## Go To Church Sunday

### EASTER SERVICES

#### Easter Services In St. Paul's Church

The Easter services in St. Paul's Episcopal Church will follow the same schedule as former years. At seven o'clock the celebration of the Holy Communion with full choral accompaniment. At 9:45 the Sunday School session and presentation of the Mite Boxes. At eleven o'clock the service of Morning Prayer and the Easter address by the Rector. Following the eleven o'clock service there will be a second Communion for those who were not able to attend the earlier service.

The remaining schedule of Holy Week services are Thursday evening at 7:30 the Maudy Thursday Holy Communion in commemoration of the Last Supper. Good Friday at 10:30 (Morning Prayer); 12:00 Intercessory prayers; 4:30 (Evening Prayer); 8:00 P. M. presentation of the sacred cantata "Olivet to Calvary." Saturday at 4:30 the service of Holy Baptism. The rector and congregation extend a welcome to all to attend these services.

#### Fishing Season Open For Easter Sunday & Monday

As has been a custom in the past Easter Sunday and Monday will be opened to fishing in all sections of the State.

When the regulations were drawn up last July it was intended that the closed season would not begin until after the Easter holidays in Piedmont and Eastern counties. Through an oversight, however, the closed season was set to begin on April 6 which is Easter Monday; therefore, the Board has agreed to amend this regulation to permit fishing on April 6 and the closed season will begin on April 7.

The closed season in Western North Carolina does not begin until April 15 and there should be no misunderstanding about the open dates up there.

#### Numbers Assigned By Draft Board

Order numbers for all those who registered in the Third Selective Service draft held on February 16 have been assigned and the list posted at the Local Board office in the Morehead City city hall. A similar list will be posted at the Beaufort News office on Craven street in a few days.

The Board stated today that notices are in the mail for all those men who are due to leave for induction with the April quota from Carteret county.

Deep sea divers of the U. S. Navy have attained depth of more than 500 feet.

Washington, D. C. SENIORITY

War and Navy Secretaries Stimson and Knox let the senate foreign relations committee in on a number of military secrets, which cannot be disclosed, when they testified behind closed doors on the \$500,000,000 loan to China. In return, the cabinet officers were vouchsafed a political secret by Senator Tom Connally, committee chairman, which can be told.

The courtly Texan was confronted with a problem in protocol in trying to decide whether Stimson or Knox should be the first witness. Finally, he turned to the 74-year-old war secretary and said:

"Mr. Stimson, we will hear you first. I believe you have seniority."

"I won't stand on my seniority if you prefer hearing Mr. Knox," smiled Stimson.

"Oh, we insist," said Connally. "We are great believers in seniority here in the senate. If that weren't so, some of our committee chairmen wouldn't have our jobs."

Note: Though not named by Connally, Senator Reynolds of North Carolina, chairman of military affairs, is definitely in this category. Able Senator Austin, though a Republican, is also in this category. See MERRY-GO-ROUND P 7

#### Core Creek Church Announces Program For Easter Services

Rev. W. Y. Stewart, pastor of the Core Creek Community Church, will preach at the third annual Sunrise Services on Easter morning which will begin at 6:30 EWT. Mrs. Graydon Paul, organist, will render a number of selections on the Hammond organ which was installed last summer, using the outdoor chimes. There will be band music, singing by the choir and solos will feature the musical part of the program.

The program is as follows: Organ Prelude—Mrs. Paul. Processional To Cemetery—Hymn 162. Pastor—The Lord Is Risen! Response By Congregation—The Lord Is Risen Indeed! Selection By Band—"Holy, Holy, Holy."

Hymn—181. Selection By Band—"Love Divine."

Litany No. 590. Prayer By Pastor. Selection By Band—"O For A Thousand Tongues To Tell."

Processional To Church—180. Prayer—573. Hymn—158. Responsive Reading—641—Gloria.

Prayer By Pastor. Hymn—179. Scripture Reading. Solo—"Open The Gates Of The Temple"—Dr. Baxter. Sermon. Recessional—160. Benediction. Postlude—Mrs. Paul.

#### Identity Cards, Licenses Issued To Boat Owners

Government officials from Norfolk will be in Morehead City today and Friday for the purpose of issuing identification cards and federal licenses to boat owners and operators in Beaufort and Morehead City.

Under the present war-time regulations it is absolutely necessary for every person owning and operating a boat in coastal waters to have a government-issued license and identification card. Also, all members of crews on boats must have identification cards. The cards carry a picture of the person to whom it is issued. This rule applies to all whether the person owns a small motor-propelled skiff, a party boat or private yacht.

The officials will be at the Morehead City Yacht Club at the foot of Seventh street. Roy Eubanks, local photographer, will also be there to take the necessary picture if one is not available. Much time and money will be saved by those who take advantage of the chance to secure cards and licenses now. Otherwise, a trip will have to be taken to Norfolk or Wilmington for the purpose.

#### Post Office Thief Is Taken at Camp Davis

CAMP DAVIS, N. C., April 1.—They've captured him, the one who stole a \$50 money order from the post office at Camp Davis a few weeks back. He gave up without a struggle; just a few squeaks.

He's a mousey creature, just the type to go around nibbling at money orders and throwing the post office books out of balance. For want of a better name, the P. O. employes call him Joe.

Sure, he's a mouse. He was found rustling through some papers in the waste basket, probably looking for another money order. Joe is now kept in a cage at the post office. The staff gets a kick out of feeding him, but they give him cheese, not money orders.

Lieutenant Matson, postal officer, says his men are certain Joe is the same one who snatched the \$50 certificate, knawed it up and lined his nest with it. They're certain there's been only one mouse seen in the building.

The chewed-up money order has been redeemed by the postmaster general. Joe is in protective custody. Everyone in the P. O. is happy.

Eliminating flight training is being carried on in sixteen Naval Reserve Aviation Bases.

#### Memorial Services Held Sunday

Memorial services were held for Livingston Ward Brooks, pictured above, in the church of Latter Day Saints on Harkers Island last Sunday afternoon. The service was very sad and impressive. The large crowd which was present filled the church and a large number of people stood in the yard during the service, being unable to get inside. An honor guard of

#### LEGION HUT IS IN NEED OF SOME MORE FURNITURE

#### Building Will Be Opened Soon For Service Men

The crew of workmen who have been working on Carteret Post Legion Hut on Turner street are about finished and the formal opening will be held soon. The Hut has been ceiled inside, the windows made larger and screened and other needed repairs have been made to make this building comfortable for the visiting service men which will use it.

An appeal is being made to the citizens of Beaufort to donate any piece of furniture that they can spare to finish furnishing the building. Although some furniture has been contributed, some odd chairs, a settee, some floor lamps or table lamps and another table are needed. Look around your house and if you have any of the above pieces of furniture which you can spare, call some member of the American Legion and they will send and get it.

#### AROUND TOWN —With— MACK CLARK

There is one thing that we and a lot of others, with whom we have been talking, want to do. That is, to be around the world somewhere when this present war is over. The reason for our wish is that there are a lot of questions and problems to be answered, but we realize that the answers won't be found until years after the whole mess is finished.

For one thing, what became of all the proposed legislation of a few years ago to the effect that if and when this nation was again involved in war all industry and labor would be drafted; profits would be eliminated and wages would equal that of men in the armed forces. Can it be that behind all the smoke of battle between employer and employee, there is a dark and secret alliance to thwart the democratic responsibility of all people of the nation to protect and defend the country?

Again, the rubber problem. From what we read in the papers it seems that the research departments of several large industries have been experimenting with synthetic rubber for a number of years. The results of these experiments are covered by international patents. One of the conditions attached to the patents seems to be an agreement that the holders of the secret processes in one country will not use the process without the consent of the holders in other countries. This is no doubt legitimate business proceeding. However, today, companies holding these patents are in nations that are declared enemies. Enemies in a conflict to determine whether

#### SHIP SINKINGS PROVE COSTLY

#### U. S. Sinks 28 Subs Since Pearl Harbor

ELIZABETH CITY, N. C. — "The Axis has paid a terrible price in both submarines and men to achieve its record of sinkings on the Atlantic seaboard." Rear Admiral Manley H. Simons, U. S. N., commandant of the Fifth Naval District, stated at exercises held here Wednesday afternoon when the Navy's new lighter-than-air base was placed in commission.

In spite of the price the Axis is paying, Allied ships will continue to be attacked in bad weather, the admiral admitted, and the only reply to sinkings "in fog and storm is to keep surface ships off the ocean, which so far has proven impossible." He also stated in this connection that there is no foundation for statements that there is a lack of cooperation between the country's armed services, all of which are working for one common aim, "to destroy every Axis submarine operating in these waters."

The \$6,000,000 base will be used mainly for dirigibles, the admiral said, dirigibles which possess "one property which is worth its weight in gold in hunting submarines. Unlike the airplane, which must constantly keep a high speed in the air, the dirigible can hover. In other words,

#### Ocracokers Use Expensive Wood In Their Stoves

On March 2, the 4-masted schooner Anna Heidritter, wrecked during a gale on Ocracoke Beach. The vessel was loaded with dye-woods consigned to a northern port. Dye wood is very valuable and it has been estimated that the current value of same is approximately \$230 per ton. When the schooner wrecked, most of the dye-wood on deck washed ashore. Natives of the island salvaged the wood and took it to their homes to use as firewood. Some of the residents of the island have retrieved several truck loads of the wood, and it is said to equal seasoned oak as fuel.

In view of the fact that dye-wood is valued at \$230 per ton, it is likely that the Ocracoke people have the distinction of using the most expensive fuel ever used — when they burn it as fuel in their stoves and fireplace.

#### Behind The Headlines

—BY HUGO S. SIMS—

Two great wars are underway, allied and yet apart, one in Russia and the other in the Far East.

The Russians are fighting Germany, but not Japan. Whether the two struggles will be merged, by a Jap attack upon Russia, is an interesting question that can be answered only by what happens in the future.

Japs Fight Western Powers The Axis powers are tied together by their common greed but it is a mistake to believe that Japanese warfare in the Far East is designed to benefit Germany. Tokyo is out for the accomplishment of Japanese aims and the

connection lies in the aggression of Germany in Europe, which gave Japan her chance in the Far East.

The United States and Great Britain are joined to bring about the defeat of Japan and Germany but Russia is concerned with the defeat of Germany alone. Admittedly, the Soviet might decide, later on, to end the Jap threat to Russia in the Far East, just as Japan might decide now to dispose of Russia while the Slavs are battling the Germans.

Coldest Winter Worries Nazis The Warfare in Russia deserves See HEADLINES Page 8

#### WINNERS IN POPULARITY CONTEST

At a recent Baby Popularity Contest, sponsored by the Senior class of Smyrna High School when they gave their Senior play "Damsels In Distress," Elbert Chadwick Mears and Verona Jane Willis, pictured above, were selected the winners. Elbert is the son of Mr. and Mrs. Bert Mears of Gloucester. Verona is the daughter of Mr. and Mrs. Louis E. Willis of Smyrna.

#### Calls Convention Of Republicans

C. H. Bushall, Chairman of the Republican Executive Committee in Carteret County, has called a convention to be held in the Court House here on Saturday, April 11, at 1 o'clock P. M. Purpose of the convention is to elect delegates to the Republican State Convention, a chairman and secretary for the Carteret Executive Committee and to select a Republican County ticket.

#### J. F. DUNCAN JR. SECRETARY FOR AIRPORT GROUP

#### Authority Offers Cooperation To Government

Julius F. Duncan Jr., was elected secretary of the Beaufort-Morehead City Airport Authority at a meeting held in the offices of Charles V. Webb, Morehead City, last week. At the same time George W. Huntley was elected permanent chairman of the Authority and Mr. Webb was named vice chairman. Mr. Huntley as chairman succeeded Aycock Brown, former editor of The Beaufort News and the temporary Chairman-Secretary of the Beaufort-Morehead City Airport Authority since it was created through Legislative Enactment in 1941.

The Airport Authority is a five-man board, including those named and John Lashley of Morehead City. Purpose of the meeting last week was to agree through resolu-

See AIRPORT Page 3

#### City Protection Council Completed By Chairman

#### C. Z. Chappell Is New Commissioner

L. W. Hassell, Clerk of Superior Court, has appointed C. Z. Chappell as a member of the Carteret County Board of Commissioners to fill the unexpired term of the late W. P. Smith. Mr. Chappell is a citizen of Beaufort and holds a similar office with the town board which he will probably resign at the next regular meeting. Mr. Chappell was sworn in Wednesday by Clerk Hassell.

#### Hatteras People Salvage Cargo Of Grounded Vessel

News has been received in Beaufort that a number of the residents of Hatteras Village have salvaged certain items from a vessel which wrecked on Diamond Shoals recently. Included in the items salvaged from the vessel which was reported to have been sinking beneath the sands was huge bundles of rope, many gallons of paint, and various types of navigation instruments. Name of the vessel was not given in the report which reached The Beaufort News, via a resident of the coast who had recently passed through the community.

#### New Service Formed By The Red Cross For Hospitals

Delegates from the Beaufort Chapter of the Red Cross attended a regional conference at Camp Davis last Tuesday to take part in the formation of the new Camp and Hospital Service Council. Those attending from here were Dr. and Mrs. F. E. Hyde, Mrs. C. R. Wheatley, Mrs. Jas. Rumley, Mrs. W. S. Chadwick and Rev. E. C. McConnell.

This new Red Cross Service will have as its purpose the welfare of the sick and convalescent in Army and Navy hospitals. The War and Navy Departments furnishes necessary medical and surgical supplies for all hospitals, but depends on the Red Cross for those things that boost the morale of the wounded and sick.

All chapters in Eastern Carolina will have members on the Council which will meet every four or six weeks with Field Directors to check on the needs of various camps and stations. Chapter delegates will report to their chapters which will in turn make an appeal to local civic clubs and individuals. The Red Cross will act as the channel through which the gifts are made. The most needed articles are additional surgical dressings, lap boards, games, current magazines, sheet music, phonograph records, and outdoor furniture. The general public will have an opportunity in the near future to give through the local chapter.

#### Wild Geese Are Plentiful Along The Outer Banks

Wild Geese are very plentiful along the Outer Banks of the coast at this time. The geese which were elusive and wild during the hunting season have now moved into the marshlands and are quite tame. Residents of the Banks report that many of the geese which move into the marshes become so exhausted from lack of proper food, that they die. It is the opinion of residents of the outer coast that many of the geese which ordinarily migrate during the Spring months to northern breeding grounds—will remain on the North Carolina coast this year.

#### Sports Fishing To Be Underway Soon

Sports fishing along the North Carolina coast is beginning and already persons who try their luck from bridges or piers have reported catches. Harkers Island bridge is one of the favorite spots for many of the rod and reel fishermen during early Spring and some good catches of sheephead and black fish have been taken there recently, according to reports reaching Beaufort.

#### Mayor Paul Tells Meeting Of Plans

#### EMERGENCY TRYOUT IN NEAR FUTURE

Mayor G. M. Paul, chairman of the Beaufort Civilian Protection Council, addressed a gathering of interested people at the Legion Hut Monday night on the developments of the local council. Mr. Paul stated that within a few days every committee chairman and member would be fully instructed in his duties and be prepared for any emergency that might arise out of the war.

On page 8 of this edition of The Beaufort News you will find the complete set-up of the council with the work and post of the various branches of the council. The Mayor said that a daylight trial alert will be staged as soon as the public becomes familiar with this program. He expressed confidence in the members of the council to go to their appointed positions and function as directed. But in his opinion the majority of the people of the city have not as yet learned the fundamentals of what to do in case of an air raid or a shelling from surface craft.

There are a few simple rules to be observed when an alarm is sounded. First, get off the streets and stay off whether walking or driving, day or night. Second, if at night, black-out your house or place of business, and keep it blacked-out until the all-clear signal.

Chairman Paul also emphasized precautionary measures that can be taken by every person in the town. Each house should have a box of sand on the back porch, a long handled shovel and a length of garden hose with a spray nozzle attached. These materials are essential for handling an incendiary bomb.

Following the outlining of the council set-up Fire Chief Julius Duncan gave an exhibition of how to take care of an incendiary bomb. He first showed the bomb and explained that it burned at a temperature of more than 3000 degrees. The thermite core of this type of missile supplies its own oxygen and is therefore inextinguishable. During the 14 or 15 minutes that it burns it will throw a heavy metal roof and as many as five floors, setting fire to each floor of the building.

Duncan then lighted the bomb with a fuse and showed how to handle it with sand and shovel. First step is to spread a layer of sand near the bomb. Then move it onto the sand with the shovel. After a layer of sand has been put over the bomb, sand and bomb can both be taken up on the shovel and
