The County Health Department has been busy for several weeks eliminating would be kings and queens of health according to a health score. They have narrowed the nominees down from 30 odd to Alberta Jones, Senior Queen, Francis Willis, Senior King, Peggy Hamilton, Junior Queen, Billy Shepherd, Junior King -- tops selected from the tops.

To all of us old broken down, flat footed, sinus infected, rheumatic, twichy, concave, middle aged wrecks they hold peculiarly enviable positions -- as Emerson says "Give me health and a day, and I will make the pomp of emperors ridiculous."

"Thanks A Lot"

Occasionally instead of browbeating business men into giving us ads and trying to make them feel it is their duty in order to keep a paper going in their community in times which we admit are difficult, we like to say a word of appreciation for the support they do give.

Last week 76 individuals and firms carried an average of 9.21 inches apiece exclusive of legal notices and advertising of the United States Government which somehow it always manages to get free.

Advertising defeats its purpose unless it gets to your public. THE BEAUFORT NEWS reaches more people in Carteret than any other paper. Furniture to sell? Amusements to offer? Paint? Farm necessities? Fishing equipment? Clothing? Shoes? Drugs? or what have you? THE NEWS goes into homes of those men shipping cabbages, the farmers who will soon be getting potatoes and tomatoes and beans out by the truckload, those with money in their

socks from the fishing season, defense workers with full purses, officers and enlisted men in all branches of the Service, merchants, professional men--In short it reaches Carteret County from Roe to Swansboro.

We congratulate advertisers on their ability to know a good medium when they see it for we know that after all they are too shrewd to advertise through benevolence. Our satisfaction is in knowing that they are getting results or we wouldn't have it.

"The Prudent Looketh"

"The simple believeth every word; but the prudent man looketh well to his going." Prov. 14:15.

With the papers filled with words kind and unkind, praising and dispraising, blessing and abusing, applauding and disparaging, cheering and sneering, glorifying and bespattering, according to the political sentiments and aspirations of the respective writers as is prone to be the case before an election offering keen competition, we make no plea for or against any candidate. We do, nevertheless, urge people of Carteret to get beneath the smoke screen of words and examine each candidate's respective qualifications in the light of what they want for the state, and nation--weighing both the candidate's desire to give those things and his ability to bring those things about. It is too important a time in our history to put men in positions affecting policies in our country through lazily letting a catch phrase or so influence voting. "The simple believeth--the prudent looketh."
