To prevent passing of war secrets in taverns, the Office of War Information has asked the nation's linen supply firms to put badges like the one worn by Virginia King on uniforms supplied to bartenders and barmaids.

METHODISTS LOOK TO FUTURE ON 165th. BIRTHDAY

Announcement Made Of \$3,200 Pledged For Church Repairs

Last Sunday Ann Street Methodist Church fittingly celebrated the founding of their Church 165 years ago at all the services of the day. At the eleven o'clock service, the pastor, the Rev. W. Stanley Potter gave the anniversary sermon on "The Church of Christ Alive Today." At the evening service, Mr. M. Leslie Davis, gave an extremely interesting talk on old Beaufort and the early days of the church here. Special music by both the adult and Sunshine Choirs added to the beauty of the occasion.

Since the beginning of July local Methodists have been undertaking to raise \$4,000 with which to repair their church home. It seemed that on a day set apart to remember those who have carried on the work on the church in the past, it was fitting that the Chairman of the Building Committee should announce that \$3,200 of that amount has already been actually given or pledged so that the work of the church which has carried on through so many years will continue to go forward.

SOS from FE at USO

Miss Frances Eddy of the USO is sending out a call for people who have an extra room or rooms to list them with her in order to help solve the problem of housing for soldiers and sailors wives and ladies. If you find yourself a little prejudiced against taking women or children, imagine yourself in the same situation and see if it doesn't modify your prejudice some if you can help Miss Eddy help someone else, give her a call at 6-851-1.

Rat Meeting

- CANNED GOODS**
Blue N. P. Q, good until Aug. 7.
MEATS, ETC.
Red, P. Q, R, S, good until July 31.

HUMBER CRUSADE STEAMERED BY HERALD-TRIBUNE

World Federation Launched Here Gains Momentum

Three years ago next December, six months after the fall of France, Robert Lee Humber called a group of Carteret County friends to his Davis Island home and there in the open beneath the live oaks presented a plan for a post war "Federation of the World." Since then he has given his whole life to educating the people of the United States to this thought and has done it with the singleness of purpose of one inspired.

Recently the same issue of the New York Herald Tribune that carried a condensation of Wilkie's "One World," carried the story of Humber's campaign under a streamer, "The World Ahead—Humber's World Federation Idea Has Stirred State Legislatures."

Thirteen states of these United States have already taken some kind of affirmative action in support of Humber's Federation of the World and four of these states: North Carolina, Maryland, Rhode Island, and Alabama, passed word for word the resolution that Humber read to his friends two days after that Christmas of 1940.

Humber is pleased when a Legislature adopts his resolution but the important thing to him is adoption of a resolution providing endorsement of the principle of world federation without equivocation. If he gets this, the authorship of the resolution is secondary.

After Humber read his resolution at Davis Island: "Man, the source of all political being, is a manna of several communities—the city, the state, the nation, and the world." Judge Luther Hamilton, of Morehead City stood up, moved for the adoption of the resolution, saying that he felt that he was present at one of the great moments of history. All of the things present on that occasion as they follow the progress of Humber's campaign must think back often to Judge Hamilton's words spoken with prophetic insight.

To Tobacco Farmers

Saturday of this week every tobacco farmer of Carteret County is being asked to go to their nearest polling place and vote either for or against the tobacco referendum.

During the year 1939 when tobacco was not under control, North Carolina farmers lost 10% of their tobacco acreage due to the increased acreage grown in other Southern tobacco producing states. After this tobacco was grown by these new tobacco farmers allotments had to be established and that meant that we lost 10% mentioned above in North Carolina. If tobacco quotas are not in effect in 1944 the same thing will probably happen in 1944 that took place in 1939. From the best information that can be obtained it looks now as though North Carolina will have to largely support the referendum. The other tobacco producing states who have a small acreage would like to do the same thing they did in 1939. The question for our tobacco farmers to answer is whether we want to keep our 65% of the total flue-cured tobacco acreage now being grown and get a fair price for our tobacco or whether we want to let the bars down.

Before casting your vote Saturday I would like for you to consider the following prices that our farmers received for their tobacco since there was a control placed on acreage production.

The price of tobacco ran from 8.4 cents per pound in 1931 to 27.3 cents per pound the first year control went into effect. Quotas were rejected in 1939 and the price averaged that year 14.9 cents per pound as compared to 22.2 cents average in 1938 and 23 cents per pound in 1937.

The last referendum held placed quotas in effect for three years and prices have advanced each year. The 1941 crop sold for 28.1 cents per pound and the last year's crop sold for an average of 38.4 cents per pound, which was the See FARMERS Page 10

HELICOPTER TO GO INTO QUANTITY PRODUCTION

This Sikorsky type of helicopter, which will be built in quantity for the Army Air Forces by Nash-Kelvinator Corporation, peacetime manufacturer of automobiles and refrigerators, can alight on land, water, snow, thin ice, a rooftop or a parking lot. The craft can hover motionless in mid-air; descend and ascend vertically without forward motion and fly backward, sideways or forward with equal facility.

BEAUFORT BOYS IN THE SERVICE

William Arthur Lenox, Aviation Machinist Mate 1st Cl. USN, and Harold Lenox, Aviation Machinist Mate 2nd Cl. USN, of Corpus Christi, are spending this week with their mother, Mrs. Math Owens.

Boyd E. Talbot USMC, is on furlough following experience in the combat zone.

Sgt. Melvin D. Edwards, son of Wm. C. Edwards, has recently been promoted to the rank of Staff Sergeant. Public Relations Officer of Dale Mabry Air Base Area Command, Tallahassee, Fla., also announces that Edwards was married in Tallahassee in May to Miss Blades of Lake Morry, Fla. Edwards enlisted in the USA at Ft. Bragg in March, 1942.

Pvt. Robert Willis, USA, Cape Cod, Mass., is spending leave with his parents, Mr. and Mrs. Julius Willis of Live Oak Street.

Cpl. George Brooks has been transferred from Camp Forrest, Tenn., of Fort Sill, Okla.

Pfc Ben Bell is in Alaska with the Military Intelligence Department of the Army Air Corps.

Sgt. Ted Richards has been transferred from Camp Crowder, Mo., to Ft. Dix, New Jersey.

Cpl. Linwood Lewis, USA, member of a tank corps at Camp Phillips, Kansas, since last December, is spending this week with his parents, Mr. and Mrs. Nat Lewis, of Live Oak Street. He leaves on Saturday to return to his post.

Sgt. Douglas Merrill who was transferred from Camp Davis to Camp Gordon, Fla., and from there to Camp Wheeler, Ga., has found his way back to Camp Davis again. A year ago he attended Indian Motor Cycle School, in Massachusetts, and at Camp Davis is to study motorcycle mechanics. Douglas was here Monday night leaving Tuesday morning for his new post. The Merrill's only other son, Clyde, is 1st Cl. gunners mate on duty in the Pacific War Zone.

Roy Eubanks has just been home on three days leave. He returned to Statesboro Air Base, Statesboro, Ga., on Saturday.

Coxswain Otis Mades of the Charleston, S. C., Navy Yard is here on a visit to his wife, Mrs. Challie Mades.

Lt. Claude Wheatly and Lt. Jerry Michael of Camp Butler spent five days leave with Lt. Wheatly's parents, the C. R. Wheatly's of Front Street. They returned to Durham on Tuesday.

Capt. Johnnie Way of Camp Shelby, Miss., has been spending a week with his mother, Mrs. B. C. Way, of Front Street. He left today to his post.

Lt. Comdr. George Taylor and an Annapolis class mate, Lt. Comdr. Frank Ward, formerly of Raleigh, flew from Washington on Tuesday of this week and spent the day with the N. W. Taylor's.

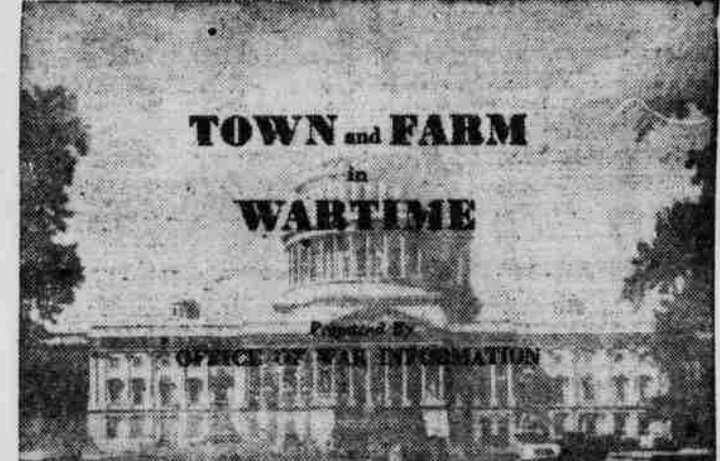

Citizen's Corps To Sell War Bonds On Mollie Pitcher Day

A special War Stamp and Bond Drive is scheduled for Mollie Pitcher Day, Saturday, August 7th, by members of the Citizens Service Corps. Mrs. J. G. Allen, Chairman, outlined plans in brief at a meeting of the Corps at St. Paul's Parish House on Monday of this week. These tentative plans call for a house to house visitation by Zone Chairmen with other organizations of the town lined up to work the down town section.

"Safe Food Handling in Wartime" was the subject of the program of this Monday meeting in which members of the County Health Department showed the interesting film, "In Your Hands." Safe methods of handling food in the home was stressed and just what the public should expect in the future.

The problem of establishing collection points for waste fats and for tin cans was presented. Several members stated that they salvaged pounds of waste fats, but could find no place to turn them in. The same was said to be true of tin cans and metal scrap. It was decided that the C. S. Corps should try and make arrangements for salvage of these things, collection points to be announced later.

Fish is a protein-rich food. When you buy fish, be sure it's fresh, with the flesh firm and elastic, the eyes bright and full with black pupils, not gray or sunken.

MARVIN JONES' CROP REPORT

War Food Administrator Marvin Jones said recently that, on the average, farmers are meeting this year's production goals for field crops. Earlier reports indicated that livestock and livestock products also will reach production goals. Mr. Jones said: "We will have enough food in this country—given at least average weather for the rest of the year—to give civilians adequate and healthful diets, in addition to meeting military and other essential wartime requirements. This does not mean, of course, that there is any better chance than appeared earlier for having all the food that civilians would like to buy, or that civilian supplies for some individual items will not be far below the demand."

"For some important crops—including rice, oats, flaxseed, and potatoes, estimated 1943 acreage is well above the year's goals. 'Acreage of corn, hay, barley, grain sorghums, cotton and tobacco is about at their goals. Acreage of sweet potatoes, dry field beans, peanuts, and sugar beets is below 1943 goals."

ATLANTIC BEACH PULLS CROWDS IN SPITE OF GAS SHORTAGE

Week-ends Bring Together Men and Women from Every State in Union

Atlantic Beach at our very door is proving a godsend to Beaufort people, strangers who want to relax over the week-end, and Service Men from all over the County. Soaring temperatures give promise of another record week-end there, and folks will find ways and means of getting over to enjoy the breezes, the surf and the Saturday night dance at the Beach Casino with Sammie Guthrie and his orchestra.

Fewer cars may be parked around the circle than in other years, but as someone has said, "you should see how many each of those cars bring." Gillikin's buses operating hourly between Morehead and the Beach have also done much to solve the transportation problem. They come in packed on Wednesday afternoons and all day Saturdays and Sundays. Over the week-ends when service men and their ladies and wives are over it is safe to venture that the crowds along the beach represent every state in the Union.

Due to the shortage of labor you will NOT be notified when your time is out, but your name will be dropped from our list at the expiration of your subscription, so please watch this label date and send in your renewal before expiration date for if your name is dropped you may not be able to receive the News due to paper rationing. All subscriptions are Payable in Advance.

YOUNG YEOMANS EXONERATED IN CAR ACCIDENTS

Inquest Held Sun. In Deaths of Two On July Second

The inquest in the death of eight year old Gherman Styron and Tyree Moore, father of a family of seven, both of Harkers Island was conducted Sunday afternoon at City Hall, Morehead City, by Coroner A. H. James, and Leland Yeomans, high school boy of Harkers Island, was exonerated of criminal blame. A split jury was called consisting of three men from Morehead City: George T. Wheaton, E. A. Council, and Vernon D. Paul; three from Beaufort: John D. Brooks, John T. White, and James L. Conley. They concluded that the accident was unavoidable as far as the driver was concerned, and the second accident grew out of the first—all persons in the car were equally eager to get to the hospital as they felt the life of the child was at stake.

The accident happened Friday evening, July 2. The Styron boy ran in the path of the car driven by Yeomans in front of the moving picture house on Harkers Island and was struck by the car. Yeomans took the child in the car together with his mother, Mrs. Callie Styron, his sister, Mrs. Bernice Styron Lewis, and Tyree Moore to rush him to the hospital at Beaufort. At Beaufort they collided with a truck driven by Rupert Pigott, of Straits, resulting in the death of Tyree Moore and injury to the other passengers. Yeoman was held under a \$1000 bond pending the inquest.

Laborers Leave

The Carteret County Farm Labor Camp came to a successful close last week and the County Home was turned over to the county Board of Commissioners.

The camp was filled to capacity with approximately 130 farm laborers. During the time that the workers were in the county they served thirty-two farmers in the trucking area in harvesting Irish potatoes, tomatoes, snap beans, and the setting of sweet potatoes. The distribution of the farm laborers about over the county was greatly assisted by the cooperation of leaders that follow these laborers all the way up the eastern shore.

The farmers of the county who used this labor feel that it was of tremendous value to them in the harvesting of their crops. A number of them expressed the idea that they do know what they would have done this year if it had not been for this labor.

In a number of the potato producing counties there is quite an acreage of potatoes that will not be dug due to the fact that the labor was not available to dig them.

The migratory labor that was in these areas moved up to other sections in order to fill their contracts.

Completes Course

Albert Chappell, son of Mr. and Mrs. C. Z. Chappell, of Marsh Street, has completed the Aviation Machinists Course at Jacksonville and been given the rating of Seaman, first class, U. S. N. R. He is now having two weeks of Radar at Jacksonville after which he has been selected for aviation gunnery school for four weeks. Just where this will be, he doesn't know.

Albert is a graduate of our high school of the Class of 1941 where he was one of the leaders in football, basketball, and baseball. After graduation, he attended State College and Mars Hill. He left the latter during the past January in order to enlist in the Navy.

Albert has not been home since he left to enlist but reports seeing William Skarren and Julian Hamilton occasionally both of whom are stationed at Jacksonville.

Wright's Working New Farm Land

K. W. Wright who bought the Snowden farm ten days ago has been cultivating potatoes there this week and putting out some whole farm are uncertain except that he intends to farm it personally as it is closer both to town and to his farm than his other properties. There is a possibility of putting part of the acreage into broccoli which he has grown successfully on his other place.

With the purchase of Mrs. Snowden's land, the Wrights bought from her all equipment, tools, everything on the place pertaining to farm operation and all live stock except the hogs.

Invitation

There will be a formal dance at Fort Macon next Wednesday from 8:30 to 11:00 to which Miss Eddy would like to take 150 girls. Transportation will be provided. Buses will leave a little before eight. Those interested are asked to call Miss Eddy at the USO Building.

TIDE TABLE

Information as to the tide at Beaufort is given in this column. The figures are approximately correct and are based on tables furnished by the U. S. Goddard Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is whether near the inlet or at the head of the estuaries.
