Beaufort Auction Market Re-Opens For Sale of Potatoes and Produce

Atlantic Beach Bath House To Be Open Sunday

LIFE GUARD GUTHRIE.

Atlantic Beach bath houses will be open to patrons on Sunday, May 28, and those who go to the "safest surf on the Atlantic Coast" for the swimming or sun bathing will be pleased to see LeRoy Guthrie of Morehead City on the life saving stand, in the role of chief life guard. During the 11 years he has been life-guard on Atlantic Beach his record has been perfect. He will be assisted by "Curly" Wallace of Morehead City who also has an excellent record as a life-saver.

Atlantic Beach Hotel with its dining room which features the slogan "The Sea" (Continued on page 8)

Covering The Waterfront By AYCOCK BROWN

FIRST SPANISH mackerel taken on the North Carolina coast this year with rod and reel was landed near Southport several days ago. Fifty Spanish mackerel landed on the Carteret coast with rod and reel this year were taken early this week down at Cape Lookout by Jimmy Fox, son of Mr. and Mrs. Fox of Greensboro who are vacationing down at Cape Lookout. Jimmy caught three Spanish mackerel and one bluefish as he trolled with Capt. Guy Lewis aboard the charter boat Piggie—and thus chalked up a "first of the season" record for this section.

ON WEDNESDAY, Don Jarman of Raleigh, fishing aboard Capt. Charlie Smith's cruiser landed (Continued on page 8)

My Neighbor Says:

Butter the side of the lady fingers next to the mold when making a lady-finger icebox dessert.

Roll knitted or crocheted dresses on a mauling tube and they will keep their shape. Never hang them on coat hangers.

Jellies, jams and butters should not be overcooked. If they are their flavors will be impaired and they will become too thick. They will also thicken when they cool.

Brush over the top of an unbaked pie crust with a mixture of one egg yolk combined with two tablespoons of milk. The liquid should be applied quickly with a pastry brush or a cloth firmly tied to a fork.

When storage space in a small house is valuable, a stout sack of ticking or khaki cloth fastened to the back of the largest closet door will be very useful. Card tables and other large items may be stored there.

Beaufort Farms Doing Business On Large Scale

Beaufort Farms, Inc., which is operating in Carteret County under the direction of Ray Esposito, is in the produce business on a large scale. In addition to approximately 200 acres near Beaufort devoted to truck growing of their own, the organization which Mr. Esposito directs locally will also handle the harvest of 50 acres of potatoes on the E. H. Meadows farm. His organization will also buy considerable produce from farmers in the county.

Since the bean harvest began approximately 1,000 baskets have been shipped from Beaufort Farms Inc., and additional shipments are being made daily. Beans, another vegetable grown by Beaufort Farms Inc., are moving. Marketing of Beaufort Farms Inc., is handled by M. Trombetta and Sons. Because he could not get experienced labor locally, it was necessary for Mr. Esposito to bring in a group of workers from his organization's farms in New York State, but most of the employees on Beaufort Farms Inc., are natives of Carteret County. Up to 150 persons are employed during the peak of harvesting season.

Headquarters for Beaufort Farms Inc., and M. Trombetta and Sons in Carteret County is the old Corbett Packing Company shed near the railroad spur at the electric light plant. The interior of this building has been re-constructed, to provide proper facilities for the packing of produce and tomatoes in particular. Beaufort Farms Inc., expect to start harvesting tomatoes around June 10.

PRETTY CHURCH AT CORE CREEK OPENED SUNDAY

Col. Dickinson Gave Church To Former Neighbors

REV. W. Y. STEWART PREACHED SERMON

Hundreds of persons were present for the opening of Community Church at Core Creek last Sunday, and everyone, especially those residents who will worship regularly there, were highly pleased with everything, from the minister's fine sermon to the excellent response shown by visitors, to the Community Church which Col. F. S. Dickinson, of Rutherford, N. J., built for his former neighbors.

There was no fanfare or no dedication exercises in connection with the opening of the church. It was as if the people of the community who have been worshipping in the nearby wooden structure, built a hundred or more years ago, had been going to the new church for services regularly for a long time. Unless there had been (Continued from Page 8)

DR. BANISTER'S SERMONS DELIGHT CONGREGATIONS

Forceful Preaching And Good Singing At Services

MUSIC DIRECTED BY TALENTED MRS. BARNES

There is a very general expression of delight in the splendid leadership of Doctor Banister and Mrs. Barnes in the Union Evangelistic Campaign going on at the Ann Street Methodist church of Beaufort. The folks appreciate the beautiful mellow voice of Mrs. Barnes in solo work and her very winsome way of conducting the chorus work and the singing of the congregation. Her sainted father was a great

Fort Macon State Park May Be In Line To Get Vacation Cabins Soon

State Commander American Legion Speaks Here Sund.

STATE COMMANDER Burgin Pennell of the American Legion whose home town is Asheville, will be the principal speaker at the annual Memorial Day Services of Carteret Post 99, on the Courthouse Green next Sunday afternoon at 2:00 o'clock. The public is extended a cordial invitation to attend the meeting which will feature a number of songs and music.

Annual Poppy Day Here On Saturday

Annual "Poppy Day" will be observed in Beaufort and throughout the State on Saturday. Paper poppies will be sold under the direction of the Legion Auxiliary of Carteret Post 99 by volunteer salesgirls. If you are approached by a poppy salesman, buy one, because the proceeds go to the aid of ex-soldiers in the Veterans' Hospitals.

by the Beaufort High School Band under the direction of E. P. Flint. Members of Carteret Post and all others who care to attend are urged to be present at St. Paul's Church Sunday morning at 11 o'clock when Rev. E. C. McConnell the rector will preach the annual memorial sermon. All Legionnaires and Veterans have been notified by postal card by Adjutant Wm. H. Bailey and Commander I. E. Pittman of Carteret Post to attend the exercises. On Sunday night in the Legion Hut at 7:30 o'clock, a fish fry will be served. Program of the Sunday afternoon exercises at which Commander Pennell will speak follows: 2 o'clock: Band concert; 2:30, Call to order by Commander Pittman; Invocation; Song, America and 30 silent seconds in honor of departed comrades; A selection will be rendered by the quartet. Commander R. C. Godwin, of New Bern will introduce Commander Pennell. Following his speech there will be another selection by the quartet followed by the benediction and then a selection, The Star Spangled Banner, by Director Flint's High School Band.

James L. McNair On D. of C. Board Is For Project

During the last legislature a matter of \$70,000 was allocated for State Parks, and while it was not generally known at that time, this money can and probably will be used for the construction of much needed vacation cabins in the various State Parks. As a matter of fact just about every State Park in North Carolina, (EXCEPT FORT MACON) is already getting vacation cabins. Probably it is because Fort Macon is in Carteret, a county where it is hard to get anything from the State except "promises around election time" that no cabin project has been started to date.

Col. James L. McNair, of Laurenburg and Morehead City, is a member of the State Board of Conservation and Development. He is vitally interested in the de-

Peaches Ripe On Gardner's Tree

June peaches, delicious, highly flavored peaches have been getting ripe on one of A. T. Gardner's trees at his home here since the middle of May. His peaches are the first to ripen in North Carolina, at least five or six weeks ahead of the Sandhill peaches of the State. He brought several of the peaches to the Beaufort News editor this week.

Harkers Island Ferry Schedule

Effective May 29 and during the summer months the Harkers Island Ferry will operate on the schedule which follows:

| Lvs. Harkers Island | Leave Gloucester |
|---------------------|------------------|
| 7:30 A. M. | 8:00 A. M. |
| 9:00 A. M. | 10:00 A. M. |
| 12:30 P. M. | 1:30 P. M. |
| 5:30 P. M. | 6:00 P. M. |
| 9:30 P. M. | 10:00 P. M. |

Above announcement made by Roy J. Hart, S. H. and P. W. Commission district engineer.

One of the disadvantages of modern life is the stress it puts upon the human endurance. Easy living and easy achievement have contributed greatly to making the human race effeminate, soft and weak.

The cycle of human life may be expected, in reason, to encompass a definite amount of pain, of fear, or of anguish; and without experiencing these, we might not so well be fitted to measure out kindness, and justice and charity toward our fellowman.

Unless one has the guts, his capacity for accomplishment is limited. "Guts" means the grim, unflinching determination to succeed with honor, regardless of the cost. Some success may not be worth the price, but who is there that always may fairly judge?

I have seen many deserving men struggle from small beginnings through great hardships and reverses to found a growing business just ready to flourish. With all prospects wonderfully encouraging like a sailing vessel before a fair wind, their sails have suddenly jibed across and upset their ventures.

So often, the world never knows what little bephyr blew its foul (Continued on page 3)

Potato Prices Fair As Peak Of Digging Nears

With potatoes bringing a fair price to date, the peak of the digging season from the hundreds of acres in the Beaufort area is expected to be reached during the coming week, it was stated here as we go to press today by persons closely connected with growing industry of Carteret County Coast.

Much activity is noted in the vicinity of the three grading sheds located near the intersection of Atlantic Highway and Lenoxville Road. Grading sheds now operating include D. F. Merrill's in the C. G. Gaskill building; the S. M. Jones Company and the Huntly Packing shed in his building.

Current prices today, as we go to press were \$1.25 for U. S. No. 1s. This is lower than the starting price of 1938 when No. 1s brought as high as \$1.40, but not as low as the closing prices of 1938 which was 90 cents. The foregoing prices are FOB Beaufort.

ISLAND SCHOOL WILL BE GIVEN HIGHER CREDIT

Excellent Record Made During Past Year

ALLEN GIVES OTHER SIDE OF PICTURE

The Harkers Island School, under the leadership of C. D. Chadwick, principal, has finally reached slightly above the average daily attendance of 50 high school pupils required to put that school within range of becoming an accredited high school next year for the first time in its history, according to information from Supt. Allen, whose statement was based upon attendance figures given by Mr. Chadwick Tuesday afternoon.

The putting of the Harkers Island High School on the accredited list has been a cherished goal toward which superintendent, principal, and committee have been working during the last 2 years. With this goal reached the graduates of that school would be entitled to full credit on transferring to other high schools in this county or in other counties and would be entitled to enter any North Carolina college or university, along with graduates of other high schools, without college entrance examinations. The greater variety of more practical courses of study made possible in this 50 percent increase in the size of the high school faculty, as well as a greatly enriched activity program exciting the interest of pupils and patrons, are prominent among the (Continued on Page 3)

Beach Newspaper Given Praise On Initial Edition

Atlantic Beach News which made its debut last week was an immediate success. This was proven in verbal praise by prominent citizens in Morehead City and Beaufort and by residents of the resort. Letters came from many persons receiving the newspaper in various towns and cities away from the coast. And even the press of the State, especially in New Bern, Greenville, Wilson, Raleigh, and Rocky Mount, have given the new tabloid fine expressions of congratulations and good wishes.

Five hundred copies of the first edition were disposed of in a hurry. Already the 4-page tabloid is in demand by collectors of newspaper first editions. On Friday there will be 6 pages in the Atlantic Beach News. Incidentally there will be many pictures and plenty of advertising; advertising which serves as a directory to coastal vacationists and others in this fast growing resort section. The paid subscription list of Atlantic Beach News skyrocketed immediately after its appearance.

Proper Cooperation Will Result In Better Prices

World's Record Drum Taken At Ocracoke

FRED R. STEDMAN of High Point and Ocracoke is pictured here with the largest channel bass ever taken in any method. The huge fish, weighing 75 pounds, and measuring 53 inches from tip to tip and 37 1-2 inches around the girth was landed in a net by Jamie Styron, commercial fisherman and sportsman's guide of Ocracoke. Former world record for a channel bass taken in any method was one which weighed 75 pounds and was reported by Jordan and Evermann. Listed by Field and Stream as the "largest" the Ocracoke bass takes the lead because complete measurements and other data makes it official.

Fred Stedman whose hobby is photography, has made many pictures of Ocracoke Island which have been published widely. At the present time one of his channel bass pictures is taking a ride on the national services. He sends his pictures and negatives to the editor of Fishing and All Outdoors who in turn releases them to Bill Sharpe's office.—Stedman-News Photo.)

STATE MAGAZINE PRINTED PRAISE

From the current edition of The State Magazine published by Carl Goerch is the item which follows: "AYCOCK Brown, of Beaufort, in addition to attending to about 43 other jobs, will also handle the publicity for Atlantic Beach this season. He has just come out with the first issue of the Atlantic Beach News, a paper filled with bathing beauties and facts concerning the beach."

"The coastal plain section of North Carolina owes Aycock a big debt for all the publicity he has given that section during the last decade."

Pair Of Cabbage Weigh 16 Pounds

A pair of cabbage from Manley Springle's farm near Beaufort, tipped the scales at 16 pounds or an average of eight pounds each. Brought to County Farm Agent J. O. Anthony's office here, a staff photographer of this newspaper photographer cabbage with Anthony, cabbage with Miss Hattie Styron and cabbage with Miss Ruth Lewis. As a result of it all you might be seeing those cabbage yourself (in a press picture) at an early date.

Special Services

Special services by Dr. Bannister who is conducting the Union Revival at the Ann Street Church here will be held on Friday morning at 9:30 o'clock for Sunday School officers, teachers and officials of the various churches, it was announced today.

Mount Olive Beans \$1.50; Carteret Beans \$1.00

Bill Sermons and Wayland Sermons of Greenville who attempted to maintain good prices for cabbage as the harvest began, through the operation of Beaufort Auction Market, but had to close down when overproduction reduced prices to such an extent

Worth Considering
In Mount Olive where a produce auction market operates successfully, the price of beans early Wednesday were \$1.50 per crate. In Carteret County, the same kind of beans were bringing only \$1. It proves what an auction mart can do in stabilizing and increasing prices for produce.

that it was impossible to operate profitably for the farmers, and due to lack of demand for the commodity, re-opened the market today to handle beans, potatoes, and any other produce, which Carteret farmers care to sell to competitive bidders.

Bell Sermons stated today that he was expecting several buyers here as the market opened and

Interest in Beaufort Auction Market has spread outside of Carteret County. B. C. Robbins, of (Continued on Page 8)

Fishing And All Outdoors By AYCOCK BROWN

SURF CASTERS, especially those who fish the flood tide in the vicinity of the Boardwalk on Atlantic Beach are still making catches. In this immediate territory no Channel Bass have been taken, but Salesman Carnegie of Charlotte proved last week that it was practical to cast with light tackle. He landed the first sheepsteak ever taken in the surf by a aster on Wednesday, or the first one which has ever been taken along the open beach and directly in front of the hotel. If his catch had been made in the vicinity of hat old wreck up towards Salter bath, it would not have been unusual—because they are plentiful in that vicinity. Salesman Carnegie also landed a batch of sea mullets, and he gave a nice string of fish to one of the Lassiter children.

(Continued on Page 3)

TIDE TABLE

Information as to the tide at Beaufort is given in this column. The figures are approximately correct and are based on tables furnished by the U. S. Geodetic Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is whether near the inlet or at the head of the estuaries.
