Fishing And All Outdoors

By AYCOCK BROWN

(Continued from page one)

that seldom bothers the people, the crops of the fishing on the subtropical coastland of North Carolina, and I say that with the sincerity of a Chamber of Commerce secretary who likes to tell the world about it—as well as the fine fishing which has attracted more anglers this year from other States than ever before.

FISH OTHER than channel bass and bluefish will be eligible for prizes offered in local communities along the coast in locally-sponsored contests. The local contests, or several of them have been announced already. On the South Coast of Dare County, the committee headed by Tom Eaton is offering two round trip tickets from the mainland at Englehard to Hatteras village aboard the Hade-co, freight and passenger boat operated by the Hatteras Development Company, to the person who catches the largest fish other than Bluefish or channel bass.

IN THE BEAUFORT-Morehead City area, local prizes will be given by at least two hardware firms, Carteret Hardware in Beaufort and Hardware and Building Supplies Corporation in Morehead City. Plans are underway down on Ocracoke to give local prizes for channel bass taken by boat casters and for other fish.

COAST-WIDE PRIZES Coastwise prizes for the largest channel bass (drum) will be: Punch bowl set of Kensington metal, handsomely engraved and with North Carolina State Seal on side, consisting of tray, 6-quart punchbowl and 18 cups. Name of winner and description of fish will be engraved on bowl.

For largest bluefish: Set of 12 cups of Kensington metal, tray and large ice bowl and tongs. North Carolina seal, name of winner and description of fish will be engraved on ice bowl, coasters of same metal with each cup and tray will also be engraved.

These fine prizes are worth fishing for. Regional prizes, i.e. for the largest fish taken in each of the three regions will also win prizes. For the largest channel bass in each region, the winner will be awarded surf casting rod. For the largest bluefish, salt-water fishing equipment.

RULES OF CONTEST Rules, just released by the Governor's Hospitality Committee, relative to the contest follow:

1. The First Annual Surf Casting Tournament shall be open to all amateur anglers, male and female, except guides, boatmen and professional fishermen, from the first day of May, 1939, and shall continue until sundown of September thirtieth, (30), 1939. No entry fee or license shall be required.

2. All fish must be taken on rod, reel and line, the latter not to be over 18 thread.

3. Entrants must land fish without assistance from companions, and without the use of gaff or net. A broken rod automatically disqualifies the catch.

4. All fish must be taken from the beach. Casting may be done either from the sound side or the ocean side.

5. Any live bait or artificial lure is permissible.

6. All fish entered in this contest must be weighed at weighing stations officially designated as such by the Regional Contest Committee. The location of such places are to be found elsewhere among Rules and Regulations. In the event a catch cannot be conveniently weighed at an official station, weight must be obtained from standard scales and affidavit from persons weighing the fish.

7. Entry blanks of each catch entered for prizes must be put into the hands of the chairman of the contest committee in the region in which the catch was made either in person, by mail, or by messenger. Contest entries for prizes will be void unless put into the hands of the chairman within one week after catch is made. Each catch entered in the contest must be certified to by at least one member of the regional contest committee.

8. All catches shall be approved by the regional contest committee and its decision in the matter shall be final.

9. In order that all entries for prizes shall be given official consideration by the Regional Contest Committee, all information asked for on the entry blank is completely filled out.

10. Any protest against an entry must be made in writing and

A new ship with an old name, the 34,000-ton Cunard-White Star liner Mauretania is shown in her dock at Birkenhead, England. The new liner will leave Southampton Saturday on her maiden voyage to New York city.

Many From Other States Fishing On Coast Of Carolina

More fishermen from other states are fishing for channel bass or (drum), bluefish and other ocean fish along the North Carolina coast from Nags Head down to Cape Hatteras now than have ever been seen in those parts before according to reports being received by the Department of Conservation and Development from Manteo, Oregon inlet and Hatteras, and even down as far as Ocracoke. For several weeks now hotel and fishing camp accommodations have been filled to capacity and the reservations keep pouring in everyday.

"It is the best fishing season we

filed with the chairman of the region in which the fish was caught, within two weeks of receipt of entry.

11. This contest shall be divided into three (3) regions, each having headquarters located in a convenient spot to the entire region. Fish caught in one region shall be eligible for prizes only in that region and for state prizes. The regions of this contest are defined below.

REGION NO. 2. To cover territory from the South side of Hatteras Inlet to the North side of New River Inlet. Headquarters, Beaufort, N. C. Aycock Brown, Regional Chairman, Beaufort, N. C.

REGION NO. 2. Beaufort, Regional Headquarters: Weighing Station: Carteret Hardware Co., Regional Committee Chairman, Aycock Brown. Local Committee for Beaufort: Graham Duncan, Jr., Chairman, Tobe Clawson, Hardware and Building Supplies Corp., Local Contest Committee for Morehead City: Wade Neal, Chairman; J. W. Bridgers, Herbert Utley.

Ocracoke Island: Weighing station, Garrish Store, J. D. Garrish, weigher. Local Contest Committee: James D. Garrish, Chairman, David Gaskill, Wahab Howard, Charles McWilliams.

Atlantic and Drum Inlet: Weighing Station: Winston Hill Store, Winston Hill, weigher. Local Contest Committee: Winston Hill Chairman, Ralph Nelson, Cecil Morris.

DRUMS and Drum Inlet: (Cape Lookout Area) Weighing Station, Paul's Fish House. Local Contest Committee: Blakely Pond, Chairman, Minor Davis, Ammie Willis.

Indiana Tests Drunken Drivers

Indiana became Thursday the first state to provide that courts may recognize scientific tests for intoxication as evidence in cases involving drunken and reckless driving. The new Indiana law provides for analysis of breath and body fluids similar to that shown above in which a model's breath, blown into a balloon, is being tested for alcohol content.

fore being rescued by Tom Eaton's boat, "The Rescue."

From now on, emphasis on fishing from this point will be on the Gulf Stream. Amberjack, barracuda, dolphin, bonita swarm over the old wrecks, some of them centuries old, which lie on the shoals. Only shallow draft boats can get to the best grounds. The Tennessee party, novice and landlubbers, ruefully reported that they lost more dolphin than they caught "We horsed them too much," said Bassett.

First Cabio

OCRACOKE, June 15—The first cabio caught with hook and line this season was landed here last week by Captain Ed Fulcher. It weighed 15 pounds, and gave Captain Fulcher, who is four-score years old, a good fight.

Cabio fishing is a relatively new sport on this coast. Called "coal-fish" by commercial net-men, the cabio has for many years been found in nets. A few years ago fishermen began to take the fish on their lines. In 1938 a sportsman got the thrill of his life when he hooked a 50-pounder off this island. That started sportsmen going after the cabio in earnest and last year a number were taken.

Too Much Menhaden

HATTERAS, June 15—Huge schools of fatback (menhaden) are playing ned with drum fishermen, says Tom Eaton, the Duke of Hatteras. Last week Eaton flew over the waters and sighted tremendous schools of channel bass below. They were in huge slicks of menhaden, feeding and throwing the fish into the air. "They're so fat and lazy they won't take bait," said Eaton.

Nevertheless, surf fishermen are not doing so badly. One party at Hatteras caught 17 drum during moon tide and on the same light at Ocracoke, 18 drum were taken by a night-fishing party.

POTPOURRI

Snow

Snow is not always white. Red and green snow, so colored because of organisms living in the flakes, have been known to fall in northern climates. It is usually white, however, because of the reflection of light on the crystals. Snow crystals always have six sides or points—never five or seven.

Will New Jersey Legalize This?

Photographs shows typical pari-mutuel horse race betting machines which will become legal in New Jersey if that state adopts a referendum measure being voted Tuesday. Reverend Lester H. Cleo, former state senator and Republican candidate for governor in 1937, has been leading a state-wide fight against the measure.

International

Ten cotton exporting countries have been invited by the U. S. Department of Agriculture to send representatives to Washington for a meeting beginning September 5, to discuss a world cotton agreement.

ed roughly to cost the United States about \$100,000,000 a year, according to a report of the Soil Conservation Service.

Increase

The U. S. Department of Commerce estimates that national income in the first four months of 1939 totaled \$21,561,000,000, a gain of 2 per cent over the corresponding period of last year.
