will be the first term of court that the formerly widely known solicitor has presided over in Carteret County.

At the regular monthly meeting of the Board of County Commissioners on Monday, jurors for the March term were drawn. The list of jurors and their addresses follow:

- C. W. Britton, Beaufort, N. C.
- Daniel Morris, Atlantic, N. C.
- J. W. Humphrey, Beaufort, N. C.
- Andrew Fulcher, Sealevel, N. C.
- J. T. Beveridge, Beaufort, N. C.
- Clarence Chadwick, Straits, N. C.
- C. H. Pringle, Newport, N. C.
- H. D. Garner, Newport, N. C.
- Harry Moore, Marshallberg, N. C.
- Leslie Rhue, Pelletier, N. C.
- F. L. Bell, Wildwood, N. C.
- R. P. Oglesby, Morehead City, N. C.
- F. E. Simmons, Newport, N. C.
- Jno. S. Jones, Pelletier, N. C.
- C. E. Millis, Newport, N. C.
- J. T. Norris, Beaufort, N. C.
