Mart Helps Growers

Best In The State

C. S. Long, teacher of agriculture in the Newport School, has been selected out of 335 Agricultural teachers as the Master Teacher for North Carolina during the past year.

Mr. Roy H. Thomas, State supervisor of agricultural education, states that Long, as teacher of Agriculture in the Newport High School, Carteret County, has established an outstanding record during the past eight years. A native of this state, he was graduated with honors at N. C. State College in 1930 and was chosen to head the new department at Newport.

The Chilean Nitrate Educational Bureau, Inc., offers an award for the Master Teacher selected each year. Long, will attend the National F. F. A. Convention and American Royal Livestock Show held this fall in Kansas City, Mo., all expenses paid by the above mentioned firm.

IT HAS OCCURRED to me several times that the North Carolina Coast should be advertised as a single unit. Instead of the several communities and resorts pulling against each other, they would each reap great profits and greater satisfaction by pulling together. MANY TOURISTS come to Nags Head, or to Beaufort, for instance, and having stayed out their stay, go on to some other state without having gotten a real glimpse of the vivid life and color of the North Carolina Coast that truly entrances those who remain a long time.

WHAT IF THE one community made a special effort, when a tourist had concluded his visit, to get him to visit another community in another county?

WHEN WE KNOW some visitor has finished in Dare County, why not encourage him to stop in Carteret; and vice versa?

I WAS IMPRESSED this week in reading of the rices asked for lots in Myrtle Beach, South Caro-

Average Prices For Tomatoes Are Very Good

Thousands of bushels of tomatoes which have passed through Beaufort Auction Market during the past week brought to growers from twenty-five cents to a dollar and a quarter more than they had not sold through the Chamber of Commerce sponsored produce exchange. Bill Sermons, the auctioneer is doing a good job. He knows his business and has gained the confidence of buyers and sellers.

Highest prices paid for tomatoes since the market opened was \$2.25 per bushel. Hardly a day has passed but what the average price ranged from \$1.50 to \$1.65 per bushel.

County Farm Agent J. O. Anthony who is cooperating with buyers, sellers and growers, urges all who have tomatoes for sale through auction market to have them graded properly. Farmers are only hurting themselves when they try and deceive buyers at the auction by placing the large tomatoes on top of the basket and small inferior tomatoes on the bottom. Growers are not doing the market any good when they try and sell inferior quality tomatoes, as was proven this week when certain types of culls brought only 60 or 70 cents per bushel or lower.

Merchants Urged To Display Glads During Festival

Merchants and business firms along Front Street and the line of march for the parade are urged to display Gladiolus in their windows on Friday and throughout the Festival starting Friday. Local growers have arranged to sell flowers at a reasonable price for this purpose. The growers whom merchants should contact for flowers are H. B. Avery and S. E. Hayne. For only a few cents, merchants of Beaufort can display Gladiolus in their windows, adding to the attractiveness of the event, and also showing visitors to our town that we are interested in showing off these flowers which are grown commercially and which are making our famed section known throughout the country as a flower growing locality.

CURIOUS CUKE

A curious Siamese twin-like cucumber weighing several pounds was harvested by John Chapman in his garden near the schoolhouse this week. It was sent to the editor of the Beaufort News, where many queer shaped vegetables and oddities in general eventually find their way. The cucumber oddity is the first queer looking vegetable received at The Beaufort News office since Jack Humphrey brought in the giant radish which measured three feet in length from tip of root to tip of green top.

lina, the re-eminent resort of the Palmetto State. Prices ranged from \$700 to 1,375.

Beautiful And Well-Trained Drum Majorettes— FEATURE OF GLADIOLUS FESTIVAL PARADE FRIDAY

EXCITING FEATURE of the first annual Gladiolus Festival Parade, scheduled to be held on Front Street Friday morning shortly after 11 o'clock will be the Goldsboro Junior Drum and Bugle Corps under the direction of J. Robert Moore. Fifty youths are in the group and the organization has appeared in festivals and parades throughout the East since it was organized. In the above picture you see the drum-majorettes attached to the corps. Senior drum majors in the foreground are Marjorie Sutton and Frances Gaddy. On the steps are Fannie Parker, Dorene Brown and Margaret McIntyre. Other musical feature of parade will be Flint's Beaufort Band, which will be in the lead. (NEWS PHOTO)

PROCLAMATION

In view of the fact that The Chamber of Commerce of Beaufort has made extensive plans for the celebration of "Gladiolus Festival"; that our citizens in general are preparing for the occasion with much interest and enthusiasm, and that our people, as a whole in Beaufort and its environs are much interested in the event—

In view of the further fact that the Gladiolus is a flower which has been grown with much success commercially in this section, and has been an important item in giving Beaufort much national publicity, I, George W. Huntley, Mayor of the Town of Beaufort, do proclaim Friday, Saturday, and Sunday, June 23rd, 24th and 25th, 1939, Gladiolus Festival Days in the Town of Beaufort, and call upon and sincerely hope all our citizens will cooperate with this event to the end that it shall be successful.

As Mayor, I extend to all people a most cordial welcome and invitation to make frequent visits to Beaufort in the future, and to participate in the excitement and festivities of the first annual Gladiolus Festival.
GEORGE W. HUNTLEY,
Mayor Town of Beaufort.

Fishing And All Outdoors By AYCOCK BROWN

THE IDEA might seem just a bit screwy, but it popped in my head last Saturday while flying low over the waters of Beaufort Inlet and Atlantic Beach with Dave Driskill in his Stinson, and I am determined to try it out some time. When I can find an aviator who will fly me to the outer end of Lookout or Diamond Shoals, over the western edge of the Gulf Stream I hope we can flush a school of dolphin, which will have enough sporting instinct to give us rascals. I have seen dolphin travel I believe at a hundred miles an hour. The average plane would make the same speed and I want to try out such a race between fish and plane, if for no other reason, just for the hell of it.

(Continued on page 3)

AQUACADE

All championship swimmers forming Goldsboro team will participate in Aquacade at Inlet Inn pier Friday, 1:30 P. M.

Many Fast Crafts Entered In Races Here Next Sunday

Many fast boats, from many different towns and cities will be entering the motor boat races here on Sunday afternoon, it was stated today by Charles W. Britton, Chairman of the Race Committee. The Carolina Outboard Association of Wilmington stated in a wire that 10 outfits could be expected from that organization. Five or six drivers are coming from New Bern, a team of 12 boats are expected from Richmond Kinston drivers will be entered, and as we go to press today Fred Goldston of Lake Waccamaw wired that unless something unforeseen occurred, at least three crafts, two Class A's and one Class C runabouts could be expected.

Speed Boat Race program follows: 1 P. M. Class A Runabout (with service motors); 2 P. M. Class C Runabout (with service motors); 2:30 P. M. Class A Hydroplane; 3:30 P. M. Class B Hydroplane; 4 P. M. Class E Runabout; 2:25 Hydroplane; 4:30 P. M. and 5 P. M. Free For All.

Stage Is Set For Festival

Gladiolus Festival PARADE

FRIDAY A. M.
11:15 O'Clock

Grayden M. Paul
Chief Marshall

Line of March: Along Front Street to Live Oak or farther.

- 28.—Clown Band.
- 29.—The Duchess.
- 30.—Coastal Festival.

(The foregoing is only temporary and Grayden Paul, Chief Marshall will give every cooperation in placing parade entries to suit the entrants.)

Highway Patrolmen To Help Take Care Of Parade Traffic

Although many persons hereabouts may not have considered the traffic situation seriously at parade time on Friday morning, the committee in charge of the Gladiolus Festival have taken this into consideration. Chief Walter R. Longest and local police will be assisted by at least six, possibly 10 State Highway Police in handling the traffic. The State Patrolmen will be under the supervision of Sergeant Bissette of New Bern. The parade will start at 11:15 o'clock, but traffic police will start clearing streets of parked cars about 10:30. To give visiting motorists a chance to find parking space on streets away from Front and to relieve the congestion, local owners are urged by Festival and Town officials to leave their cars at home or at any rate co-operate by parking away from downtown area.

Three Day Event To Begin With Fri. Parade

The stage is set for the first annual Gladiolus Festival and the showers which came at noon today instead of dampening the spirits of the many citizens who have shown such a tremendous amount of cooperative interest in the event during the past week believed that the rains would be a matter of fact break the hot weather which has had even residents of the coastland sweltering during the past few days. Although the dog-ears in today's dailies indicated there would be showers on Friday—nothing but a downpour will prevent the street parade from starting on schedule at 11:15 o'clock. The parade will not start until the Goldsboro Junior Drum and Bugle Corps and swimming team arrive on the morning train to the coast advised J. Robert Moore, director of the Wayne capital musical group that he would arrive on time.

If the parade is a success, much credit should go to J. Robert Moore, the British born musical director from Goldsboro. Since Saturday he has been making local contacts and securing new features for the parade, making arrangements for the housing of the youngsters in the band, and the housing of the girls in the band and aquacade team in private homes. Moore leaves for Goldsboro today to give his group last minute rehearsals before accompanying them to the coast.

The finance committee has not secured all the necessary funds needed for presenting the events planned, but it appears that the amount necessary, a minimum of \$750 is in sight. Several generous contributions had swelled the

TIDE TABLE

Information as to the tide at Beaufort is given in this column. The figures are approximately correct and are based on tables furnished by the U. S. Geodetic Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is whether near the inlet or at the head of the estuaries.
