THAT SEVEN foot alligator which was placed in a pool on Pier's Island early this week caused lenty of excitement Wednesday afternoon and night. When efforts were made to move it from ne pool to another more suitable it was placed first in a wheel barrow, but that did not suit the 'gaitor so it tried to take a hunk out of the barrow. Finally the huge reptile had to be dragged from one pool to another. I was waiting to get a picture as it was placed into the new pool, but was not fast enough. Thinking I had missed my best picture I was on the verge of giving the job up and saving a flashlight bulb. Then suddenly the alligator made a lunge towards me and the camera (Continued on Page 8)

TIDE TABLE

Information as to the tide at Beaufort is given in this column. The figures are approximately correct and are based on tables furnished by the U. S. Geodetic Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is whether near the inlet or at the head of the estuaries.
