News Over the State

Mr. W. Steadman Vaughn, son of T. L. Vaughn, of Winston, died in St. Leo's Hospital at Greensboro Monday night of last week.

John Crabtree is in jail at Durham charged with moonshining and held under a bond of \$300. Crabtree is a white man and was caught last week in the upper edge of the county.

A. L. Stewart, for the past two years employed in the power department of the Southern's big plant at Spencer, has been promoted to round house foreman for the Southern Railway Company at Charleston.

The Governor last week offered a reward of \$200 each for the capture of Charles Fodrell and J. L. Fox, convicts who recently escaped from the Penitentiary, in addition to the rewards offered by the State's Prison.

Robert and Keith Pritchard, mountaineers, who, it is alleged, shot and killed W. W. Honeycutt and wounded Revenue Officer Garland, in Caldwell county, February 28th last, were acquitted last week in the Superior Court at Lenoir.

W. C. Rackley died at Mount Airy Sulphur Springs last week in his 61st year. The remains were taken to Greensboro, where the interment took place. For many years he was a merchant at Clinton. He is survived by a wife and six children.

A negro girl, named Sims, ten years old, was killed by an elevator at Coleman Bros', leaf tobacco house in Winston last week. The girl was not employed there. Her head was caught between the elevator and the second floor and was crushed almost into a jelly.

The men recently hurt when a hotel building which was being erected at Marion collapsed, are recovering. Jack Cecil, the Davidson man who was badly injured, is getting well. The men, when taken out from the debris, looked as if they were mashed into a pulp.

Two carpenters, J. A. Johnson and another named Mitchell were injured Wednesday of last week in the collapsing of a water tank being built at the Holt Williamson cotton mill on Russell street in Fayetteville. Mitchell being so badly hurt that no hopes is entertained for his recovery.

S. C. Fulham, of Cabarrus county, up to the 28th of August, owned a mule named Pete for exactly 33 years. The mule was 39 years old and was purchased from Dr. J. M. Wilson, of Mecklenburg county, in 1870. Pete passed from the ownership of Fulham into the stables of death.

Mack Johnson, son of Samuel Johnson, of Ellendale, Alexander county, on his way home from Caldwell county a few days ago, was killed instantly when his horse fell on a bridge. His party had got ahead of him and he was riding fast to catch up when the animal stumbled. He was 21 years old and well thought of.

A Negro convict, serving sentence on the roads of Guilford County, while attempting to escape was shot and instantly killed by a guard at the Mount Pleasant road building camp one day last week. The negro was sentenced two weeks ago to a four weeks term by City Judge Eure for trespassing.

Winston-Salem is to have the largest Kint Goods Bleachery in the South. Work was begun last week on the addition to the already immense plant of the Maline Mills. As soon as it is completed additional machinery will be installed, sufficient to make it the biggest enterprise of the kind in the South.

Deputy Sheriff George Gray was tried before the mayor of Kinston last week and fined five cents and cost for slapping a negro boy. Mr. Gray went to collect for taxes and the boy grabbing him, thought that the youngster was making an attack on him, so he slapped him, whereupon his mother swore out a warrant charging the officer with assault.

Traffic managers of all railroad companies doing business in North Carolina are directed by the corporation commission to appear before the commission on September 15th for an investigation of the freight rates from North Carolina ports to interior points in the State, as compared with the rates in force from ports of Virginia and South Carolina to inland points in their respective States.

Rev. Judson L. Vipperman, for the past six years pastor of the Baptist church at Dallas, has accepted a call to the pastorate of the Spencer Baptist church, effective October 1. He will succeed Rev. James Manning Daunaway, formerly of Emporia, Va., who has been pastor in Spencer for three years. He has accepted a call to Wilson and will go to that place September 26.

Robert S. Noah, who is at the head of a large and wealthy company of northern capitalists, has bought the match factory buildings and property at Ronda, Wilkes county, and will convert them into a lican and paper mill. The company will use the new Oxford process for the manufacture of linens. It is said that by this process flax can be bleached perfectly white in twenty-four hours.

Special Agent D. A. Kaupe and Deputy Collector W. A. Hendricks of Revenue Agent Sam's Office, returned to Asheville recently from Tryon, where they located and captured an illicit distillery running full blast. After leaving the scene of the moonshining activities the blockaders opened fire on the revenue officers using shotguns and smokeless powder. Several shot took effect in Kaupe's back and arm. His injuries are not serious.

The North Carolina's half million dollar bond issue for the enlargement of the State hospital for the insane is declared by the Supreme Court valid in an opinion just delivered. The act authorizing the issue was questioned as to its constitutionality after the purchase of the bonds by Raleigh Saving Bank and Wachovia Loan & Trust Company, because the adoption of the amendment was claimed to be material, without a three separate days' reading.

In the Circuit Court of the Eastern District of North Carolina, Judge Henry G. Conner last week handed down his decision sustaining the oil inspection laws of the State, passed at this year's session of the General Assembly. He dismissed the bill of the Red C Oil Company, of Baltimore, which asked injunction relief and that the law be declared unconstitutional because of alleged excessive tax of one half cent a gallon, unjust regulations and delegated authority.

RULES FOR THE CITY BEAUTIFUL.

Inhabitants May Accomplish Wonders by Persistent Organized Effort.

Every town in the United States may become a city beautiful. Individual working alone have accomplished much but they inevitably need help. A community should have an organized effort, and when this conclusion has been reached by the conference, steps should be taken to effect one says Clinton Rogers Woodruff in the THE DESIGNER for October. The organization completed, what next? Here are some of the "first things" undertaken by organizations that have had successful careers:

Enlisting the children in keeping the streets clear of paper and other rubbish.

The maintenance of rubbish barrels for the litter of the streets.

The carrying of the space between the sidewalk and the curb, and for the gutters themselves that they may be kept clean and free from rubbish.

The elimination of weeds. Cooperation with the tree-warden if there is one, or whoever may have charge of the trees. If there is no more important first step than to have some one official charged with this duty.

Preventing telephone and electric companies from hacking off and mutilating the branches and tops of trees.

The enforcement of ordinances relating to expectoration, the throwing of papers and circulars on the streets.

Keeping the individual premises in good order, including the back yard.

The erection of window-boxes and their proper maintenance, summer and winter.

Having the city keep the streets, between the curbs, clean. If its officials don't know how, show them! Lots of organizations have and it has meant a new era for the community. If you can only begin with a small block, do so—but make the beginning. That is the important thing.

It's Your Kidneys.

Don't Mistake the Cause of Your Troubles.

Many people never suspect their kidneys. If suffering from a lame back or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Residents of this vicinity are constantly testifying to permanent cures.

J. W. Zink, of Greensboro, N. C. says: "I suffered from backache for some time and a dull pain through my loins caused me a great deal of annoyance. The kidney secretions were also frequent in passage and disturbed my rest. Hearing Doan's Kidney Pills highly recommended, I decided to give them a trial and procured a box. Their use quickly regulated the passages of the kidney secretions and removed the other annoyances and I had no more of my trouble since. I take great pleasure in recommending Doan's Kidney Pills to other sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

POSSESSION OF THE POLE

Effective Occupation Alone Constitutes Right of Sovereignty.

Springfield Republican.

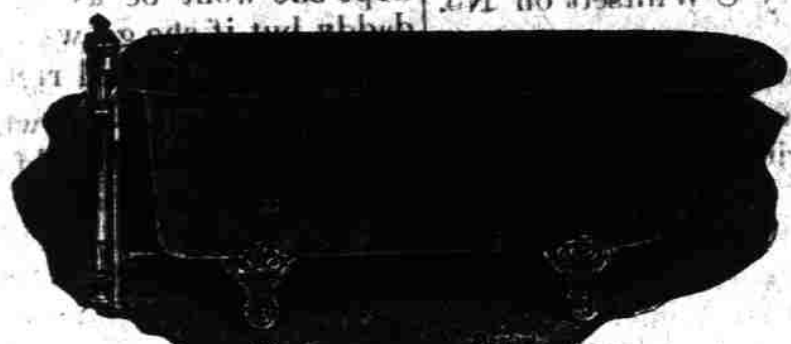

Most of the suggestions that new lands discovered in the far North came automatically under American sovereignty by right of discovery have been made in a facetious spirit, but the State Department seems to fear that the idea may be taken seriously, and it has been at some pains to correct possible misconceptions. Of course, there is now no such thing as legal possession by the mere right of discovery; but original discovery strengthens a claim if it is followed up by an official flag-raising and an effective occupation. There must be real possession, in the long run, and not a mere paper claim to jurisdiction, based on one proclamation of sovereignty. When the new world was discovered these questions were gradually threshed out, and the modern practice finally established. At first, Spain claimed the entire coast of America because Ponce de Leon, in 1513, landed on the coast of Florida; but the English claim was equally good, because the Cabots had already explored the coast from Nova Scotia to Cape Hatteras. Such conflicts were necessarily compromised, in the end, only by the development of the doctrine of effective occupation. There have been many discoveries of new lands in the extreme polar regions in the past fifty years by the subjects of various countries, but of effective occupation by their governments there has been exceedingly little, for reasons seen at a glance.

New Heating system installed. Signor D'Anna, Director of Music. Rates moderate. Send for New Catalogue.

JOSEPH L. MURPHY, President

The Angle of the Blade

One of the exclusive features of the Keen Kutter Safety Razor, wherein it excels all others, is the angle of the blade. It is set at just the right slope for a comfortable, velvety shave. It can't scrape—it can't slip over the beard—every stroke cuts clean and close without the slightest discomfort to the most tender skin.

This is but one of the important features of the remarkable

KEEN KUTTER Safety Razor

that make it the greatest safety razor ever manufactured.

The blade may be slanted to the proper degree to give the sliding cut that shaves smoothly without pulling, and this slant can be regulated to suit your own style of stroke.

The blades are sufficiently thick to insure a keen, durable edge and rigid enough to prevent any springing or vibration of the blade while shaving.

Every razor in a leather case with a dozen blades ready for shaving. The Keen Kutter trade-mark guarantees satisfaction.

Silver Plated in Black Leather Case, \$2.50
 Gold Plated in Pigskin Case, \$3.00
