Mrs. Francis Murphy returned home Saturday from Atlantic where she spent the past week.

Mrs. Mabel Smith spent the weekend in Atlantic visiting her sister.

"NAVY INTELLIGENCE"

Is it necessary to be a high school graduate in order to enlist in the Navy?

No. Navy enlistees need not be high school graduates. All applicants will be given an examination containing approximately 100 questions. A grade of 50 per cent or better on this examination is sufficiently high to pass the Navy educational standards. However, a high school education will be valuable to the seaman during his Navy enlistment.

If I enlist in the Navy or Naval Reserve, will I be sent to a Navy Trade School?

All new recruits are sent to one of four Naval Training Stations and after a training period they may take examinations for entrance into Navy Trade Schools. Those recruits who pass their examinations with sufficiently high grades are sent to Navy Trade Schools before assignment to the fleet. While attending these schools, they will receive regular Navy pay and free schooling valued at \$1500.

What is the greatest possible pay I can expect to earn during my first term of enlistment? It is possible to earn as much as

\$126 a month by the end of your first term of enlistment, and remember that your clothing, lodging, medical and dental care are all supplied free.

After I have served my term of enlistment, what benefits do I get for re-enlistment?

Depending on your rate and length of service, you can get a cash bonus up to \$300 plus 30 days leave with pay.

What does the term "ash can" mean in the Navy?

An "ash can" is a slang term applied to the depth charge used to combat submarines. The average "ash can" is a container filled with approximately 300 pounds of T.N.T. and can be dropped overboard from a ship and so controlled as to explode at depths ranging from 35 to 300 feet. These are generally carried by the fast ships in the fleet, as a boat dropping a charge regulated to explode at 70 feet depth must move away from the explosion area at a speed of 25 knots or more. These "ash cans" are either rolled off the stern or shot from "y-guns" which hurl one right and one left simultaneously.

Mrs. Dwight Tomlinson and son of Miami, Fla., are spending two weeks with her mother, Mrs. Herbert Salter.

Mrs. Stacey Murphy and children spent the weekend at Straits visiting her sister, Mrs. L. H. Watson.

Mrs. Carrie Currier spent several days last week in Morehead City with relatives and attended the revival at the Pentecostal Hol-

N. C. Farm Order Is For More Milk, Eggs

The North Carolina "order" under the nation's 1942 plan for record expansion of food output will be for less wheat but more milk and eggs, E. Y. Floyd, state AAA executive officer at State College, reports.

"Despite some recent, inconsistent reports about Britain having 'plenty' of food," Mr. Floyd says, "the British have left absolutely no doubt but that they need enormous supplies of all foods except wheat, and American agriculture has agreed to tackle the job of furnishing those supplies. Our own state job, with first emphasis on increasing egg and milk production, will be to boost the output of just about all foods by approximately 15 per cent."

North Carolina representatives of every U. S. Department of Agriculture agency, led by State College Extension and AAA men, started this week a campaign which will include visits to every farm in the state. The purpose of the farm visits will be to outline production needs to every farmer, analyze each farm's land and equipment and then to give the farmer a concrete 1942 plan under which the farm's food production can be expanded without excessive expense to the farmer.

Other "basic" food commodities which Tar Heel producers will be asked to "bear down on" Mr. Floyd adds, are beef and pork. North Carolina farmer have never produced sufficient supplies of milk, eggs, poultry, beef or pork to feed their own state's population. "That makes the need for increases doubly important," says the AAA leader.

"The 1942 food drive is strictly a voluntary proposition" Mr. Floyd declares, "and farmers will be asked to cooperate with the plan only after they have been shown why increases are needed and how their prices will be protected thru the Summer of 1943 by government buying."

Television

Much U. S. Department of Agriculture marketing news now is being distributed through the use of television by a New York radio station.

4 NECESSARY INGREDIENTS of Satisfying Wines

Tobacco Prices Are Still On Upgrade At Greenville Marts

GREENVILLE — Official figures as released by the Agricultural Marketing Section, AAA, of the United States Government, show that prices on the Greenville market are still on the upgrade, Friday's sale of last week going for the highest average of the season as 1,580,968 pounds of tobacco were sold for \$574,057.82, or an average of \$36.31 per hundred.

Starting the week with an average of \$35.43 for Monday's sale and continuing with an average of \$35.08 for Tuesday, \$35.10 for Wednesday, and another \$35.10 average on Thursday, Greenville ended the week with the average mentioned above, \$36.31 per hundred for Friday's sale. Total sales on the Greenville market this week, quoting Government figures, were 5,148,930 pounds sold for \$1,831,267.68, averaging \$35.57 per hundred. On Friday of last week prices of all types of tobacco advanced to new high levels, good, medium and common leaf all sharing in the price increase.

A sale of one barn of tobacco, just as it came off the tiers, made by Roy Harris near Winterville, North Carolina, is illustrative of the very high prices being paid for fancy leaf. Mr. Harris sold one bale of twelve grades for \$38.00, \$43.00, \$52.00, \$57.00, \$61.00, \$61.00, \$63.00, \$63.00, \$63.00, \$63.00.
