Roosevelt, Cherry Easy Victors; Carteret County's Best Election

President Roosevelt carried Carteret County with 3434 votes against 1544 cast for Gov. Dewey.

Approximately 12 per cent of the county's eligible voters failed to cast a ballot. In view of the fact, however, that only 374 absentee ballots were received from approximately 1600 Carteret men and women in the armed services in time to count, later figures will undoubtedly show that Carteret did a man-sized job in getting out nearly 100 per cent of the available voters.

Carteret's vote reflected the voting trend in the State.

Gregg Cherry polled 3392 votes against 1524 for the Republican gubernatorial opponent, Frank Patton.

Former Governor Clyde R. Hoey polled 3422 votes against 1510 for his Republican United States Senatorial candidate, A. I. Ferree.

D. Ward and R. A. Whittaker, unopposed Democratic candidates for State Senate, each polled 3392 votes.

H. S. Gibbs polled 3328 votes against 1480 for his Republican opponent, N. H. Russell for State Representative.

The County Board of Elections meets tomorrow to make a final and complete tally of all votes cast in the county's 27 precincts. The Beaufort News will carry the complete chart in its next issue.

The Beaufort Presidential vote was 817 for President Roosevelt, 244 for Gov. Dewey.

The Morehead City vote was 1000 for Roosevelt, 232 for Dewey.

Beaufort Democrats passed part of yesterday morning congratulating themselves on their showing and vowing to build up as big a total Democratic vote in the next election as Morehead City's.

Election day, all over the county, passed without one broken head, without even a harsh word. Reports from each of the 27 precincts drew a considered conclusion on the part of old-timers, who should know, that this was the best ordered, best expedited election ever held in Carteret.

Polls were open from 6:30 a.m. until 6:30 p.m. with voting everywhere steady throughout the day with only a slight increase in the late afternoon hours when offices and stores had closed.

IRVIN W. DAVIS Chairman Democratic Ex. Comm. Carteret County

wishes to express his appreciation to the Democratic voters of Carteret County, the election officials, precinct workers and especially the women for the splendid vote given the Democratic candidates in Tuesday's election.

Precinct registrars, regardless of party affiliations, did their best to get out the vote and several instances of Democrats auto-toting Republicans to the polls, and the See ELECTION Page 8

One half of the proceeds from the sale of the waste paper Mr. Jones said will be donated by the Jaycees toward the Scout Building which will be a home for both Girl Scouts and Boy Scouts.

Fifty Modern Homes Assured For Beaufort

C.O.T.P. CARDS NOT NEEDED AFTER NOV. 15

Commodore Findley 5th Naval District Lists Exceptions

Existing requirements for the possession of Coast Guard Captain of the Port Identification Cards, for all ports within the Fifth Naval District, with the exception of Hampton Roads, Baltimore and Washington, will be cancelled effective 15 November, 1944, according to an announcement made today by Commodore G. T. Finley, District Coast Guard Officer, Fifth Naval District.

In announcing the partial relaxation of requirements, the fact was stressed that no change in regulation concerning the possession of COTP cards is being made in Norfolk, Newport News, Portsmouth, Baltimore or Washington, D. C.

Captain of the Port units at Morehead City, N. C., Elizabeth, N. C., Ocean City, Maryland, and an issuing agent located at Richmond, Virginia, will discontinue issuing cards as of 8 November, 1944. All regulations concerning requirements for cards in the areas served by those offices have been waived.

The regulation which required sportsmen fishing offshore from Morehead City and Ocean City to have COTP Identification Cards has also been cancelled. This cancellation means that sports fishermen may fish offshore from any port in the Fifth Naval District, except out of the Virginia Capes, without a COTP Identification Card.

COTP Identification Cards will still be required in the ports of Hampton Roads, Baltimore, and Washington, D. C., for the following classes of persons:

1. Men employed on U. S. ships such as seamen, bargemen, and fishermen.
2. Employees working on ships or at waterfront facilities in connection therewith such as longshoremen, checkers, watchmen and public servants.
3. Men having incidental business on ships such as reporters, craftsmen, laborers, tradesmen and supervisors.
4. Employees of waterfront industries such as shipyards, power plants and railways.
5. Men making occasional or incidental use of vessels or waterfront facilities.
6. Persons desiring entry to vessels or waterfront areas whose identity is not established to the satisfaction of issuing officer, or whose photographs or fingerprints are not available.

In the port of Hampton Roads, recreationists, sports fishermen and visitors are not required to have COTP cards to go aboard or fish from sport fishing or pleasure craft, providing the operator of such craft does have a COTP card, and further providing that he will vouch for his guests.

Building to Start Next Month

Fifty modern houses are immediately assured for Beaufort according to an announcement made at noon today by W. H. Weaver, Greensboro builder, in the law offices of Graham W. Duncan who handled the involved details relating to the large project.

The land runs eastward along the Beaufort waterfront more than a quarter of a mile starting 600 feet east of the Beaufort city line. It extends back from the waterfront to Ann Street.

Some of the homes will face the Inlet from south of Front Street, others will face in the same direction from north of Front Street. Others will face on Ann Street.

The homes will sell at approximately \$6,000 apiece and purchase will be financed by the Federal Housing Agency.

Only a part of the homes will be sold. At least half of them will be placed on the market for rent.

The lots vary in frontage width from 50 to 80 feet. Most lots will have a depth of 120 or more feet.

The new homes will be available to military personnel, defense workers and possibly others.
