**NEARLY DONE** 

Hearing To Determine Advisability This Is One Of The Attractions Of Buck's Exposition At County Fair

Aycock Brown Has **Resigned His Job** As C. Of C. Sec'y

Held Here By U.S. Engineer Sept. 17

Aycock Brown, secretary of the Chamber of Commerce here since it was reorganized in 1935, sent a letter of resignation to President Graydon M. Paul and each mem- relative to proposals to modber of the Board of Directors this week, explaining why he was compelled to give up the job, effective September 15. He also mailed postal cards to most of the mempostal cards to most of the members of the organization stating that it was necessary for him to resign. The main reason for the resignation was because the job was becoming to much of a financial undertaking for the local newspaper editor.

## **House Of Beauty** Opens On Ann St.

"The House of Beauty" Beaufort's newest beauty shop which is located on Ann Street in the Noe Building near the intersection of Turner will formally open on Friday, September 12. An advertisement announcing the opening, else where in this edition will be good for \$1 credit on any permanent wave at the shop in the next two

weeks. The marquee or blue awning extending from the building across the sidewalk to the street adds to the attractiveness of the new shops exterior. The interior has been beautifully decorated and the best equipment available has been installed. Misses Callie Lupton and Miss Leonda Guthrie will be the operators.

C. D. JONES COMPANY BUILDING ADDITION

C. D. Jones Grocery Company is erecting additional storage facilities for their firm. The building is under construction on the pier at the rear of the store. It will be used for storage purposes. Already this leading grocery firm has much storage space in its main building on the second floor. Additional equipment on the inter- tic has granted the Beaufortior of the store will be installed at an early date, it was announced by Mr. Jones.

Hearing Colonel Earl I. Brown, U. District Engineer of Wilmington announced this week that a public hearing ify the channel from Back Bay to Lookout Bight is necbecause Congressman Barden was the person who introduced the Bill to improve the project in the first place, has served a most useful purpose for fishermen and navigation interests in general since the initial improvements were made.

**Interested Parties** 

Urged To Be At

The public hearing will be held in the Superior Court room here in Beaufort at 11 o'clock Day Light Saving Time on Thursday, September 18. The main idea is to determine the advisability of deepening the existing channel. Congressman Barden introduced a Resolution which was adopted on August 6, for a review of this project with the thought of improving same.

Since hundreds of boatmen who do commercial fishing out of Core Sound ports have profitea by the Inlet which often proves of too shallow depth for loaded boats, it is expected that many of their representatives will be present. Not only do the commercial food fishermen use the channel but many vessels of the menhaden fleet **JAYCEES GET** would like to use it, if it was of sufficient depth to permit passage of boats. It is expected that in addition to representatives from Atlantic, Davis, Harkers Island, Sea Level and other eastern communi-

ties that members of the Chamber of Commerce and the newly formed Junior Chamber of Commerce will be present at the hearing.

## Local School Will Be On D.L.S. Time

Although announced last week that the Beaufort School would open at 9:30 o'clock D.S.T., it was found advisable to change hours. School will open in the morning at 8:30 o'clock; recess at 12 until 1 o'clock and dismiss at 3:30 o'clock P. M. Daylight Saving Time.

#### Washington, D. C.

#### POLITICAL DYNAMITE

There was real political dynamite behind that letter President Roosevelt sent the Young Democrats convention in Louisville blasting Democratic isolationists as "obstructionists who are in the wrong party."

The scorching attack was a tip-off on undercover plans which may make next year's congressional elections the hottest in years.

Nothing has been said about it, but certain administration and Republican leaders have discussed uniting Democratic and Republican forces to oppose all congressional isolationists regardless of party label.

Under the proposed plan, Administration-G.O.P. backing would be thrown behind incumbent antiisolationist congressmen whether they are Democrats or Republicans. Furthermore strong coalition candidates would be entered against isolationist congressmen seeking reelection.

One of the most significant things about the plan is that it has the hearty approval of Wendell Willkie.

Discussing it with a group of friends the G.O.P. standard bearer declared. "The people should have the opportunity in every senatorial and congressional election next year for a clear-cut expression of opinion on this all-important issue of foreign policy. This referendum should not he cluttered up with phony or See MERRY-GO-ROUND-Page 2

While Walter Winchell is on tempo rary active duty with the U.S. navy his column is being conducted by guest columnists. This week's column is written:

### By KATE SMITH We're All Americans'

As a singer and commentator I have had my say via radio to millions of Americans both at home and abroad. From time to time I receive gracious invitations from editors to express myself as a reporter on topics of the day. I always welcome such opportunities and more so now, for I feel that not enough is being said on behalf of America for Americans.

Not so long ago I introduced a new song of America titled "We're All Americans" which your editor thought should be the title of this column. The lyrics of this song which I made recently for Columbia Records, reads:

"We're all Americans,

We're proud to bear the names Our nation's fathers wove a flag By the light of freedom's flame. Now waving bravely overhead, It tells us what to do; We're all Americans,

All true blue.

\*Permission by Collwill Corp.

It is that flag which gave us our birthright. It is that spirit which gave us our courage. It is that freedom which made our land a great democracy. It is that somethingfaith\_perhaps-which is found in See WINCHELL-Page 2
