Judge Hamilton-Hassell and Holland— Busy Officials of Superior Court

BUSIEST OFFICIALS of Carteret Superior Court last week were Judge Luther Hamilton seated between the flags of our Country and North Carolina, Veteran Clerk of Superior Court L. W. Hassell, standing and Sheriff C. G. Holland seated at right. Another busy man who played an important role was Solicitor Dave Clark who is not shown. From the Bench, the efficiency of both Clerk Hassell and Sheriff Holland was praised by Judge Hamilton. And incidentally, it has been law of this State for a half Century that flag of State and Nation be displayed in courtroom, but it was not until last week that flags made their appearance in the Carteret Court room—(Photo Shop Picture by Roy Eubanks.)

72 Years In Prison Sentences Dealt Out By Superior Court

Carteret Plugged By Guest Editor WPTF Program

Thousands of persons along the Central Coast were tuned in on Radio Station WPTF's "Sunday Editor" program last Sunday to hear Editor Aycock Brown make his first broadcast and to see if he sounds as hay-wire-ish on the air, as he does in an ordinary conversation. Many persons have complimented The Beaufort News editor and Bob Pomeranz, WPTF's publicity director has written that much good comment had been heard around the studio of the popular Raleigh radio station which is owned by Durham Life Insurance Company. Several, whose radios were out of commission, have requested that the continuity or text of talk be published, and to give readers an opportunity of seeing how their editor tried to plug his home-town and Coastal Carteret—the complete continuity is reprinted on Page 7 this edition.

Snyder Slayers Are Given Suspended Sentences

Prison sentences totaling 60 years, (not including 12 of which were suspended) was the record of any Superior Court in Carteret County which was dealt out by native born Judge Luther Hamilton here last week. And Carteret Superior Court appeared at a profit, which has not always been the case during past sessions.

Credit for the general round up of criminals in Carteret goes to Sheriff C. G. Holland; credit for an

Clerk's Office Is Praised By Judge

High praise for the efficiency of the Clerk of Superior Court's office was given from the Bench by Judge Hamilton during Court-week. In addition to praising the efficient record keeping system and the duties of Clerk L. W. Hassell and his assistant Mrs. Eva Bravaldo—he spoke very highly of the new card indexing system of law violators in the County during the past 25 years. This indexing system makes it possible to find the complete Carteret criminal record of any person ever in court before, in just a few seconds where in the old days it took many minutes.

efficient and profit-making court week goes to L. W. Hassell and his assistant Mrs. Eva Bravaldo of the Superior Court Clerk's office; and further credit for bringing gandom to justice and subsequent trips to the penitentiary where they will be out of circulation for some time to come, goes to Solicitor Dave Clark and Judge Hamilton.

Drawing the greatest number of years in prison was Harvey Fillingame, slayer of Charles Adams, 25-year-old Morehead City fisherman on the eve of New Year's Eve at Steve Cromartis' hotspot "Currie's Villa" on Money Island Beach who was sentenced to 20 years. As accessories to the murder and a series of other crimes from auto

HIGH RANKING COAST GUARDS ATTEND RITES

Capt. Leslie Moore Passed Saturday In Baltimore

High ranking members of the United States Coast Guard and his former shipmates of the Service from land and sea units attended the funeral rites in Morehead City on Monday afternoon for Chief Boatswain Leslie Moore, one time in charge of Cape Lookout Station but attached to C. G. (L) Headquarters in Washington since December 3, 1935. He died in a Baltimore hospital last Saturday following a long illness.

Capt. Moore was buried with full military honors, the pall-bearers being fellow Coast Guard officers, the body bearers, members of the crew of the patrol boat McLane of Morehead City, with a squad from the McLane firing a farewell salute. Corporal Williams bugler of Troop "A" State Highway Patrol, stationed in Greenville blew taps and a large detachment of Patrol members under the command of Sergeant J. A. Merritt, of Kinston, were present to pay homage to an outstanding member of the Coast Guard and handle traffic. Final committal rites were conducted by Masonic Lodge No. 405 of Morehead City. Funeral services conducted at the home of Mr. and Mrs. W. H. Guthrie of Morehead City, were conducted by Rev. R. Cole Lee. Son of the late Alfred and Char-

Board Hears Tax Valuation Group

The Carteret Board of Equalization which held a two day session here this week reduced valuation on business property front footage in Beaufort and heard persons interested in menhaden processing plants. No definite action was taken on the menhaden plants. Plans are to have professional Board of Appraisers come into the County and place valuation on these properties.

New Resolution On Bridge T oHarkers Island Is adopted

Seeing a possibility of losing the opportunity to share in the funds allocated by the WPA for the construction of a bridge to Harkers Island, the County Board of Commissioners passed a Resolution this week to be forwarded District Headquarters of the Highway Commission favoring the construction from Straits to Island, rather than having no bridge at all. What action will be taken now remains to be proven. Letters about bridge elsewhere in this edition.

Bamby Bread Is Making Coastal Debut Thursday

Effective today, the Royal Baking Company, one of Eastern North Carolina's foremost bakeries for 24 years, will start a daily delivery service in Beaufort and other Carteret County Communities.

Founded in 1916 by the late Bartholomew Streb, whose one ambition was to produce only quality products, the Royal Bakery has a phenomenal growth and has opened new territory as the opportunity presented itself.

Daily huge trucks will bring into this territory a complete assortment of fresh Bamby Breads and Royal Cakes. Special orders for parties and entertainments can be obtained from local grocer.

The Royal Baking Company is now under the management of Raymond and Bart Streb, sons of the founder.

Imports

United States imports during the crop year 1938-1939 were equivalent to the produce of only 7,564,000 acres, while farm exports represented produce from approximately 28,375,000 acres.

North Carolina Lacked What Other Sections of U. S. Had At Rivers - Harbors Congress

Principal Speaker At Vo-Ag Banquet

REPRESENTATIVE Graham A. Barden of the Third Congressional District is scheduled to return from Washington this week-end to be principal speaker at the annual Father and Son Banquet of the Newport Chapter of Future Farmers of America, a unit of the Vocational Agriculture department of the school there.

Others taking part in the program include Future Farmers Roland Murdoch, Chapter officers, James Murdoch, Bill Gould, Nathan Garner and Bernard Quinn; Rev. C. S. Boggs, N. B. Chesnut, District Supervisor of Agricultural Education and possibly Colonel George W. Gillette, U. S. Army Engineer of Wilmington who is interested in flood control measures the rural residents along the upper reaches of the Newport River desire.

The always delicious banquet will be prepared and served by the Home Economics Class of the school. In the background, but responsible for the success of past annual banquets will be C. S. Long, who was North Carolina's Master Vo-Ag teacher during 1939.

EASTER

A variety of Easter Day services are scheduled for next Sunday. One of the first to be announced was the Sunrise services at Core Creek Community Church, where famous singers and music by the High School Band will be featured. Stories of other services planned for Easter Day will be found elsewhere in this edition.

Fishing And All Outdoors By AYCOCK BROWN

SENATOR BAILEY had made a tentative engagement for me to visit President Roosevelt in Washington last Friday morning to invite him down to North Carolina's share of the Atlantic Ocean for a fishing trip. But Thursday night the President had a slight attack of grippe. When Mr. James, the Senator's secretary called the next morning, all Whitehouse engagements, tentative and otherwise had been cancelled for Friday and Saturday. Worst luck for this village by the sea fishing enthusiast.

BUT—ON TWO occasions last week Senator Bailey had visited the President on matters of State and on both occasions he had talked about the projected fishing trip a young Tarheel editor was planning for him. And—Senator Bailey informed me that the President is definitely interested in wetting his line in the ocean waters off North Carolina where dolphin and amberjack are as thick as sardines in a can—at times—and where the biggest blue marlin north of Bimini have been landed, and where a whole batch of sails and barracudas were taken last year to make new fishing history for a section already famous for its rod and reel fishing.

Waterway Interests Must Organize To Be Recognized

BAILEY AND SCHLEY TALKS INTERESTING

(Written Exclusively For The Beaufort News)
By VICTOR MEERINS

The discouraging news that the President may veto the Rivers and Harbors Bill if it passes the Senate, was received last Thursday and Friday by the North Carolina delegates to the National Rivers and Harbors Congress in Washington. The bill has passed the House calling for improvements all along the coast of this State, to projects that are badly needed.

The discouraging news was brought to the several hundred delegates assembled at the Mayflower Hotel by Senator Josiah W. Bailey, whose speech before the group on Thursday morning was the high-spot of the session. Although he brought discouraging news, the senior Tarheel senator's talk, delivered in his eloquent Southern drawl brought applause after applause and kept newspapermen and photographers busy scribbling notes, something they rarely did while other speakers were delivering their talks as a

Speaks At Atlantic

DR. ZENO B. SPENCE of Goldsboro is scheduled to make a speech in the School Auditorium at Atlantic tonight at 8 o'clock. He is Eastern Carolina leader of the Townsend Plan. Accompanying him to Atlantic will be 40 musicians and entertainers, it has been announced.

Brighter Prospects For REA Project In Core Creek Section

Prospects look brighter now for the establishment of the long sought for REA project which would carry electric energy to the residents of Core Creek and Harlowe communities. The Chamber of Commerce secretary has been advised by Dudley Bagley, chairman of the NCRE Authority that the Jones-Onslow REA project as well as the New Bern REA project have been started and that next on the list will be the Carteret project insofar as East North Carolina is concerned.

Chairman Bagley of NCREA will come to Carteret soon (possibly within a week) to confer with County Agent Lassiter, Chamber of Commerce officials and others interested. The secretary of the Chamber of Commerce has urged Mr. Bagley to make every effort to get this project underway at a very early date.

C. of C. Directors Meet Monday Night

The Board of Directors of the Chamber of Commerce will meet at Miller Furniture Company on Monday night, March 25th, at 7:30 o'clock. All members of Board and others interested are urged to be present.

Novel Way To Only Folding Money In The Bottle

BEAUFORT FOLKS contributed rather slowly to the Finnish Relief Fund until someone thought of the bright idea to use an empty bottle to hold the funds. That meant only folding money would be collected, and Miss Julia Thomas, attractive employee in Sheriff Holland's office soon had the bottle filled. Shown in picture making contribution is John L. Haverstick of Beaufort and Fernandino and looking on with keen approval is Otis Smith. The scene is in front of The Fish Meal Company, and employees and executives of that organization contributed freely to the Fund, as they always do to any worthwhile undertaking.—(Staff Photo by Aycock Brown.)

Will John L. Lewis' CIO Outfit Fight Re-Election of Barden

By
R. E. Erwin In The State Magazine

With several battles royal already scheduled, the North Carolina colony in Washington will watch with great interest this Saturday night the expiration date for filing of Congressional candidacies for the May 25 primary. The busy season in Congress is now on, and according to present indications half the Tar Heel delegation in the House will be dividing its time between Capitol Hill and the highways and byways of their Districts where they must seek re-nomination.

Advance information and analysis points to the Third District as the greatest Congressional battleground.

The Committee for Industrial Organization, headed by John L. Lewis, is whetting its axe and looking, with an executioner's eye, upon the head of Representative Graham A. Barden of New Bern. The CIO is out to get "Hap" Barden, member of the House Labor Committee and plain-spoken enemy of the CIO, in this election. It goes almost without saying the CIO would like to see Barden off the Labor Committee out of Congress.

(Continued on Page 8)

Barden, like a lot of other forthright members of Congress, refused to take the attitude that the Wagner Act and the Wage and Hours Law were holy, sanctified, and inviolate. He saw in them many errors and irregularities and many elements of gross unfairness to employers, and he set out to amend them. Thus came the famous Barden Amendments, still before the House Labor Committee. Their author already has achieved some success in his efforts for reasonable interpretation of the Wage and Hours Law through the cooperation of the new Administrator, Col. Philip Fleming, Army Engineer.

The Third District is preponderantly agricultural in character, and North Carolina citizens as a whole have disapproved the high-handed dictatorial tactics demonstrated by the CIO in many parts of the country. Therefore, this CIO opposition should help Graham Barden more than it should hurt him among his own people. The CIO is definitely after his scalp. You can look for trouble in the Third District between now and May 25, because Barden is a scrapper who meets

One Quart of Corn Feature of Court

One quart of untaxed corn liquor, made perhaps in some nearby swamp, featured in Recorder's Court on Tuesday. David Parsell was charged with its possession and found guilty was ordered to pay half the costs of the court. Charles Reels, John R. Jones, Quinn Reels, Clifton Reels, and Charles Chadwick involved in the same case, were found not guilty.

Mail Truck Wreck Near Newport Tues.

Willis Loftin driver of the Beaufort-Goldsboro U. S. Mail Truck received minor injuries on Tuesday morning when the truck he was driving west-bound turned over near Newport. The truck was considerably damaged. Charles Britton, owner of mail contract was notified, carried the mail on to Goldsboro, and Loftin returned to Beaufort to be treated for injuries. He made the run again today.

POLITICS BREWING

Politics began to brew here this week with announcements being made by Charles L. Skarren, Jr., and Fred R. Seely that they would be candidates for the Legislature.

TIDE TABLE

Information as to the tide at Beaufort is given in this column. The figures are approximately correct and are based on tables furnished by the U. S. Geodetic Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is, whether near the shore or in the bay.
