4. That while U. S. firms fork over their tribute in dollars, such royalties as Germany and Italy pay are in the form of blocked marks and export lira; that is, money that can be spent only in Germany or Italy.

Actually, the money levy is a secondary consideration. What really worries the authorities is how much vital military production information these royalty agreements betray to the Axis.

Since most royalties on patents are paid according to the number of units sold, it should be a simple matter for the Axis to obtain detailed figures on types and rate of flow of important materials to the U. S. army and navy and to Britain. Last year the justice department cracked down on Bausch and Lomb when it discovered that under a secret royalty agreement the firm supplied the German licensor with a detailed accounting of certain instruments delivered to the
