

## Miss Arrington's Number 20 Won Diamond Back Terrapin Derby Held Here This Week

### Universal And Fox Movietone Complete Terrapin Pictures

Tye Sanders of Universal News Reel and M. D. Cooke, of Fox Movietone completed a series of moving pictures on Diamond Back Terrapin propagation on Pivers Island last week-end. It took three days to complete the sequence which when flashed on the screen will show the entire life's history of diamond back terrapins from the egg-laying and hatching stage to the adult stage of the reptiles.

Universal will feature in its release, Capt. Charles Hatsell who for many years has had charge of terrapin propagation on Pivers Island where the U. S. Bureau of Fisheries under the direction of Dr. Herbert F. Prytherch is located. Both cameramen expressed the opinion that the propagation sequences would be used as full length features. Each cameraman shot about 1,200 feet of film.

When released the pictures will not only show how under the direction of the U. S. Fisheries Station here the Diamond Back Terrapin (a reptilian delicacy which in the old days brought as high as \$96 per dozen) have been saved from extinction, but also they will show the world's only terrapin propagation farm and, incidentally—Beaufort will reap much publicity from the movies, which will be seen by millions of people.

### Children Had Their Baby Terrapin Races

#### NEWSREEL OF EVENTS MADE BY MOVIE TONE

Miss Mary Arrington saw her Diamond Back Terrapin number 20 cross the finish line first on Monday and thus won the superlative honors of being the first contestant to ever enter a winning terrapin in any race of this kind. That was because the Diamond Back Derby on Pivers Island near Duke property on Monday afternoon was the first event of its kind ever held.

It was hard to determine whose terrapins were runnersups in the race, because by the time the slow crawling reptiles had covered the course (about 50 yards over the beach from highwater mark to water's edge) there was so much excitement among the racers and the audience that no accurate record was kept. Finally it was decided by M. D. Cooke of Fox Movietone, that Number 13, entered by Lucille Thomas of Beaufort and number 11 entered by Lois Lee reached the

## GILLIKIN AND KID ROWE TOP BOXING CARD

### Allston Presents 5 Bouts In The Casino Fri.

Henry Gillikin will meet Kid Rowe of Jacksonville to top the card on Frank Allston's boxing show in The Casino on Atlantic Beach Friday night. While no details were given as to the record of Rowe, it is understood that he is probably the best match for Gillikin to be presented in The Casino Arena this year. Gillikin however has proven that he can not only take it but also give plenty in return, so naturally he is the favorite for winner.

The Gillikin-Rowe bout will be four rounds. Four other matches, each of six rounds will be presented during the evening. They will be as follows:  
Birdie Hill, Harlowe vs. Happy Jarman, New Bern;  
Rocky Raynor, Atlantic Beach vs. Bennie Harding, New Bern;  
Donnie Powers, Harlowe vs. Arthur Styron, New Bern and George Best, New Bern, vs. Sherman McLaurin.

### Charlie Wood's Orchestra Plays In Casino Sat.

Charlie Wood and His Orchestra voted the most popular musical outfit at the University of North Carolina during the past year will play for the Saturday night dance in Atlantic Beach Casino. On Sunday afternoon the orchestra will play for a free concert on the beach. Jean Chandler, vocalist, is featured by the orchestra.

## BRIDGE

Harkers Island residents, almost 100 percent are signing a petition this week requesting the State Highway and Public Works Commission to build the proposed bridge to the mainland from the west end of the island to Lenoxville Point in preference to the proposed route from Straits to the island, it was learned here today. The petitioners are signing a paper which asks that the building of the bridge be postponed if monies are not available at present, rather than build the structure via Straits which would make the route up to 15 miles farther, to Beaufort the county seat and trading center, than if it was built via Lenoxville. Beaufort News will welcome pro and con letters from readers relative to the route if letters are not too long, (300 words approximately) for publication.

### Coast Guard Men Given Promotion

CHIEF BOATSWAIN Walter G. Etheridge, formerly in charge of Nags Head Coast Guard Station succeeded Commander C. G. Sullivan as officer in charge of the Elizabeth City office of the Coast Guard, an important post due to its direct association with many stations along the coast.—(Dare County Times Photo).

COMMANDER C. J. Sullivan formerly in charge of Coast Guard Headquarters Office in Elizabeth City has been transferred to the Norfolk Division office and in the future will have direct command over all the shore stations in several Atlantic coast States, including North Carolina.—(Dare County Times Photo).

## CARTERET MEN ATTEND E. CITY SPUD MEETING

### County Agent Plans Similar Meeting In Beaufort

County Agent J. Y. Lassiter accompanied by W. Z. McCabe, George Ball and C. T. Eubanks, prominent farmers of Carteret attended the joint meeting of potato growers of North Carolina and Virginia which was held in Elizabeth City last Friday. "The meeting was formulated by the North Carolina Extension Service, the State Department of Agriculture and the N. C. Producers and Growers Cooperative Association for the purpose of bringing about better conditions for growers and those who depend on potatoes for a livelihood," said County Agent Lassiter.

"It is hoped," he added "that by these various departments getting together, the potato situation could be discussed with the thought in view of formulating programs which would mean a better income to the potato grower." As a result of the meeting in Elizabeth City, Carteret representatives came to conclusion that a county wide meeting in the interest of potato growers should be held and it is planned to have same in the Courthouse in Beaufort. (Continued on Page 3)

### TED RICHARDS TO STUDY ART

Ted Richards of Beaufort has enrolled in the commercial art classes of the Art Institute of Pittsburgh, Pennsylvania's oldest and largest art school, and his studies will begin on September 11.

## ROTARY REGATTA

Additional Action And Excitement During Sailboat Races Here September 3, Will Be Presented By Goldsboro Drum and Bugle Corps

Beaufort Rotary Club will sponsor a Labor Day eve sailboat regatta here on Sunday afternoon, September 3, and adding excitement and an unusual feature to the event will be the appearance of Bob Moore's famous Goldsboro Junior Drum and Bugle corps.

Graham Duncan, Grayden Paul, and Edgar Swan are on the Rotary Committee in charge of the races, and all persons who wish to enter boats are urged to register as early as possible with either of

these persons. Out of town entries who wish to register are advised to see Mr. Duncan at his office on Front Street located over City Grocery Company.

Final arrangements for bringing the Drum and Bugle Corps back to Beaufort again were completed on Wednesday. Their drills will be presented on Front Street in the block along the waterfront at Inlet Inn dock. To avoid congestion and give the youngsters plenty of room to drill one block of the street will be roped off for several hours on the day of the regatta.

## Carteret County Schools Will Open On September 14th

### Tennis Trophy.

A trophy cup will be presented in the coming tournament sponsored by the Beaufort Tennis Association. The trophy, will remain the property of the association until one person has won it for three consecutive years, it was stated today by Tennis Club officials.

### Interest Shown In Net Tourney

James Biggs of the Beaufort Tennis Association stated today that about 30 persons would take part in the preliminaries leading up to the Autumn Tourney, scheduled to begin on or about September 1. Most of the players who will participate in the tourney are residents of Beaufort. Anyone wishing to enter the tourney or secure privileges for playing on the courts should contact Mr. Biggs at his Shoe Rebuilding firm on Front Street.

The tournament will be played on the courts at the Beaufort School. Equipment for the new asphalt courts, just completed at Community Center will be installed at an early date by the local tennis association, Mr. Biggs stated. The Community Center courts built under the direction of P. K. Ball are expected to prove quite popular with players during coming months.

### Traveling Turtle.

Carlton Salter formerly with the U. S. Bureau of Fisheries, but now connected with the Tennessee Valley Authority who has been spending his vacation here in Carteret, landed a 50-pound loggerhead turtle one day this week bearing a tag which indicated that the reptile had been captured once before by Herb Smith of Bridgeton, N. J., in 1933. He presented the turtle to Dr. H. F. Prytherch, director of the Fisheries Laboratory in Beaufort, who plans to re-tag the turtle and send it on its travels again.

### Bardens Plan To Leave Cape Today

Congressman Barden and his family who have been vacationing at Cape Lookout for the past several days were planning to leave there today. The Beaufort News was advised by Mrs. Barden this morning.

### Senator Reynold's Secretary, Wesley McDonald On Coast

Wesley McDonald, legal resident of Morehead City, who spends most of his time in Washington, D. C., taking care of the affairs of Senator Bob Reynolds in the role of secretary, has been spending his vacation on the Carteret Coast. He has been stopping at the home of Mrs. Charles Tolson in Morehead City. While Wesley enjoyed the fishing on the Carteret Coast, Senator Reynolds has been vacationing in Naples, Italy.

### Interested

This year more than 53 percent of North Carolina's farmers attended meetings or demonstrations held by their county agents, a recent survey revealed.

## Dean Noe Is Vacationing In Beaufort— Preaching At Core Creek Sun. Night

Rev. Is. Noe, rector of St. James Church in Memphis, and former dean of fashionable St. Mary's Cathedral of that city, arrived in Beaufort, Wednesday week's vacation. Thousands of persons who heard him preach on the coast last summer are welcoming him back home. At the invitation of Rev. Bill Stewart, Dean Noe, will preach at the evening worship in Core Creek Community Church Sunday evening at 8 o'clock. Everyone is invited to attend the services and hear the illustrious theologian preach. Dean Noe is shown at right and Core Creek Community Church is shown in photo below.—(Eubanks News Photo).

DEAN NOE

## ROTARIANS HAD TUESDAY MEET AT CORE CREEK

### Rotary Anns And Many Guests Present

Upon the invitation of Rotarian Bill Stewart, pastor of non-sectarian Core Creek Church, which was recently completed and presented to the good people of that community by a person who did not forget his friends back home, the Beaufort Rotary Club held its regular weekly meeting in the Community House, part of the church properties. Official hosts of the community present at the meeting to greet the Beaufort Rotarians and Rotary Anns were Curtis Dickinson, Mr. and Mrs. Dave Merrill and Rev. Mr. Stewart and Mrs. Stewart.

The meeting was purely social and no Rotary business was discussed or taken up during the evening. Following invocation by Rotarian Ben Gehring, Graydon Paul led a number of familiar Rotary songs. Delicious barbecue, prepared for the occasion by Stanley's Place, pickles, lemonade, cornbread, slaw were served. Jake Miller, Warden Lewis Woodard and Bill Stewart were in charge of all arrangements and they did a

## Record Bluefish Catch From Surf Near Drum Inlet

A record catch of bluefish to be taken by surf casters was made at Drum Inlet Wednesday by Sam Fulp and Grady Sheet of Winston-Salem. Guided by Capt. Nelson at Capt. Ralph Nelson's camp on the north side of the inlet the party landed 174 blue averaging one and one-half pounds each. In addition to the blues, 10 channel bass were landed.

## SURVEY

Beaufort and Morehead City will cooperate in getting a Real Property Survey of the two towns in the very near future. The project is sponsored cooperatively by the two towns, (will cost very little to each) and the WPA will furnish the staff of experts to complete the work. W. H. Levitt, WPA State Survey Supervisor; Stanley Stevens, N. C. Planning Board Staff and A. R. Wood, area supervisor were in Carteret today completing plans for the work to start. The work will start September 11, and give employment to about 30 white collared white and colored WPA workers. The survey will be most complete in detail.

## Fishing And All Outdoors By AYCOCK BROWN

GULF STREAM fish have been taken closer inshore this year than ever before. Dolphin by the dozens have been caught by trollers in Hatteras Bight, Ocracoke Inlet and even in the vicinity of Beaufort Inlet and Lookout Bight. And North Carolina's share of that blue stream of water ever moving north eastward, and the fish taken as a result of it flowing so closely to our coast has been responsible for the biggest fishing news of the nation being centered right here at our front doors this year. Down in Florida it is not considered news of any importance when a blue marlin, a barracuda, sailfish or tarpon is taken. Dolphin, amberjack and cero are commonplace.

HERE ON OUR coast it was big news early this season when any of these species were taken—but no longer. That 593-pound blue marlin taken off Hatteras by Marshall Dana of Cincinnati, largest ever taken so far north along the coast, the many sailfish taken off Cape Lookout, the barracuda off Southport and later off Lookout, along with the other gamier species have definitely placed North Carolina into the spotlight of the nation as a salt water game fishing state. It has all resulted in more anglers coming to the coast than ever before. If you hear a guide grumbling about business being poor—take a look at his equipment. The chances are that he is not properly equipped, or is afraid

(Continued on Page 8)

## TIDE TABLE

Information as to the tide at Beaufort is given in this column. The figures are approximately correct and are based on tables furnished by the U. S. Geologic Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is whether near the inlet or at the head of the estuaries.
