ON THE HIGHWAY

Reporting 980 deaths and approximately 10,000 injured as the result of traffic accidents in North Carolina last year the Highway Safety Division this week released a horrible story of death and destruction on the streets and highways of this state during 1940.

The 1940 traffic death toll, highest since 1937, represented an approximate 4 per cent increase yeals an increase of around 6 per

state last year included 337 pedes-skidding vehicles, 29 to improper trians, 270 persons killed in motor vehicle collisions, 161 killed in cars that ran off the roadway, 68 killed in cars that overturned on ions with fixed objects, 35 killed in railroad crossing crashes, 20 picycleists, and 6 killed in collisions between motor vehicles and animal-drawn vehicles.

The 1940 accident report revealed that the 980 persons killed included 789 males and 191 females.

According to last year's figures, a driver stands a better chance There were 288 drivers killed, 327 passengers and 340 pedestrians.

Now for some facts about the them were males, and only 1,302 rent defects. were females: Nearly 5,000 of them were under 25 years of age. accidents the number of rural driwere involved in these accidents.

non-residents

In the matter of driving experience, only 175 of the 15,184 had statistics, according to Safety Dihad less than one year's experience rector Ronald Hocutt, is that "the in driving, and approximately 10,- typical accident last year happened 000 had more than five year's ex- to an apparently normal, sober perience. SCHOOL

Grades 1-5

It was quite a thrilled group of hildren that gathered around their ittle Post Office Friday afternoon February 14th at 2:15 o'clock to get the mail. Every child received a number of valentines and what fun it was giving them out and comparing them.

Later they were served with cardy, after which they began playing games. Every one was having such a good time that no one herd the

The Grade Mothers of Miss Coward's Eighth Grade Home Room, Mrs. James C. Lewis and Mrs. Ralph Neal of Marshallberg, delightfully surprised their adopted room with a Valentine Day Remembrance. The two girls of the Grade Mothers, Hattie Neal and Lucille Lewis, distributed first little heart sprinkled cups filled with candy hearts and chocolate drops. and then followed with large individual valentines with all-day suck-

This is the second thoughtful renembrance of this kind from the Grade Mothers. At Christmas time hocolate fudge, in plentiful anounts, was passed around.

The class voted to write their Grade Mothers and thank them for their kindness.

Mother-Daughter Banquet

The annual Mother-Daughter banquet was held in the school auditorium Thursday night, February 13th. The banquet hall was lovely decorated, carrying out the valentine motif. Mrs. Cordova, the guest speaker, made an interesting talk on the "Mother and the Daughter." The majority of the mothers were present and every one enjoyed themselves very much. To Timely

Farm Questions * * * * * * * * * * * *

QUESTION: What garden vegetables may be planted in March? ANSWER: Many early vegetables may be planted in March. Enough for a family of five with a surplus for canning may be had by following this scheduel: radishes and parseley, 50 feet of row; Bloomdale spinach, 100 feet; garden peas, 400 feet; beets, 200 feet, carrots, 200 feet; onion sets,100 feet; Irish potatoes, 400 feet. Strawberries, dewberries, raspber-

QUESTION: Is it possible at this time to treat small grain so as to improve yields at the coming

ANSWER: W. H. Rankin, N. C. State College Experiment Station agronomist, says it's hardly possible to overcome poor management practices at seeding time, but supplemental treatments in the form of top dressings will aid in improving yields. Top dressings are recommended for small grain on all soils and conditions where the supply of nitrogen is relatively low and vegetative growth inadequate for production of at least 20 to 25 bushels of wheat and 40 to 45 bushels of oats. An application of nitrate of soda should pay well.

QUESTION: What is the best method of planting kudzu?

ANSWER: Technicians of the Soil Conservation Service point out that the best method is to set the plants in a well-settled plant bed. Dig holes with a mattock or spade deep enough to accomm date the plants. Then place the roots against the firm side of the hole and pack the soil tightly, leaving the top bud level with, or slightly below, the surface of the soil. If the rows are 25 feet apart, space the plants about 3 1-2 feet apart in the row. Around 500 plants to the acre are recommend-

The Senior Class presented the Special Meet For Forces To Be Held Here On March 7

A county-by-county campaign to acquaint North Carolina farmers with provisions of the double-barreled 1941 supplementary AAA program begins this week, announces John W. Goodman, assistant director of the N. C. State College Extension Service.

First of the meetings start Thursday in ten counties, as an equal number of teams of agricultural specialists open the drive. Last of the meetings will be held March 8. In the time intervening, every county affected by the program will have been reached.

In Carteret County, a special meeting has been called for March
